Outlook.

The Outlook Company, which is a comparative newcomer in the book publishing field, has maintained a high standard of excellence in the ten books it has published during the year. In outward appearance, and all the details of typography, paper, presswork, binding, and general design they are distinctly artistic and pleasing. The list includes "Parables of Life," by Hamilton Wright Mabie; a special limited edition of Edward Everett Hale's great story, "The Man

Success.

The publishers of "Success," the great home magazine of America, published in New York, write us that they desire to secure a local representative in this county to receive and solicit subscriptions. The compensation given by "Success" is said to be the largest offered by any first-class periodical, and if any of our readers are desirous of undertaking work of this character, we suggest that they communicate at once with The Success Company, Washington Square

Lippincott's.

The prominent feature in "Lippincott's Magazine is always a complete novel. That contained in the February number is by Alice Duer Miller, entitled "A Man of His Word." Mrs. Miller, by the way, belongs to a popular New York story-writing family. Both her mother and sister are well-liked contributors to the leading magazines. The motive in "A Man of His Word" is the moral obligation of a member of the Four Hundred to marry a young schoolteacher because her mother had saved his life at
