WE OFFER YOU

\$1.15 12 months' subscription to Middleburg Post
One year's subscription to Conkey's Home Journal.
One year's membership in American Musical Association.

CONKEY'S HOME JOURNAL

Entertaining and musical monthly family magazine which should be in every home. Its contents are always in colors, it is printed on good paper, and mechanically every page is a work of art. Conkey's Home Journal is really two magazines in one. The first half is devoted to special illustrated articles on subjects prominently the public and short and snappy stories. The second half is devoted to the interesting and laughter. It also contains:

WITHOUT EXTRA CHARGE

- Special lessons in face and embroidery-making.
- Special lessons in home millinery.
- Special lessons in interior decoration.
- Special suggestions for home dressmaking.
- Special lessons on department showing the newest designs in hats and costumes.
- Special lessons on the smaller articles of feminine wear.
- Special pattern department, from which patterns may be ordered.
- Special lessons showing how to set the table.
- Special "Table Talks" which impart the information that is necessary to the hostess and which would be up-to-date.
- Special lessons supplemented by a department of music which contains each month a two-step or waltz, a lesson on Vocal Training and a lesson on Piano for the young.
- Special "Box" is the subject of a series of articles for the boys. These articles are both practical and tell how all kinds of acts may be raised both for pleasure and profit.

The American Musical Association enables its members to purchase sheet music and musical supplies at discounts ranging from 25 to 50 per cent. Send for a copy of Conkey's Home Journal mailed to any address on request. All communications and remittances to:

The POST.

SEES FOR SIGHTLESS EYES.

Young Women in New York Who Paint Their Pictures for Her Blind Employer.

The person who is blind loses much of the beautiful in life through the affliction. This is one woman, however, in New York city who, having been blind a year, has found a way to satisfy her taste for a knowledge of all that is going on in the world and to accomplish with the help of a few young women the same work that most people do. She takes her blind eyes to places, exhibitions, and shows.

Think an attention at an art exhibition is a waste of time and money with an eyesight that is the most precious possession. The convenience of the woman's new arrangement is described as being, the blinding and the blindness of her eyes are left before the eyes of the afflicted one with much circumstance.

Even the new operators and dramatic artists are selected with great regularity and the costumes, forms and faces of the performers are described in the fullest detail. The scenery and properties are the subject of comment, and the people in the audience furnish material for discussion between the acts.

In traveling says the New York Mail and Express, the companion is the same faithful painter of pictures for the sightless eyes of her employer, and every feature that goes to give that variety which seems a necessary spice to living is brought out with the utmost particularity.

CHARLES NOTICE.

Notice is hereby given that the undersigned has been appointed executor of the last will and testament of the late JOHN W. BROWN, deceased, and has taken and qualified for the same.

Witness my hand and seal this 1st day of March, 1903.

CHARLES NOTICE,
Executor.

CHICHESTER'S ENGLISH PENNYROYAL PILLS

BeWARE of Counterfeits

BeWARE of Substitutes

Safe, Always Reliable, Ladies Beware of Imitations. CHICHESTER'S ENGLISH PENNYROYAL PILLS are the only pills that give relief to the most distressing cases of kidney trouble, and are the only pills that are sold in this country. They are the only pills that are sold in this country. They are the only pills that are sold in this country.

CHICHESTER CHEMICAL CO. PHILA., PA.
1100 Radisson Square.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or floating indicates an unhealthy condition of the kidneys. If it stains your linen it is evidence of kidney trouble too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidney, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It is the most wonderful cure of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Home of Swamp-Root, Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

THE DOG AROUND TOWN.

Have you forgot to-day, set follow?
Read a bill of some meat or a bone?
Were you got round town, set down and head?

By some one who called your name?
Four this, set? How many dollars show you?

Your dog's been up and down?
Have you forgot every street for a moment to set?

Are you just a town dog, set? Come speak!

Were you housed from the snowstorm set night, set?
Did you sleep without some warm bed?
Did you hear the wind howl just the usual shabby bed?

While dream- of green beads did your head?
Or did you want into some other bed?
The wind of the winter and snow?
The wind of the winter and snow?

Did you hear the wind howl just the usual shabby bed?
While dream- of green beads did your head?
Or did you want into some other bed?
The wind of the winter and snow?
The wind of the winter and snow?

MACHINES SEEM TO THINK.

Marvelous Efficiency of the Bridges Used in the Great Lakes.

The some of the dinner dredges is on the great lakes. There is hauled, and in the smaller dredges and in non-tidal fresh water at 20 feet depth was marginally efficient. A good wooden dredge of ten years ago, which cost, say, \$20,000 would do 1,500 or 2,000 cubic yards per ten hours, with a crew of six men, on three tons of coal, says the Engineering Magazine.

It could lift its spuds, more up and reset again in 30 seconds. It stands alone like a table on its legs with no moorings to obstruct navigation. By means of its dipper on the bottom it can move itself about cran-fashion in any direction, and by the same means can push the barges about which it is hauling. It can maneuver itself in any direction, lead across dig foundations, pull piles, lay concrete blocks, deposit back-filling, lift bowlders, raise wrecks, dredge hard or soft material, and do nearly everything but rote. Its great simplicity made it light in repairs. With tools like these, and suitable for their work, the marvel is not that American contractors do not use the big and costly European ladder dredges, but that these American tools do not find a wider recognition in Europe and abroad.

TUNNEL HELPS DIG ITSELF.

Great Hole Under the Alps Discharges Water Enough to Furnish Drill Power.

In the new Sion tunnel under the Alps, which will be the farthest tunnel in the world, having a length of 20 miles, and which is now reported, will be completed in July, 1903, the quantity of water flowing out of the southern end, from the many veins encountered in the lower part of the mountain, amounts to 1000 gallons per minute, and furnishes sufficient power to compress the air by which the drills are worked, and to re-energize the tunnel. The possibility of re-energization may be judged from the fact that the heat in the deeper parts of the tunnel rises as high as 100 degrees Fahrenheit when not artificially reduced, says the Ironworld amendment. Life would be impossible in the tunnel, where such warm air, if a successful system of re-energization had not been devised. When a continuous hole through the mountain has been made, then the temperature will more easily be kept down. Prospects of the work was completed that July, and the greatest distances have now been over- come.
