Letter To Harry W. Powersox.

Middleburg, Pa.

Dear Sir: Porterhouse so much; neck, so much; all the way between; just so with paint. Devoe Lead and Zinc is the porterhouse. Nobody wants the neck; the between, some say, is good enough for them.

But Devoe costs less, not more, than between. Lead and oil is between; it is the old-fashion paint. But zinc has come in. Zinc toughens white lead. Devoe Lead and Zinc is the paint.

Mr. John N. Dettel, Fair Haven, N. Y., writes:

Mr. Charles Hollenbeck, of this place, painted his house three years ago with Devoe Lead and Zinc; his father painted at the same time with lead and oil. To-day the son's house looks as well as the day it was painted, while the father's house has all chalked of and needs painting very badly. The father says he will paint with Devoe next time.

Yours truly,

F. W. Devoe & Co., New York.

P.S.—P. P. Smith of Sunbury sells our paint.
