CONVICTS AS

outsit For Making Bogus Coin Pound in Pennsylvania Penitentiary.

PROBING OTHER GROSS FRAUDS

Philadelphia, Sept. 14. - Following dosely upon the exposure of gross irregularities in the cigar department of the Eastern State Penitentiary, came the public announcement that the iilegal colnage of minor silver pieces has been carried on by convicts in the big institution. No details of the counterfeiting scheme can be learned com any of the officials connected with the prison or from the governsent officers that have been assigned o the case. The fact that such a daras scheme had been carried on in the anicentiary was made public by Geo. vany, Jr., one of the prison inspectors. dia sammoned newspaper men to his en and voluntarily made the discloore, the mave out a helef statement did to an follower

Ter W. D. Robinson and George ters, it was not at present the visof I spectors' on duty at the Esstern tate innigentlary, make the statein that there has come to their offla knowledge that within a short te an attempt has been made by cerain to wiste New confined in the pent emany to manufacture counterfoil silor count But a few pieces were sade, and a number of these have ome into the possession of the inpectors, together with the metals and emirals used, the attempt thus beng nipped in the bud. The evidence s the case is not yet complete, but all that has been secured has been sub-

nitted to the U.S. authorities." Wr Vaus refused absolutely to give any more details than contained in his gatement. From other sources, howeer, it was learned that dimes, quarters and half-dollars were the coins! manufactured. The discovery was made several days ago, and United States secret service officers were immediately called in. Their investigadon, it is learned, is still in progress. their principal object being to learn whether there was collusion between the convicts and the employes of the institution.

Later further details of the counterfetting scheme leaked out. These were to the effect that five men were engaged in the work, the head of the counterfeiters being a Philadelphian new completing his second term for this offense. The others were profesienal criminals, who secured through the plumbing department of the prison, the necessary metal, made of solder, tn and ground glass. The moulds, it is believed, were made of plaster of paris, scraped from the walls of the ells. Some of the coins got into cir enlation, but in what manner has not est been fully determined. There is a belief that certain employes who did favors for the prisoners, such as mailng letters in violation of the rules of the institution, were given the bogus Wyoming. seney as tips, and that they innocent-

The counterfeiting was discovered held in Baitimore, Md. about the middle of July and stopped. out for some reason it was not made known to the prison inspectors until some time in August.

It is believed the discovery of counterfeiters in the prison was the result carried on in the place as a result of the irregularities in the cigar department. These irregularities became public last week, and pending an investigation Warden Daniel W. Bussinger and the overseer of the cigar epartment were temporarily relieved from duty, and the penitentiary placed in charge of the Rev. Joseph Welch, the chapiain. It is alleged that thouads of cigars made by convicts are unaccounted for, that thousands of hem did not contain the internal reveme stamps, and that in many instances the law requiring prison-made cigars to be stamped "convict made" was ignored. How long this has been exried on is yet to be learned. The government of the penitentiary is ested in a board of five inspectors appointed by the governor, who serve sithout salary. This board is now saking an inspection of each branch of the institution, and has employed a expert accountant to go over the sooks. In addition to this the internal evenue officers are carrying on a septale investigation.

Flowers on McKinley's Tomb. Canton, O., Sept. 15. - The second anniversary of the death of the late resident McKinley was not observed by any formal programme in Canton. lags were lowered on public buildage, there were some short references hade in the various departments of the schools to the life and death of McKinley, and carnations were worn as a sisat tribute by numerous citizens, Mrs. McKinley made a special trip to the Nault in West Lawn cemetery and placed floral tributes on the casket. Numerous floral pieces received from friends were also placed in the tomb. Yrs, McKinley is in good health.

A WEEK'S SEWS CONDENSED. THE MARYLAND STILL FAST Efforts of the Tugs to Free the Partly

Launched Cruiser Fail. Newport News, Va., Sept. 15 .- The armored erniser Maryland is still stuck at the bottom of the ways from which she was launched here on Saturday. All efforts made to float her proved unsuccessful. The ship's stern was noticed to rise with the tide and later when the tide fell, the stern fell with it. Several tugs were pulling at the cruiser but were not able to move her.

About 70 feet of the ship remains on the ways and she is resting with comparatively little strain upon. One of the plans now being entertained to near the Maryland is to steam up the bartieship Missouri, now being completed here, and to have her try to tow the Maryland off. It is thought that the Missentl's heavy tonnege would do not specule
