A Horse Deal.

The Dalmatia Item is responsible for the following account of a horse deal: Ben. Snyder and son of Pillow, were trying to trade horses with Lubin Dreibelbis, son of F. W. Dreibelbis of this place. After talking the matter over and hearing that the latter was not anxious to trade they, under the guise of proving the merits of their horse, unhitched Ludin's horse and hitched their horse to the vehicle. While elder Snyder was driving down the street the horse balked and Lubin remarked that they had no use for such a horse and told Snyder to unhitch and return his horse. When Lubin returned to the hotel he found that his horse was not there and he could not locate it. While the elder Snyder was drawing the attention of their victim the younger Snyder led the horse to a place evidently agreed upon before, where he was met by his father, who left with the horse. He was, however caught at Port Trevorton by Constable Wm. Hummel, of Hoffer. He was brought before Justice of the Peace Buffington, of Pillow where he entered bail for a hearing. We would call this horse stealing, pure and simple and if the offenders don't get a good, long sentence we miss our guess. This (elder) Snyder is the same one who some years ago served a term in the Eastern Penitentiary on a serious charge.

A Year Without a Summer.

In 1816 there was a sharp frost every month of the year in the northern states. In May ice formed half an inch thick in Hartford, buds and flowers were frozen and corn was killed in the adjacent towns. Frost, ice and snow were common in June throughout Connecticut, and snow fell five inches deep in New York and in Massachusetts ten inches deep on June 19. July was accompanied with frost and ice. On the 5th ice formed to the thickness of a window glass in Canton, Conn., and throughout New England and Pennsylvania corn was nearly all destroyed in many sections. In August ice formed an inch thick in Littlefield. A cold northern wind prevailed nearly all summer, with heavy rain-falls. Corn was frozen so that a greater part was cut down and dried in fodder. Farmers were obliged to pay \$4 to \$5 a bushel for corn of 1815 for seed for the next spring's planting.

My Hair

"I had a very severe sickness that took off all my hair. I purchased a bottle of Ayer's Hair Vigor and it brought all my hair back again."
 W. D. Quinn, Marlboro, Mass.

One thing is certain—Ayer's Hair Vigor makes the hair grow. This is because it is a hair food. It feeds the hair and the hair grows, that's all there is to it. It stops falling of the hair, too, and always restores color to gray hair.

The Power of the Press.

"Once again," triumphantly said the able editor of the Slopton-on-the-Slosh Herald, "has the power of the press made itself felt. For more than seven years we have been clamoring, conscientiously and continuously, in season and out of season, for a new railway station here, and now the A. B. & C. railway has decided to accede to our demand and erect one. The old station was burned down last Thursday night amid thunders of applause."—Tit-Bits.

Pert Polly.

"Yes," said Miss Ancient, "this lovely old brooch has been in our family for sixty years, quite." "And have you been wearing it all of the time?" "Asked pert Polly Perkins, who's not very bright."

Miss Florence Allan

THREE BEAUTIFUL WOMEN
 Worn Out And Nervous Regained
 Their Health And Beauty
 By Taking Peruna.

Miss Florence Allan, a beautiful Chicago girl, writes the following to Dr. S. B. Hartman concerning his catarrh tonic, Peruna:

75 Walton Place, Chicago, Ill.
 "As a tonic for a worn-out system, Peruna stands at the head in my estimation. Its effects are truly wonderful in rejuvenating the entire system. I keep it on hand all the time, and never have that 'tired feeling,' as a few doses always make me feel like a different woman."—Florence Allan.

Thousands of women suffer from systemic catarrh. This is sure to produce such symptoms as cold feet and hands, sick headache, palpitation of the heart and heavy feelings in the stomach. Then begins a series of experiments. They take medicine for sick headache. They take medicine for nervous prostration, for palpitation of the heart, for dyspepsia. None of these medicines do any good because they do not reach the cause of the complaint. Peruna at once mitigates all these symptoms by removing the cause. Systemic catarrh is the trouble. Systemic catarrh pervades the whole system, deranges every organ, weakens every function. No permanent cure can be expected until the systemic catarrh is removed. This is exactly what Peruna will do.

Miss Cullen Was Exhausted From Over Study.
 Miss Rose Cullen, President of the Young Woman's Club, Butte, Montana, writes:

921 Galena street, Butte, Mont.
 Peruna Medicine Co., Columbus, O.:
 Gentlemen—"Peruna has many friends in Butte. I cannot say too much in praise of it. While finishing school I became very nervous and exhausted from over-study. I was weak and sick, and could neither eat, sleep nor enjoy life. A couple bottles of Peruna put new life in me. I find by having it in the house and taking a dose off and on it keeps me in fine health. A large number of my friends place Peruna at the head of all medicines."—Rose Cullen.

Peruna is especially adapted to protecting against and curing nervous diseases of run-down women, as the testimonial of Miss Cullen indicates.

Miss Blanche Myers, 3120 Penn street, Kansas City, Mo., has the following to say of Peruna:

"During each of the past four seasons I have caught a severe cold, when suddenly chilled after an evening party, and catarrh for several weeks would be the result. One bottle of Peruna cured me, and I shall not dread colds any more as I did."—Blanche Myers.

An excellent little treatise on "Health and Beauty," written especially for women, by Dr. Hartman, will be sent free to any address by The Peruna Medicine Co., of Columbus, Ohio.
