Johannes Forrer, (perhaps another man though it might be the same one) arrived in the ship "Brothers", Capt. Wm. Mulr from Rotterdam and qualified Sept. 30, 1754.

Hans (John) Forrer, a single free man resided in Tulpehocken township Berks county as early as 1767. Mich ael Forri was assessed in the same township, 1767-8, 1779, 1780-1-4 with last week. 119 acres surveyed in Berks county Ju-

> Letter to J. F. Stettler. MIDDLEBURG, Penn'a.

Dear Sir: No man is more interested in the look and wear of the paint on the houses you build than you; not even the owner; not even the painter.

And painters sometimes are suspected of being more concerned for the look than the wear. What is your opinion? Which pays best, for a painter to have his paint last three years, or as long as he can? He can have it last six, if he wants

Lead and oil lasts three; Devoe to and from the trains before the S. lead and zinc lasts six. Of course, & L. R. R. was built. conditions affect the time of both.

Most painters know that zine toughens the lead; some use it.

Devoe lead and zine is thoroughly ground in oil; the proportions are right, and the mixture thorough. No painter need mix; he can't af-

ford to. Hand-work can't compete with machine-work. He runs no risk with Devoe lead and zinc.

All interests lie in using it yours, the owner's, the painter'sunless he wants bis paint to wear ing will be pushed on. half as long.
