The barn on Oscar Bower's truck farm at Red Hill, two miles east of town, was destroyed by fire last Thursday evening. It is supposed it was set afire by a freight engine that went west shortly before the fire.

The editor of this paper strongly endorses the action of General Charles H. Grosvenor, in requiring a certain share of the proceeds from the sale of his book to be set aside for a McKinley Monument Fund. Our readers will see an advertisement of this book in another column of this paper.

The Youth's Companion in 1902.
To condense in a paragraph the announcement of "The Youth's Companion" for 1902 is not easy. Not only will nearly two hundred story-writers contribute to the paper, but many of the most eminent of living statesmen, jurists, men of science and of letters, scholars, sailors, soldiers and travelers including three members of the President's Cabinet.

In a delightful series of articles on military and naval topics the Secretary of the Navy will tell "How Jack Lives;" Julian Ralph, the famous war correspondent, will describe "How Men Feel in Battle," and Winston Spencer Churchill, P. M., whose daring escape from a Boer prison pen is well remembered, will describe some experiences "On the Flank of the Army."
And this is but a beginning of the long list. A complete announcement will be sent to any address free. The publishers also announce that every new subscriber who sends \$1.75 for the 1902 volume now will receive all the issues for the remaining weeks of 1901 free from the time of subscription; also "The Companion" Calendar for 1902—all in addition to the fifty-two issues of "The Companion" for 1902.

Government Estimate of the Corn Crop.
The Agricultural Department at Washington has just issued its estimate of the year's corn crop, showing a total yield for all the states of 1,250,597,000 bushels. Of this the statement shows that Nebraska, notwithstanding the dry weather which prevailed during July, will furnish 103,367,000 bushels, or more than one-tenth of the entire crop.

This is interesting as showing the wonderful recuperative properties of the Nebraska soil. There is probably no other state in the Union which would, under the circumstances, make such a magnificent showing. Nebraska is a grand state and is rapidly increasing in wealth and population.

THE RAILROADS AND THE CHICAGO LIVE STOCK SHOW.

Why the Railroads Encourage Exhibitions of This Character.

An official of the C. B. & Q. was asked recently why his road took such an interest in the International Live Stock Exhibit which is to be held in Chicago, November 30 to December 7.

"It is very simple," was the answer. "During 1900 our line brought into Chicago 612,000 head of cattle, and their estimated weight was 734,400,000 pounds. Now suppose by interesting the farmers from all over our 8,000 miles of road, they come to the live stock, see the splendid exhibits—the largest and finest in the world—realize the difference between high grades and scrubs, see the extravagance of putting good feed into poor stock, and so by encouraging them to breed better animals which when fat would weigh 10 per cent. more than the old sort, it is plain that our tonnage on this class of freight would be increased to the extent of 73,440,000 pounds. An item of considerable importance. The annual live stock exhibition at Chicago is a big thing for the country, the farmers and railroads. Don't forget that for a minute."

Letter to W. W. Wittenmyer. MIDDLEBURGH, PA.

Dear Sir: We want an agent in your town for the foremost paint in the world: Devco lead and zinc. We bespeak a few words to say how much more this means than simply the sale of good paint.

Our agent has to administer this agreement with every customer. "If you have any fault to find with this paint, either now in putting it on, or hereafter in the wear, tell your dealer about it."

"We authorize him to do what is right at our expense."

We become, you see, the partner of every man that uses paint; and the partnership lasts as long as he chooses to continue it.

Suppose 100 jobs of painting are done with Devco lead and zinc this year; and some of them don't turn out satisfactory two or three years from now. Our agent has got to "do what is right at our expense."

Of course this means that we know our paint is going to turn out all right.

We have been in business, we and our fathers in business, 145 years; have made a great deal of paint; and have dealt with thousands and thousands of people. Are not in the least afraid to "do what is right" when a job goes wrong.

And, in this age of adulteration, we say "Send it to your state chemist. If he finds it adulterated, we will pay his bill and send you \$100."

There is such a thing as honest business yet in the world.

Yours truly,
F. W. DEVCO & CO.

Peddler's License Law.

A bill approved by the Governor, June 14, 1901, authorizes County Treasurers to issue licenses to hawkers and peddlers of dry goods, notions, crockery and tinware. A foot peddler is required to pay \$10 yearly; one with a horse and wagon \$40.

Upon conviction for violation of this a fine not less than \$100 or more than \$500, or imprisonment for not less than three months or more than one year, or either or both, at the discretion of the court, may be imposed.

See the announcement of the Hayner Distilling Co., Dayton, Ohio, which appears elsewhere in this issue, explaining their plan of supplying the consumer with four full quarts of Hayner's Seven-Year-Old Rye for \$2.00, express prepaid.

Startling, but True.

"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempseytown, Pa., "you'd sell all you have in a day. Two weeks' use made a new man of me." Infalible for constipation, stomach and liver troubles. 25c at the Middleburg Drug Store, Graybill, Garman & Co., Richfield, Pa., and Dr. J. W. Sampsell, Penns creek, Pa.

BRAIN FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at the Middleburg Drug Store. Get Green's Special Almanac.

PORT TREVORON.

Mrs. Lloyd Speece visited her parents the past week.
Ed. Arnold wife and bright little daughter Ruth of Shamokin spent a week with relatives in town.

Harvey Shaffer has gone to Sunbury to be night partner at the City Hotel.

Lydia Lenig held public sale of personal property last week, and it was well attended considering the busy season.

Elmer Daubert of Milton accompanied by his dog were roaming o'er our township in search of the "invisible bird," the quail last week.

Misses Carrie and Hattie Geist of Herndon and their cousin, Miss Geist of Ashland were the guests of George Troutman and wife over Sunday.

C. W. Knights had a wagon train loaded with apples pass through town enroute to Herndon where they were loaded on cars and shipped to Phila. H. F. Charles did the packing and the Commissioner is planning to take the old veteran along to assist him down there.

G. A. R. Post 148 of Selingsgrove was in town Saturday evening to inspect Post 407 of this place. After leaving the G. A. R. hall they proceeded to the National Hotel and had an excellent supper. The Post of Selingsgrove enjoys coming to town and seldom, if ever misses having a good meal here in town.

In the spring the cry of the farmers was "What will we do for corn and potatoes?" And now when the corn cribs and potato bins are filled and the market over-looked they are wondering what to do with the corn and potatoes.

We wish to compliment the "Sunbury trio" which consists of Ancker Neitz and Shambach for the interesting manner in which they conducted the exercises in the K. L. C. E. Sunday evening.
