LUCID LOCAL LACONICS

Where ignorance is bliss 'tis folly to be wise. A bill may be pretty steep and still on the level. The pen is mightier than the sword, when it comes to cutting remarks. When a wife tires of her husband's kisses she may seek consolation in onions. The man who doesn't blow his own horn generally has to do without music. The fellow with an ax to grind is always looking for someone to do him a bad turn. When a fellow dreams he is being blown down by an automobile, is it a nightmare? When a man finds himself in a hole he must expect his friends to look down on him. Indications in all parts of the country point to the effect that quail will be very scarce this season. Assaulted by two men, Aggie Beck was found bound and gagged near Pennsylvania Tuesday. The Grubb's Church Sunday school will hold their annual picnic on Saturday, Aug. 9. Every body invited. More than a score of the leading city and county superintendents of schools and graduates of the First Pennsylvania State Normal School at Millersville. The weekly State, a Milton newspaper that was to have been run on the wireless chain plan, will not likely be resumed as the government has stopped the scheme. There will be no suits preferred against the Cambria Steel Company in the rolling mill mine accident unless it is proved by the coroner's jury that the company was to blame. The potato crop in many sections is reported way below the average, and there will be almost a failure judging from what is learned where the tubers have been dug up. Continued drought and protracted wet spells are assigned the reason for the shortage. Despite the fickle character of the weather during the past month, the fall crop in Pennsylvania, Delaware and elsewhere has not apparently been affected. The unusually cold weather which prevailed a fortnight ago retarded the ripening process, but did not in any way damage the crop. Mr. Carmel intended to discharge his only patient from the emergency hospital as cured, sometime last Tuesday, and to discharge the other patients, when all hopes that the epidemic was a thing of the past, were shattered Monday evening when three new well developed cases were discovered and taken to the hospital. It is said that a man who won't take a paper because he can borrow one has invented a machine with which he can cook his dinner by the smoke from his neighbor's chimney. This same fellow sits in the back pew in church to save interest on his contributions. And is always borrowing a ride to town to save the wear and tear of his own horseflesh. Yes, we all know him. He is a first cousin to the man who never winds up his clock for fear of breaking the spring. A state law, approved March 23, 1900, says that the owner or occupant of land abutting on any highway in the township shall during September of each year cut and remove all briars, brush and weeds, and in case of failure to do so, the township committee shall cause such work to be done and any owner shall pay such expense incurred with costs, if suit be necessary before a justice of the peace. **BARK WANTED.**—We will pay the highest cash price for bark delivered in Middleburg. **MIDDLEBURGH LEATHER MFG CO** **TO CURE A COLD IN ONE DAY.** Take Laxative Bromo-Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature on each box. 25c **Zinc and Grinding Make** Devco Lead and Zinc Paint wear twice as long as lead and oil mixed by hand 11-21-Jy.

The pugilist prefers a belt around the waist to one on the jaw. It is better to have a man stand on his dignity than to sit all over you. You never hear conceited people complaining that life isn't worth living. The carpenters are busily engaged making some much needed repairs at the Court House. The Christian Endeavor Society of the Lutheran church will hold a festival on the church lawn, Saturday evening Aug. 2. **Call on A. E. Soles in his new shaving and hair cutting parlor for your head cleaned with a refreshing shampoo and a clean towel to each patron on the north side of Market square opposite Central Hotel. Satisfaction guaranteed.** The Penn township school board have elected the following teachers for the coming school term: Kantz, W. A. Erdley; Fisher's, Herbert Herman; Salem, Michael Boney; Schoch's, D. L. Gemberling; Fair Oak, W. D. Jarret; Hill End, H. C. Hendricks; Boyers, Lottie Lepley; Ott's, M. R. Herman. The Lewistown school board has accepted the plans and specifications of Architect John F. Stettler for a new school building to be erected on Logan street. The building will be a two-story, having eight school rooms, and will be a handsome structure, complete and modern in all its arrangements. A traveling man out west broke his automobile between towns. He spotted a farmer nearby repairing a mower. On reaching the fence the farmer asked the other what kind of a machine that was out in the road. "That," said the traveling man, "is an automobile. What do you call that thing you are pounding on over there?" "That," said the farmer, "automohay, but it won't." E. K. Gaugler, the Harrisburg photographer, and his family, have the sympathy of their friends here, in their misfortune. Last week they lost all their household goods and photographic stock and material by fire, which started in the rear of Kleckner's hardware store adjoining their residence and gallery. Mr. Gaugler's loss is partly covered by insurance but his loss of property and business is hard to estimate. But a few years ago he suffered great loss in property and his business was destroyed caused by the building caving in in the erection of the building adjoining it—Millersburg Herald. Mr. Gaugler is a son of Capt. J. W. Gaugler of Selinsgrove. **Granted a Lighting Franchise.** The Selinsgrove borough Council has granted a franchise to a Millin county syndicate composed of A. C. Scholl, Carl Espenschade, John J. Patterson, Jr., William Hertzler and T. K. Beaver, for the purpose of lighting the town with electricity. The remote object, it is stated, is the connection of a trolley line between Millintown and Selinsgrove in the near future. **The New Pension Law.** Under the new pension law just passed by congress, all pensioners under the general law are entitled to an increase of \$10 per month. All pensioners under the act of June 27, 1890, who are blind and who are disabled so that they require the frequent, though not constant, attendance of another person are entitled to \$30 per month as soon as the law is signed by the President. There are no other changes in the pension law. **Look at Your Mail.** The postal authorities have fixed a penalty of \$200 on persons taking mail out of the post office other than their own and not returning it. The law is to have people look at their mail before taking it out of the office, and should they have mail other than their own they must return it at once. It also includes newspapers. The excuse that it is the postmaster's fault cuts no figure. If you have been getting other people's mail take warning or you may get into very serious trouble. **Notice.** To raise good crops and improve your land use a good bone and slaughter house phosphate. Manufactured and sold by R. S. Aueker, Shamokin, Pa. Can be bought direct or from G. R. Hendricks & Son, Selinsgrove, Pa. Fresh animal bone and slaughter house phosphate for \$19 up. High grade commercial phosphate for \$18 down. 7-10-St.

Pleasant Mills, made us a pleasant call while in town on Tuesday. McClellan Wenrich, a practical plumber and steam fitter of Selinsgrove, is in town this week, fitting in a bath tub at the home of John Steininger. Ed Charles is the recipient of a souvenir from the White House, at Washington, D. C., sent him by a friend. It is in the form of a few of the nails that were driven when the floor of the White House was laid. Mr. Charles values them very highly. On Saturday while Misses Corna Trewitz and Nora Stuck, two young ladies of town were on their way to the picnic at Mt. Pleasant Mills, they had the misfortune of driving over Mrs. Miller's dog. We are pleased to say that there was no serious damage done. Messrs. John Gelmett, Bruce Crouse, Lloyd Bowersox and Misses Lottie and Bertha Crouse and Miss Blanche Bingham invaded a certain peach orchard the other night. We are sorry to say that no peaches and the teeth of the dog of the owner of the orchard was their reward. Better go in daytime hereafter. **The Swindler.** The country papers are full of accounts of swindlers practicing their wiles on country folks, who persist in dealing with strangers in a manner that would cause immediate suspicion if his nearest neighbors or dealer, whom he knows all about, would suggest it. To avoid being swindled, deal with men you know deal with firms you know; deal with firms who advertise their business and methods in newspapers, because they are not ashamed of them. The swindler who travels through the country aims to keep his business out of the public press; avoids the country newspaper the same as he does a police. Beware of strangers; patronize the man you know. **Old Copies of the Post Wanted.** While the subscribers of the Post are hunting up their old newspapers, they might look for the copies of the Post that are missing from our files. We will pay liberally for a copy of each of the following dates: July 8, Sept. 6, 1869; Apr. 6, Oct. 13, 1879; Jan. 23, 1871; Apr. 17, 1873; Nov. 4, Dec. 23, 1875; Mar. 7, 1878; May 15, 1879; March 10, May 5, 1871; April 25, 1883; Mar. 27, June 12, Oct. 30, 1884; Sept. 17, Dec. 3, 10, 17, 24, 1885; Jan. 28, May 6, Oct. 18, Dec. 23, 1889; Dec. 29, 1878. **At Private Sale.** The undersigned offers at private sale a farm, on the public road leading from Fremont to Richfield. Containing about 80 acres, in a high state of cultivation, also about 20 acres of good timber land. Good buildings, fruit trees and water on the farm. For particulars address, J. W. STEIVER, Mt. Pleasant Mills, Pa. **Sixty Years of Popularity** is the record of Painkiller (Perry Davis'), but the shops are full of imitations made to sell upon the great reputation of the genuine; be cautious, therefore, when you ask for a bottle to see that you get the genuine. An unfailing remedy for coughs, colds, bronchitis.

How to Escape From Lightning. Many people, and especially women, have a great dread of lightning. For that reason they will not carry bits of metal in their pockets during a storm. Others get as far away from the piano as possible, believing the wires to be a great point of danger. And there are still others who will not set near a window. Prof. J. W. Lengley, an expert electrical engineer, declares that the middle of the room is the safest place during a storm. There is a constant tendency on the part of electricity in the sky to reach the ground, he said. To do this it must have a conductor. Atmospheric electricity always follows the outside of the conductor or agency that leads it to the ground. That's why the middle of the room is the safest during an electrical storm. More people are struck by lightning in the country than in the cities. The reason for this is because the builders have unwittingly safeguarded the cities. Buildings have tin and copper eaves and troughs. Many of the roofs are of metal. Wires everywhere. All these things are conductors. Lightning must concentrate itself. It must find the weakest spot. But the city is so generally covered with conductors that there is practically no weakest spot. In the country it is different. One tree is higher than the rest. Perhaps there is a stream of water beneath it. That tree is the weakest spot in the wood and the lightning destroys it. A farmhouse stands in the vacant lot. There are no other houses near. That house is the weakest spot, and there the lightning strikes. **Brick from Sand and Cement.** A new process for making bricks out of sand and cement has been put in operation in Missouri. No ovens or burning processes are necessary, the hardening of the bricks beginning as soon as it is taken from the mould, and in fifteen days it is ready for delivery. During the process of moulding, a single brick undergoes a pressure of 65,000 pounds. In thirty days from the time the hardening process begins the brick will stand a pressure of ten tons; in sixty days, a pressure of sixty-five tons. The ordinary pressure required for building purposes is about eight tons. In addition any desired color may be introduced into the sand and cement mixture. When taken from the mould the soft mixture must be handled with extreme care. The brick are then placed upon large mules built for that purpose, where they are sprayed with water from an automatic sprinkler every four hours. This is done to assist the action of the cement in setting properly. The hardening process naturally begins at the outward surface of the brick and continues inward. **New Orphans Home.** An important step has been taken by the Odd Fellows of Central Pennsylvania and before long they will have another home in connection with the Orphans Home near Sunbury. By a decision of the officers a worthy institution for indigent Odd Fellows and their wives will be established. Plans now made call for a new home near the site of the present one, to be erected at a cost of \$30,000. The new building will become the Orphans Home while the old one will be used as a home for the aged Odd Fellows and their wives. **Rather Expensive Fish.** Constable A. A. Baker, ex-officio game warden of Sullivan county, the other day captured two men who had fifty trout under six inches in length in their baskets and promptly took them before Squire Buschhausen at Laporte. The men pleaded guilty and were fined \$500 and costs. One man had twenty-four trout and the other twenty-six, but they concluded to divide the amount equally between them. **Sixth Annual Re-Union.** The sixth annual re-union of the Reformed church of central Pennsylvania will be held Thursday, July 31st, regardless of rain, at Island Park. In case of very disagreeable weather the services will be held in First Reformed church, Sunbury, Pa. **MARRIED.** On July 6, at Kratzerville by Rev. J. Shambach, William O. Heiser and Vergie M. Bailey, both of Kratzerville.
