 Many a man is influenced to buy something because he saw it advertised. He may now have prior thereto, imagined he wanted the article. But the advertisement aroused desire for its ownership and he purchased. This is one of the ways in which advertisements make business that escapes the non advertiser.

 Whither we are drifting? Some wise cuss discovered that it was unhealthy for two people to occupy the same bed; then another found out that it was unsafe to ride in a car with other people or attend church where other people attend. Next an association of physicians decided that to kiss was to tempt

death in all manner of hideous diseases. The very latest is the discovery of a French scientist that the practise of hand shaking is a very prolific source of spread of disease. If things keep up this way it will be unhealthy to be buried in the graveyard with other people, and the only place where a person can feel safe from disease is at a mid-week prayermeeting or at a store that doesn't advertise.

**BY ALL MEANS GIVE HER A PENSION.**  
 3000 persons has been presented to the Italian government asking for a pension of \$360 per annum to be conferred on a woman named Maddalini Granetta, who has given birth to sixty-two children—fifty-nine boys and three girls—during her married life. In nine years she presented her husband with eleven sets of triplets, three groups of quadruplets, one group of six, and the other eleven children came singly. She is now 57 years old and incapable of work.  
 1000 Deer to be Liberated.  
 A thousand deer are to be liberated in a few days by C. C. Worthon, the New York millionaire, who owns Buckwood Park, opposite Shawnee, Monroe county. The animals multiplied so rapidly that they will starve unless given their liberty. There are now over 2000 deer in the Park, and they have cleaned up nearly all the food to be had. Farmers residing near the Park do not favor the liberation, fearing the deer will do damage to their property. Eleven years ago nineteen deer were placed in the Park, which covers thousands of acres. One hundred have been killed by hunting parties.  
 Not a Joke.  
 A western editor writes as follows:—The editor sat in his chair, lighting his pipe on his auburn hair. A halo shone over his face so fare, but his knees were out and his feet were bare. And he sang a song both sad and sweet, while the flies died all around his feet, for he had no grub in the shop to eat, and the ground was covered with sleet. Now what in the world was the cuss to do? He had eaten the paste and swallowed the glue; he hadn't a drink and he hadn't a chew, and while he stared his whiskers grew—and the band played on.

 We are in receipt of a copy of the "World" published at Dayton, Ohio, under the date of August 16, 1903, giving an account of a prize cup won by A. L. Bowersox, a photographer of Dayton, Ohio, which was offered to all the Ohio and Michigan Photographers Association at the recent convention held at Sault Ste. Marie, Michigan. The prize was won for having produced the three best portraits of Artists. Platino eight inches or larger, furnished from negatives made within the year.  
 The winner of the prize is a son of Isaac Bowersox late of Centre township, Snyder County and he is a nephew of Joseph Bowersox of this place. The prize winner left Snyder County seventeen or eighteen years ago.  
 The Post and its many friends extend to Mr. Bowersox the congratulations due to him for this meritorious production.  
**A Great School With Free Tuition.**  
 We have just received the recent catalogue of the Literary Institute and State Normal School of Bloomsburg, Pa. We note that this school is long prominent because of its excellence, catalogued 750 different students last year, and graded the largest class in the State. The hotel plan of conducting its dining-room service, the passenger elevator to all floors and the excellent courses maintained place this school in the front rank.  
 The courses preparing for teaching (in which tuition is free) for college, for law or medicine, as well as in music and physical training are attractive.  
 The catalogue itself is a work of art, and can be profitably read by those selecting a school, even if they do not select this one. The fall term will open Monday, September 7th.

**FATALLY SHOT HIMSELF.**  
 Prof. W. H. Detweiler Met Death Attempting to Kill a Cat.  
 Hatboro, Pa., Sept. 1.—While attempting to shoot a streak cat, Professor W. H. Detweiler accidentally shot himself and died a few hours later. Professor Detweiler was a teacher in the manual training school at Philadelphia and was spending the summer here with his family. A neighbor asked him to make away with the cat, and in crawling under a porch to shoot the animal his foot slipped, and in falling the revolver exploded, sending a bullet crashing through his brain.  
 It was some time after the accident occurred that it was discovered that the professor had been shot. He was found unconscious under the porch. Word was immediately sent to the University of Pennsylvania at Philadelphia. Professor Wood, of that institution, responded quickly and performed an operation in the hope of saving Professor Detweiler's life, but the latter never regained consciousness. He is survived by a widow and two children.

All the midshipmen will be given one month's leave to visit their homes.  
**Blank Cartridge May Cost Boys' Sight.**  
 Lancaster, Pa., Aug. 19.—Walter Tappany, 14 years of age, shot his brother, William Tappany, 7 years of age, in the face with a wand from a blank cartridge and it is believed destroyed the sight of both his eyes. Walter is a member of the Boys' Brigade, and was preparing to go to the barracks for drill when he pointed the gun at his brother and, thinking it was unloaded, pulled the trigger.
