The death of Ex-Sheriff Bolender and the retirement of Hon. Jere Crouse from the activities of political life recalls to mind two active political factors of by-gone days.

combat. In their day, they were political war horses of indomitable perseverance and the fruits of victory swayed two and fro between them.

Monroe township, Snyder Co. was the second district in the state to apply for the benefit of the new road law. The test will be made beginning at the stone bridge at the base of Blue Hill south toward the town of Shamokin Dam.

During the month of Aug. Snyder County lost two of her Ex-Sheriffs. This is more than the County has lost for many years.

If reports from Kantz are correct a reward of \$250 is offered for information that will lead to the discovery of the person who set fire to the store at that place a month or two ago. This would indicate that the fire was of incendiary origin.

A Hint to Merchants.

A correspondent writer to the Post gives some

pointed facts about mail order houses and how to lesson their trade, and how some merchant may hold their customers. Here is what he says:

"If our home merchant would advertise their goods properly the large supply houses would find their trade falling off in the country districts. The big department stores advertise and give prices on every article, while the home merchant if he advertises at all, seldom quotes prices. We like to read in our home papers the prices for which we can buy goods our home dealer, together with a description of goods so that we may know what we can purchase from our home stores. The home merchant, nine times in ten, sells his goods as cheap as the same grade of goods are sold by any of the big supply houses, but their customers don't know it. A merchant must not think that even his best customers are so familiar with his goods and prices that he knows all about it without being informed. We can buy as cheap at home as we can anywhere, and it is the merchant's duty to educate his customers to that belief. Printers' ink is the great business educator. An average of about \$300 per month is sent away from Irvington to mail order houses in distant cities for supplies, the greater part of which could be bought at home as cheap.
