HAYTIAN GUNBOAT SUNK

Crew Fired Her After German Warship Demanded Surrender.

WAS CHARGED WITH PIRACY

Before German Sailors Could Take Possession of Crete-a-Pierret Flaminge Broke Out On Her, and the Panther Fired On the Vessel Until She Sank.

Cape Haytien, Hayti, Sept. 8.—The gunboat Crete-a-Pierret, which was in the service of the Firminist party, has been sunk at the entrance of the harbor of Gonaves by the German gunboat Panther. The crew of the Crete-a-Pierret left her before she went down.

The German gunboat Panther arrived at Port Au Prince September 5, and received instructions from the German government to capture the Firminist gunboat Crete-a-Pierret. She left immediately for Gonaves, the seat of the Firminist government. The Panther found the Crete-a-Pierret in the harbor of Gonaves, and the commander of the German gunboat informed Admiral Killick, on the Crete-a-Pierret, that he must remove his crew and surrender his vessel in five minutes' time. Admiral Killick asked that this time be extended to 15 minutes. This request was granted, on the condition that the arms and ammunition on board the Crete-a-Pierret should be abandoned when her crew left her.

The crew of the Crete-a-Pierret left that vessel amid great disorder. At the end of 15 minutes the Panther sent a small boat carrying an officer and 20 sailors who were to take possession of the Firminist gunboat. When these men had arrived at a point about 25 yards from the Crete-a-Pierret, flames were seen to break out on board of her. She had been fired by her crew before they left her. The Panther then fired on the Crete-a-Pierret until she was completely immersed. Thirty shots all told were fired.

There is much feeling here against the Firminists, and their cause is considered to be a bad one. Soldiers are leaving here to attack St. Marc.

It was announced from Cape Haytien that the German steamer Markomania, Captain Hansen, of the Hamburg-American Packet Company, having on board arms and ammunition sent by the provisional government to Cape Haytien, had been stopped on September 1 by the Firminist gunboat Crete-a-Pierret at the entrance to the harbor of Cape Haytien, and that an armed force was sent on board the steamer from the gunboat and took possession of the war munitions in spite of the protests of Captain Hansen and the German consul. The seizure of the Markomania has been characterized as an act of piracy, but a dispatch from Berlin, dated September 4, said German government circles did not take a single view of the seizure of the German vessel, but that satisfaction would be demanded. The foreign office agrees with the view held by the foreign representatives at Port Au Prince, said the dispatch, that

the action of the Crete-a-Pierret was piracy, but it was not then known whether satisfaction would be demanded from General Firmin, or whether the result of the revolution in Hayti would be awaited.

RIVER A STREAM OF FIRE

Interesting Sights From the Eruption of Soufriere Volcano. Kingstown, island of St. Vincent, Sept. 9.—The sights in the Windward district of this island resulting from the eruption of the Soufriere volcano September 3 are very interesting. The Raabacca river even now is a stream of fire a quarter of a mile wide. The greater part of the Raabacca estate is wrapped in vapor, and there are mimic eruptions everywhere. The river bed is continually throwing up columns and dense clouds of steam, mud and pebbles. The land has spread farther seaward, and is changing considerably the appearance of the district from what it was prior to September 3. This was probably caused by the ejecta that flowed down the slopes filling the sea about the coast.

Fifty laborers, deceived by the apparent quietude of the volcano, were working within the fire zone at the extreme north of the island when they surely saw evidence of an approaching disturbance of the mountain, but were unable to leave the spot before electric flashes and an outpour of gases drove them to their shelter, where they remained, at the base of the mountain, throughout the terrible night, while forked lightning darted in all directions around them. The men miraculously escaped unhurt and have arrived at Kingstown.

Gored to Death by a Bull.

Harrisburg, Pa., Sept. 8.—Samuel Huff, aged 63 years, for many years probationer of York county, was gored to death by a bull Saturday evening at his farm near New Cumberland. Mr. Huff had gone to a field to drive the animal to another pasture. The bull became stubborn, and when Mr. Huff used a club the animal showed fight. A farm hand, seeing the battle, hastened to Mr. Huff's assistance, but the latter was dead before the bull could be driven away.

Found \$37,000 Worth of Ambergis.

New Bedford, Mass., Sept. 9.—According to Captain Oliver, of the schooner David A. Story, which is at this port from Brava, Cape Verde Islands, the schooner Freeman, bound from New Bedford for Brava, picked up a lump of ambergis estimated to be worth \$37,000 on the passage. The lump weighed 145 pounds.

ROOSEVELT ON LABOR

Tells Brotherhood of Firemen He Believes in Unions. Chattanooga, Tenn., Sept. 9.—President Roosevelt yesterday was elected an honorary member of the brotherhood of Locomotive Firemen. He attended the executive session of the order in the morning, walking from the hotel to the Auditorium, a distance of a few blocks, escorted by Grand Master Sargent, a committee of the brotherhood and a detachment of Troop B Tennessee National Guard.

Mayor Chambers delivered a short address of greeting, in which the wel-

comed to Chattanooga all the firemen, "whether they came from Canada, Mexico or Oyster Bay." After an address of welcome in behalf of the state by Governor McMillan, and an address by Grand Master Sargent, President Roosevelt was introduced by Acting Grand Master Hannahan. His reception was most enthusiastic, the audience rising to its feet and cheering "I believe emphatically," Mr. Roosevelt said, "in organized labor. The worth of an organization depends upon its being handled with the courage, the skill, the wisdom, the spirit of fair dealing as between man and man, and the wise self-restraint, which I am glad to be able to say your Brotherhood has shown." The president spoke of the necessity of work. "I pity the creature who does not work," he said, "at which ever end of the social school he regards himself as being." He said the law of work well done secures the successful American life.

"A great deal can be accomplished," he said, "by working each for all and all for each, but we must not forget that the first requisite in accomplishing that is that each man should go on and work for others by working for himself. I feel that organizations like yours have a tonic effect upon the whole body politic. It is a good thing that there should be a large body of our fellow citizens who exercise the old qualities of courage, daring and resolute, unflinching, willingness to meet danger at need, and that there should be a profession whose members must year in and year out display these qualities. All the organizations in the world won't make a coward or a shirk a good engineer or a good fireman, and the best constitution will work but ill if we have not in the average citizen something that stands as far above intellect as intellect does above mere brute strength—character that is composed of honesty, of courage and of hard common sense."

IT TO MOVE AGAINST MOROS

General Sumner Ordered to Lead Column Into Macin Country. Manila, Sept. 9.—General Chaffee has ordered General Sumner, commanding the department of Mindanao, to lead a column against the Macin Moros. In his order General Chaffee suggests that eight companies of infantry, two troops of cavalry and one battery shall form at Camp Vicars, island of Mindanao. It is expected that the column will move within a week. Most of the attacks upon the American forces have originated in the Macin country. This movement is to be directed against hostiles, several of whom are enumerated in General Chaffee's order. General Sumner is directed to require the hostiles to give a satisfactory pledge to refrain from aggression in the future. There are several Moro strongholds in the Macin country. It is not definitely known where the first opposition will be encountered. This will depend upon General Sumner's course after moving. General Sumner is directed to protect the friendly natives.

Prominent Doctor Seriously Scalded.

Philadelphia, Sept. 8.—Dr. J. Wyllis Hassler, of this city, was very seriously scalded yesterday as a result of a collision on the Pennsylvania Railroad near Broad Street Station, this city. A shifting engine ran into a New York express, tearing out the steam box of the locomotive on the express train. Dr. Hassler attempted to escape from the train through a car window and was enveloped in live steam. He will be badly disfigured for life. No one else was hurt. Dr. Hassler was returning from Long Island Sound, where he assisted in performing an operation on Bradford B. McGregor, son of the late Ambrose M. McGregor, one of the millionaires of the Standard Oil Company.

Did Not Set Dogs on Teddy, Jr.

Arlington, S. D., Sept. 6.—There is no truth in reports that Populist farmers set their dogs upon young Theodore Roosevelt and his hunting party. Farmers have posted notices to stop hunting on their premises, but these were aimed no more at young Roosevelt than the obscurest hunter. Politics had nothing to do with the posting of notices, as practically all the farmers banded together to enforce the game laws and prohibit transients from trespassing.

A Person's Noble Act.

"I want all the world to know writes Rev. C. J. Budlong, of Ashaway, R. I., "what a thoroughly good and reliable medicine I found in Electric Bitters.
