Within the next week or ten days Sunbury will be the scene of a merry telephone war which promises to besome very interesting and full of jingles before the the end is reached. The Bell Telephone Company which formerly had a monopoly on the telephone business in this place until the United Telesent editor assumed control of graph and Telephone Company secured large number of subscribers intend to make a thorough canvass and by greatly reducing the rate, place a large number of phones throughout the

"As the offices of the Pennsylvania Railroad Company are only connected with the Bell system an effort will be made to establish telephones in the homes of all the different railroad men employed by that company and it is expected that about five hundred new subscribers can be secured. Telephones will be placed in private homes at the rate of less than one dollar per month and the company feels sure that this will be a great inducement in enlarging their list and increasing their business. What the exact rate will be has not been made known yet, but will be finally decided before the canvass is started. When telephones have been placed in many private homes a canvass of the business houses will be made and it is the opinion of the company that there will be very lew who will refuse to connect with their sys-

The report states also that the Bell eople intend to extend their lines to Snyder county and on to Lewistown.

## OFF FOR NORTH DAKQTA.

Surely North Dakota should develop rapidly when Snyder County sends out such representatives to become pioneers in a great state that needs more good industrial people.

## Workman Digs up Pot of Coins.

While excavating for the new tunnel of the Pennsylvania Railroad Company, at Gallitzin Tuesday, a work-man named Giovanni Patulli unearthed a pot cotaining \$2000 in gold and silver, none of which bears a later date than 1835. Patulli with difficulty kept the other workmen from taking his find, and he is preparing to return to Italy. It is supposed that the money was secreted there by Lewis, the famous robber, who ravaged that vicinity in the thirties.

## Cook's Train Derailed

A keg of beer caused a wreck on the Lewisburg branch of the Pennsylvania railroad, one day last week. The accident occured on the river between Lew isbug and Montandon.

A keg of beer that had evidently rolled from a car lay on the track in the bridge and when Conductor Cook's passenger train came along the keg succeeded in derailing one of the coaches and in the wreck that followed, the engine was quite badly damaged.

# Our Friends, the Druggists.

It is a pleasure to testify to the generally high character of druggists. But because of a few exorptions to the rule, it is necessy to caution the public to be on guard against imitations of Perry Davis' Painkiller. See that you get the right article, the soothing, helpful Painkiller that was used in your family before you were born. Don't be taken into buying a substitute. There is but one Painkiller, Perry Davis'.

# SMALL-POX AT REBERSBURG.

#### Seven Cases. - Rigid Quarantine Enforced .-Patients Much Improved.

The small-pox patients near Rebers. burg are much improved. They are boing cared for by a skilled nurse in the person of A. S. Kulp, of Lock Hayen. The most rigid quarantine is being enforced at present, and will be until all danger of the spread of the disease has vanished. In fact, the citizens of the surrounding neighborhood have decided that after the patients have r covered radical measures will be purgerm-infected property.

The names of the patients having small-pox at present are as follows, and are located fully half a mile north of Rebersburg: Hon. Willis R. Bierly, Earnest Bierly, son of the former; Mr. the patients are; Frank Reed and Miss Thos. P. Derr and adopted daughter Minnie Shultz, employees of the Stella, were at the county seat Mon-Harvey Bierly, of Sugar Valley, who makes her home with the Franks-Centre Reporter.

## 2000 TYPEWRITERS.

"Pennsy" Will Furnish Each of Its Opera tors with a Machine.

The Pennsylvania Railroad is about to place the biggest order for type writers on record. All operators now using their own machines will be furnished with a new standard machine to be kept in order by an inspector and repairer who will visit the offices monthly and keep the machines in good condition. It is estimated that 2000 machines will be needed between New York and Altoona.

A number of the local offices have already been equipped with fine instruments. Many of the men, however, still furnish their own typewriters. This big order does not make it look as though the telegraph is to give place to the telephone on the Pennsylvania Railroad.

## Letter to Calvin Stetler,

MIDDLEBURGH, PA. Dear Sir: Your business is, when a

house burns down, to give the owner some money to build a new one. It is a good business. Queer that the world got on so long without it.

We paint the one that burnt down and the new one too. What is better, we paint the houses that don't burn down.

You insure the houses that burn; we insure the houses that don't. You have Saturday evening to attend a meeting the ashes and smoke; all the houses are ours. We paint lead and zinc: Devoe. We sell the paint to painters; we don't
