Wanamaker's Beginning

The number of men who fall on account of lack of courage is enormous. The number who would refuse to let go of a dollar if they knew positively that it would bring back two is astonishing. Such men merely exist. They don't live. They never really amount to anything. The men who win are the men who think out the right course to pursue and then back up their convictions with their last penny and their last ounce of energy.

The first goods John Wanamaker ever sold brought him \$35. He delivered his goods in a wheelbarrow. He collected the \$35 and went directly to a newspaper office and planked it down for advertising space.

Some men would have spent \$150 for some cheap dodgers and "saved" the rest. They would have been wheelbarrow merchants today.—Shoe and Leather Facts.

If Wanamaker were doing business here, he would advertise in this paper.

A Little Loss
of flesh and strength, little barking, obstinate cough and a little pain in the chest may not mean galloping consumption, but they are signs that prudence will not neglect. A few doses of Allen's Lung Balm cause a free discharge of mucus and so loosens the cough. It heals the inflamed air passages and all its beneficent work is accomplished without a grain of opium.

Let the People be on their Guard.

Sunday night burglars made an effort to gain admission to Mrs. Mary Walter's house near the jail. A window was pried open, but entrance was not gained.

Tuesday morning about 5:30 a burglar entered the residence of Charles Roush after he and Mrs. had left the house, but he was disturbed before he could make a careful search. He overlooked some \$10 in a drawer he ransacked.

The papers of the last few days are filled with accounts of robberies, at Harrisburg and Lancaster burglars operated and obtained considerable booty. In our County for the last two weeks robberies have occurred in Middleburg, Centerville, Troxelville, Richfield and Beavertown.

At such a time as this (the Post feels it a duty to admonish its readers of the dangers to which people subject themselves by adhering to the old methods of securing their savings. The result of a life time of hard work and if the least suspicion is aroused by their careful and economical manner of living, they are made to pay for it.

No people are so wise with their money from the presentators of such acts, as they are likely to be for the loss of those they attempt to rob.

The people can not be too careful, but if they adhere to the belief that they can protect their money and securities from the plunderers who are now going through the County at present they are sadly mistaken.

A well regulated National Bank with its burglar proof vault and its time lock will furnish full and adequate protection for the savings of our people while a Certificate of deposit or credit in a bank book furnished free of charge will always inform the depositor of the exact amount the bank holds in trust for him. The day of the "old stocking," the "crook" and the "hole in the chimney" has passed away and the sooner our people who have savings to protect, realize this, the better for them and the community in general.

In Case of Accident.

Accidents will happen. Mother strains her back lifting a sofa. Father is hurt in the shop. Children are forever falling and bruising themselves. There is no preventing these things, but their worst consequences are averted with Perry Davis Painkiller. No other remedy approaches it for the relief of sore strained muscles. There is but one Painkiller, Perry Davis'.
