A Successful Young Man. Robert Laudanlager of Pilger, Neb., is enjoying a visit to friends in Snyder County. About five years ago he left his home in Penn township, having been compelled to borrow \$8.00 to secure money enough to make the trip to Nebraska. By industry and perseverance he forged his way to the front. He followed the carpenter trade and to-day he owns property at Pilger worth several thousand dollars. While in town last Friday he called at this office. "Bob" is quite a young man yet and we are glad to note his great success in his new home and we wish him a continuation of his success. This is simply an example of what a young man can do, and the example is worth trying by others.

Essay on the Mouth. In a town up the country a boy was required by the teacher to write an essay on the mouth, and this is what he wrote: "The mouth is the front door of the face. It is the aperture to the cold storage of our anatomy. It is the hotbed of toothache and the bungalow of oratory. The mouth is the crimson road to the river; it is the fountain of patriotism and the tool chest for pie. Without mouth the politician would be a wanderer on the face of the earth, and go down to a dishonorable grave. It is the grocer's friend and the dentist's hope. It is the temptation lunch counter when attached to a pretty girl, and tobacco fiend when attached to a man."

Impure Drinking Water. It is always a source of danger; dysentery and bowel troubles follow its use, every person should have handy a bottle of Painkiller (Perry Davis'), which will quickly cure these distressing ailments. Be careful and see that the storekeeper does not pawn off some worthless substitute upon you as is sometimes done for the sake of a few cents extra profit. Large bottles 25c and 50c.

SUNBURY'S VICTIMS. The baking powder fraud who skipped from Milton last week after victimizing people hereabouts, did quite a land office business at the county seat, where the sales of baking powder amounted to over three hundred dollars. At his room in the hotel where he stopped two hundred photographs were found that he had collected from his victims promising to furnish them with frames. Here he went a little further—he contracted for the frames and they were made and were ready for delivery. The fellow is a first-class fraud and the public are cautioned against having anything to do with his scheme.—Milton Standard.

Even a Stic Groans under the torment of neuralgia, when every nerve in face or limb throbs and jumps. Philosophy cannot endure this agony but Perry Davis' Painkiller relieves it. Bathe the affected parts freely, keep them warm and don't expose yourself to cold and dampness. Medical science marches right along, but it has not found the equal of Painkiller in the treatment of neuralgia.

Locusts Swarm Near Lewistown.

The seventeen-year locusts made their first appearance at Lewistown during the last two days. Coming out of the earth in the evening in large swarms, they shed their shells during the night and are ready for business in the morning. A continual hum-hum like that of swarming bees can be heard for miles, and millions of them have gathered in the orchard. In a few days all the young fruit trees will either be killed outright or badly mutilated.
