Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they fil-

ter out the waste or impurities in the blood. 7.8A If they are sick or out of order, they fail to do their work. Pains, aches and rheu-

matism come from excess of uric acid in the blood, due to neglected

kidney trouble. Kidney trouble causes quick or unsteady eart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary

troubles were to be traced to the kidneys but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake

by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases C The and is sold on its merits by all druggists in fifty-
