OLD MEN AND YOUNG.

Only Three Are Under Forty Year d One is Over Eighty-Month of May Holds the Highest Record.

When woman suffrage is thor-aghly established in this country and women sit in both houses of congress it may become necessary to revise some of the customs that now prevail, and especially that unwritten law that makes it necessary for every senator and representative to furnish an autobiographical sketch, beginning with a statement of age, for publication in the Congressional directory. The records in the directory are revelations to many people who consult them. These records show an evenly balanced senate of

young men and old men. The records show that of 86 seneridge, of Indiana, and Kearns, of Utah, are under 45 years of age, the Texas senator being 38 and the senators from Indiana and Utah 39 years of age. Twelve senators are between 40 and 50; 30 between 50 and 60; 26 between 60 and 70; 14 between 70 and 80, and just one, Senator Pettus, of Alabama, between 80 and 90 years of age. Senator Pettus was 80 years of age his last birthday.

Senators who have lived more than 70 years, nearly all of whom have the vigor and appearance of much younger men, are Allison, of Iowa, 72; Bates, of Tennesese, 75; Cullom, of Illinois, 72; Frye, of Maine, 70; Gibson, of Montana, 71; Hawley, of Connecticut, 75; Hoar, of Massachusetts, 75; Jones, of Nevada, 72; Morgan, of Alabama, 77; Platt, of Connecticut, 74; Proctor, of Vermont, 70; Stew-

art, of Nevada, 74; Teller, of Colorado, 71, and Vest, of Missouri, 71. Senators between 60 and 70 years of age are Aldrich, of Rhode Island, 60; Bacon, of Georgia, 62; Bard, of California, 60; Berry, of Arkansas, 60;

Louesome All Round. The ark had been about ten days on its journey, and the occupants were by this time well acquainted. "It's a dreary time," said one of the two fleas. "Here we are compelled to satisfy ourselves with but two dogs to

ive upon." "I'm getting lonesome," said one dog to the other. "There are not enough yeas to lend zest to life, and the mirobes are all camped on the two cats." Baltimore American.

Just What She Needed. "What's this thing?" asked a man who was inspecting a music emporium. "That? Oh, that's used on violins.

We call it a chin rest." "Gimme one!" exclaimed the visitor. "S'pose it would work on my wife?"-Tit-Bits.

Dr. Minot J. Savage spoke recently "Home and Society," saying, in part: "There is in New York that ome and Society. which calls itself,

par excellence, society. It is made up of the Four Hundred, or, I think, some recent authority has been reducing it to One Hundred and Fifty. I do not mean to say anything against the persons who constitute this interior organization in society. Many of them are noble, intellectually cultivated,

charitable and generous; but a society that is organized around the idea of wealth alone must of accessity be igno-A thin body makes thin ble and vulgar; there is nothing in the highest and finest sense of the word human merely in the possession of wealth, and if these people who meet together and constitute a certain section of society merely because they are wealthy will excuse me for not wanting to be with them I will freely pardon them for not asking me. I was at the opera the other night, and I saw one woman who illustrates what this sort of thing comes to when it degenerates and gets itself perfect expression. I have never seen anything outside a show at Tiffany's that in any way suggested this woman. It was barbarie. She had the air of telling everybody that she had not come there to hear the music, but merely to be looked at, and she was loaded and hung all over, in every possible place, with diamonds and gems and jewels of every kind. Now, we can forgive an Indian or a Fiji Islander his anklets and bracelets, his noserings and earrings, because he has not, presumably, been developed to anything higher than these. but the type of society whose distinguishing feature is that kind of thing certainly is not human in the true sense in which that word ought to be used." Of course this has an application outside as well as inside of New York. Whether the wealth that is offensively ostentatious be great or small, it shows a despicable trait of character.

> Automobiling, like other sports, is as attractive to women as to men. The Automobile The automobile girl has become a Girl, recognized type of

young American womanhood. She is delightfully independent; she is essentially piquant. Perhaps, says the Centaur, just yet she cannot endure the long journeys or tours that men find pleasure in, but she is just as enthusiastic over automobiling as they are, and is sure the day is soon coming when she cannot only stand the ordeal of an automobile journey of hundreds of miles, extending over several consecutive days, but enjoy it quite as much as her male companion. Automobile tours are bound to become one of the favorite recreations for men and women. And why not? They will get more people out into the sunshine and air for one thing, and there is no denying the benefit of that. They will provide a new way of entertaining one's friends, and who will not welcome that? And, then, there is just the genuine pleasure of it-the exhilaration, the novelty of the new sensation. Although it is difficult to overrate the influence of business ability and character qualifications in an applicant for an office position, the personal preference of the employer of the Statue of Liberty Enlightening often decides the matter. A large depot for oriental goods was recently opened, and a woman bookkeeper was desired. From the many applicants a fair, gentle-voiced, graceful sonification of the broad political and girl was chosen. Another candidate accepted the situation philosophicalin the United States. It simply ly, but wished to know the ground of means that no satisfactory method preference. "Then I tell you, mees," of lighting the torch has been de- replied the courteous Persian. Isn't it Worth 25c. To Be Cured of Constipation

People who suffer from habitual constipation with all its attendant il's, elogged stomach and bowels, sluggish liver, heartburn, indigestion, and thin and impure blood, are too apt to believe that the only remedy is violent purgatives. The contrary is the case. Such cathartics, even if they do move the bowels, are irritating and griping, leave the stomach inflamed and enfeebled and the constipated condition recurs with greater difficulty of cure and the sufferer constantly growing worse. There is a laxative that moves the bowels without pain or griping, cleanses the stomach, sharpens the appetite, stimulates the liver, strengthens the nerves, and purifies the blood, while its marvellous tonic properties tone up the entire system and keep it healthy.

Laxakola Does

Its remarkable tonic properties reach every organ-the liver, kidneya and stomach, nerve, heart and brain-and removes the cause of your debilitated condition. This is the only way to secure an absolute and permanent cure.

Laxakola is the only medicine for babies, is purely vegetable and its action is gentle, speedy and effective. For coated tongue, simple fevery colds, chills and languid feeling it is the ideal medicine.

It tastes good. IF Children like it and ask for it.

Lazakola, the great tonic lazative, is not only the most efficient of family remedies, but the most mical, because it combines two medicines, vir : laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 25c. and 80c., or send for free sample to LAXAKOLA CO., 122 Nassau Street, N. Y., or 356 Dearborn Street, Chicago.

Iowa, 44; Fairbanks, Indiana, 49; Heitfeld, Idaho, 43; Kean, New Jersey, 49; Kittredge, South Dakota, 40; McCumber, North Dakota, 44; Mc-Laurin, South Garolina, 41; Penrose, Pennsylvania, 41; Pritchard, North Carolina, 44; Simmons, North Carolina, 48. Fond mothers, in casting up the chances of their boys to become senators, says the Washington Star, may study with some interest the records of the months in which the senators

were born. Boys born in the late winter and early spring have the least chance. Of the 86 senators whose days of birth are given, only four were born in February, five in March and four in April. August was a bad month for senators, as but five came into the world in that month. The highest record is held by the month of May, in which ten senators were born. January, October and July. were months fruitful of senators, as nine of them were born in each of these months. Six were born in

November and six in December.

A Sure Sign. A physician driving past a place where stonemasons were at work on some monuments, called out: "Hard at work, I see. You finish your

gravestones as far as 'In memory' and then you wait, I suppose to see who wants a monument next."

"Why, yes," was the answer, "unless somebody is ill and you are treating him, and then I know just how to go June, eight in September, seven in on."-N. Y. Times.

The authorities of a Pennsylvania town, afflicted with a scourge of smallpox, acted in the light of experience when they ordered that all dogs and cats found running loose in the streets should be shot. It is well known that these animals carry contagion, as their hair offers a congenial lodging-place for disease germs. Parents cannot be too careful in keeping pet cats and dogs out of the sick-room of a scarlet fever or diphtheria patient, and in seeing that their children do not play with pets which belong to families where there is or has recently been contagious disease.

Coroners in Baltimore are appointed by the goverpor for a term of two years. There are seven coroners in Baltimore, all of them physicians and all having separate districts of town.
