White or Black. of his race who come under his influence from the thralldom of certain temperamental weaknesses and a legacy of too willing dependence left from generations of bondage. Notably in this line of endeavor has he shown a will of iron, For example, as related in the New York Outlook, a boy came to Tuskegee penniless but displaying unusual natural gifts. He was taught a trade by means of which he paid his way but through some mischance left the institution \$15 in debt and rather indifferent about early payment. He hadelerical ambitions and was received as a student into a theological seminary. A change has recently been mad by the management of a London England Values newspaper which American Opinion seems, is not without significance. Hitherto, when & was necessary to offer a summary of the opinion of the civitized world upon some striking public event, it has been the custom to give precedence to quotations from the leading French newspapers; these were followed by extracts sent from Berlin. Brussels, St. Petersburg, and some where down the line would come telegrams from Washington and New York. The relative importance of nations, however, is a changing quartity, and in its relations to the British empire France no longer holds its old place. The paper quoted now refuses to Paris its old pride of place, and rightly supposing that for English readers the most interesting expressions of opinion abroad must necessarily be those from the United States, now gives the first place to quotations from the American newspapers. On the occasion of Lore Salisbury's resignation the new coder of precedence among the nations ran thus: New York, Paris, Berlin, Vienna, St. Petersburg, Brussels, Yokohama. What a mighty change is here, when we find Japan represented in a list from which Spain is absent. Empires have their 'ev.

I had been troubled with my stomach for the past sixteen or seventeen years, and, as I have been acting as a drug clerk for the past thirteen years, I have had a good chance to try all remedies in the market, but never found anything. until we got in a supply of Ripans Tabules, that did me any good. They have entirely cured me. At times I could hold nothing on my stomach, and I had a sour stomach most all the time; in fact, I was miserable, and life was hardly worth living. I was called cross and crabbed by my friends, but now they all notice the change in me.

The five-cent packet is enough for an ordinary occasion. The family bottle, Sixty cents, contains a supply for a year.
