The demand of the rockmen's union that its members share in the award of the commission is the main point of dispute Mr. Nichols says.

Letter to Banks Dreese, Middleburg, Pa.

Dear Sir: Most mixed paints are either adulterated or short measure. Devoe Lead and Zinc is neither, so it cannot be classed with mixed paints. That's why it takes fewer gallons of Devoe to paint a house than it does of a mixed paint, and it lasts longer for the same reason.

Ferguson at Thompson's store, Delhi, N. Y. was painted some years ago with thirty-two gallons of mixed paint.

Painted it last spring with Devoe Lead and Zinc—thirteen gallons did the work.
