

Over-Work Weakens Your Kidneys.

Healthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though one had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake in first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is now realized. It stands the highest for its wonderful cures of the most distressing cases of kidney trouble. It is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, also pamphlet telling you how to find out if you have kidney or bladder trouble. Write this paper when writing Dr. Kilmer, P. O. Get His Job.

"Your husband is a floorwalker in a department store, isn't he?" "Yes." "Then, why don't you have him get up and walk the floor with the baby when she cries?" "I can't wake him up. When I shake him and tell him what's the matter he mumbles something about soothing sirup in the drug depart- ment three aisles down, and then goes to snoring again." — Chicago Tribune.

Their Vindictiveness. "A few years ago, when we had a spell of liveliness on us," said the landlord of the Pettyville tavern, a trifle pessimistically, "we tried to get the insane asylum located here; but Rustletown beat our best efforts and secured the institution. However, our people are not resentful, and the fact that the asylum didn't come to Pettyville don't prevent some of us Pettyvillians from goin' to the asylum, once in awhile."—Puck.

Maj. Gardener Says Natives Have Been Abused and Some Day Will Surprise the World.

"I tried only to do my duty. I belong to the army and not to politics or to those seeking the notoriety that political speeches and intrigues bring. I made reference to the water cure, as I saw it had a bad effect upon the natives and I believed it should be stopped."

That was the statement of Maj. Cornelius Gardener, late military and civil governor of the province of Tayabas, island of Luzon, and who returned from the Philippines after three years' stay in the islands. "In December I sent a confidential report to the secretary of war, or

MAJ. CORNELIUS GARDENER. (Until Lately Governor of the Province of Tayabas, P. I.)

at least what I supposed was a confidential report," said Maj. Gardener, in speaking of the much mooted water cure administered to Filipinos by American soldiers.

"As governor of Tayabas, I was asked to make a report on the conditions there. Unfortunately my report, or a part of it, crept into the newspapers and into politics—there was a leak somewhere. In that report I criticised the manner in which some things were being done by certain individual officers, whose acts I believed contrary to what the government desired should be the means employed to bring peace and harmony among the natives.

"The Filipinos are hungry for education. They have been lied about, and misrepresented, and misjudged, but the fact remains they desire our education and our civilization. Why, I have here with me a young Filipino, Emilio De Gala, whom I am sending to the University of Michigan, where he will enter the medical department after taking a preparatory course. He is not the first that has gone to that institution from the province of which I was governor.

"There are a dozen towns in Tayabas province that are making up subscriptions to keep as many young Filipinos in American institutions of learning as they can possibly afford. "That water cure business? Well, the fact is, I made the reference to the water cure practice among soldiers and sanctioned by some officers because I saw it made a bad impression upon the Filipinos. They were and are a much-abused people. I became as intimate with them as any officer, and I tried to do my duty as an officer and a man.

"I belong to the army, and the army has done glorious work out there. The war is now over, and I think we can afford to be generous as well as just with the Filipinos. Give them an equal chance at education as in civilization and they will surprise you."

most popular young women in British society. Her father, Edward Hyde Villiers, earl of Clarendon, is the fifth of his title, so that it would appear that William Waldorf Astor's son aims at a high social mark. Lady Edith's mother is the daughter of the third earl of Northampton. The young woman secured for the recent coronation a magnificent diamond tiara, said to have been once the property of Empress Josephine of France, and is said to have collected other rare gems, which she wore on that occasion.

Citizens of the town of West Everett, Mass., have discovered a means inducing the City for moving a reluctant city council to act. All which might prove effective elsewhere. For some time, according to the New York Post, there had been dissatisfaction at West Everett because the pesthouse was located on one of the principal streets, the neighbors not unnaturally holding that it was dangerous. Requests for its removal were met with no decisive action on the part of the aldermen, and finally a meeting of citizens was called to enter a formal protest and petition. Just before the meeting was held, three additional cases of smallpox were discovered near the pesthouse, and this knowledge made the people who assembled a decidedly determined lot. There were many speakers who freely denounced the board of aldermen and the board of health. Resolutions embodying the sentiment of the meeting were prepared and passed, and then somebody proposed that all present march to city hall. This motion was favorably received, and in a short time all were on their way to the aldermanic chamber. This looked like trouble, but the aldermen saw the citizens coming, and their sleeping consciences suddenly awoke. Quickly convening the finance committee, an order was reported to purchase an eleven-acre estate and erect a pesthouse thereon. The citizens waited outside until the order was passed and signed. They then departed peacefully.

When John Quincy Adams was 80 years of age, relates Everywhere, he Philosophical met in the streets of Boston an old friend, who shook his trembling hand and said: "Good morning, and how is John Quincy Adams to-day?" "Thank you," was the ex-president's answer. "John Quincy Adams himself is well, sir; quite well, I thank you. But the house in which he lives at present is becoming dilapidated. It is tottering upon its foundation. Time and the seasons have nearly destroyed it. Its roof is pretty well worn out. Its walls are much shattered, and it trembles with every wind. The old tenement is becoming almost uninhabitable, and I think John Quincy Adams will have to move out of it soon. But he himself is quite well, sir; quite well." With that the venerable sixth president of the United States moved on with the aid of his staff.

An Atlantic City (N. J.) paper has an article on John W. Gates, who it says is the man "who recently laid down the United States treasury portfolio to engage in private business." The well-informed editor adds that "Mr. Gates evidently finds more excitement in the corn pit than in a national bank or in the routine life of the treasury department." Our contemporary will doubtless be glad to be told that Gage is not Gates, nor is he engaged in speculative enterprises on the board of trade. Incidentally Mr. Gage still loves and sticks to the freedom from excitement which he finds in a New York banking house.

Pacific coast newspapers comment with astonishment on the number of law-abiding citizens who speak with sympathy and admiration of Tracy, the fugitive murderer. One paper says that these misguided persons seem to classify the escaped convict "with Funston, Wainwright, Hobson and Dewey, and are incapable of distinguishing between a bold act of warfare and a deed of murderous daring."

The latest thing in the line of equipment for automobiles (just reported from Chicago) is a long, sharp knife so attached that it will readily sever a rope that may be stretched across the roadway by peace officers for the purpose of stopping the automobilist traveling faster than the local law allows. Police and constables will have to meet this new move by arming themselves with steel cables.

A unique reunion was held a few days ago at Clinton, Ia., when five brothers, immigrants of 50 years ago, celebrated the golden anniversary of their landing on American shores. The brothers are Charles Ingwersen, of Chicago, and Henry, Peter, August and Nicholas Ingwersen, of Clinton. The celebration was attended by 248 relatives of the brothers.

There are very few Englishmen, according to London Sketch, or, we may add, Americans, who can really wear a Panama hat with grace. A Panama needs a swarthy face, a flashing eye, a devil-may-care manner. It does not go at all well with a worried look and a bundle of business documents. Nobody should attempt to carry off a Panama who is not a gypsy at heart.

The civilization and Americanization of the Philippines is now in the final stages. A Yankee circus is making the rounds there. "America has the best guns," says a German naval annual. And the best gunners, too, as Manila bay and Santiago proved.
