Though we have Shak for it that 'Men have died as nd worn have eaten them. but not for love,' Victime.

modern experience belies this belief and reveals an alarm ing number of misguided individuals cause of disappointed affection, or what their morbid fancy calls by that name, choose to invite death. Though youth is the time of hope, it is also, says the Chicago Tribune, the period when despair is blackest and when rebellion against an adverse fate wages the hottest. Some of our finest odes to "Dejection" and to "Melan-choly" have been written by young

poets who turned to poetry rather than to poison for relief from their despair. It seems a great pity that at this critical period when a young man's fancy heavily turns to thoughts of death there is not some friend at hand to teach the reason and the common sense that would probably come of their own accord in later years. But these youthful scorners of life usually avoid confidences and the words "seemingly cheerful" are used to describe their state of mind immediately prior to the mad acts they contemplate. Of course the natural love of life in the young and the elasticity of spirifs that usually goes hand in hand with juvenility are safeguards against this way out of love trouble. but it is a pathetic fact that any young life should be wantonly sacrificed to these temporary aberrations.

The convention of the League of American Wheelmen was held at Tor-Passing of the rington, Conn., a

few days ago and Wheel, is reported to have been much like a funeral. From reports made to the convention it appears that the membership of the league in 1898 was 103,000, now it is only 10,500-a falling off of nearly 90 per cent. In that year there were 50 newspapers in the United States printed in the cycling interest. Now there is just one. As for clubs, in Boston, for instance, there were 53 four years ago. Now there is not one. The trade itself, although managed by a trust, is rapidly going to pieces. The secret of all this is that the fad has

ceased and other fads have taken its place. Those who rode for amusement of because "everybody else does" have guit, and the use of the wheel is confined to the few who wish to save time in getting to and from work or to enjoy the benefit of the exercise. These, however, are not many. The day of riding for pleasure has passed.

A novel and ingenious vehicle enploind 1; the press of Chicago is a motor-sled or motor-cycle partly on runners. It is the latest development of the gasoline motor and is said to be capable of tremendous speed. According to the Chicago papers the sight presented by the odd machine speeding along the ky roadway in casual com-

THE STATE FIGHT Bontest For the Governorship Well

THE FIELD HAS NOT COMBINED

Under Way.

Supporters of the Indiana Fav Are Making An Aggressive Can In Different Counties of the Ca monwealth (Special Correspondence.) Harrisburg, April 29.-There were an

ensational developments during the last week in the canvass for the no nations on the Republican state tichet. No primaries were held in which the gubernatorial question was an issue before the voters, but the declarations of the two district conventions in Laserne county in favor of the nomination of John P. Elkin, of Indiana, were in a measure a surprise to some of Mr. Elkin's opponents. Mr. Watres, of Lackawanna_county, was by many regarded as having a fairly good chance of capturing all the delegates from his neighboring county of Lazerne, but a most aggressive canvass was inaugurated in behalf of Mr. Elkin and the delegates elected in both the Third and Fourth legislative districts were instructed to vote for Mr. Elkin for governor.

The contest in the Third district was a most exciting one. The Elkin delegates won by a vote of 26 to 24 after repeated efforts had been made by their opponents to have the convention take & TOCORS.

Strong resolutions in favor of Mr. Elkin were adopted in both conventions. The counties of Adams, Sullivan, Wyoming, Clinton and Greene have also just elected delegates to the state convention, but in none of these counties was the governorship an insue at the polls.

In one district in Lackswanns county, delegates who will probably vote for Watres for governor at least on the first ballot, were elected and the candidate for the legislature who was supported by the friends of Congressing Connell was nominated in this district after the Watres men had made quite a determined fight against the Connell favorite. This would indicate that Connell's followers control the party organization in the district.

There has been no succes ment to unite the opponents of Mr. Elkin for the governorship upon any can didate.

While several men have been men tioned in this connectionnihere has been no particular candidate singled out to be supported by the anti-Elkin-Ites.

The announcement that Thomas Bigelow, one of the most infu leaders of the Citizens' party of Pitts-burg, proposes to help Mr. Eikin is a contest for delegates to the state con-vention in Allegheny county has given an interesting turn to the situation there. It is believed that there will be some lively politics in Western Pennsylvania before the state conven-

tests on for congressional nominations throughout the state, which are keep-A Russian promises a single rail sys- ing the party workers busy. The contest between Congressman Acheson, of Washington, and Lawyer Cunningham, of Beaver, is attracting widespread attention, and in Congressman Mahon's district former Senator Hummel, of Snyder county, is making a campaig.

TER CERMICAL CO.

K. DANS

I had nervous indigestion and a general derangement of the entire system. It had been a continual torture for 12 years. My blood became very poor and at times my toe and finger nails would be diseased. After esting I would sit in a chair and put my feet on something to keep them from swelling, and at times would take off my shoes for the misery I had. Whenever I experience anything to remind me of past aches I cannot be too elated to tell what Ripans Tabules have done for me. I still take one now and then, because I know how bad I have been. They were just what I noticed.

The five=cent packet is enough for an ordin= ary occasion. The family bottle, Sixty cents. contains a supply for a year.
