Letter to I. H. Bowersox, Middleburg, Pa.
Dear Sir:—You sell good goods and give full measure. It's a pleasant way of doing and it pays both sides.
We do it for the same reason—it has made us the foremost paint house in the United States. Short Weight and adulteration are the vices of business. They are a natural response to the demand for cheapness. The world is full of them—the grocery world and the paint world, and every kind of world.
You know that we know that doesn't pay. People change their grocer or paint man as soon as they find it out.
We don't know about grocers, you tell your people about their full measure and unadulterated goods. It is Devor Lead and Zinc.
Fewer gallons—takes less Lead and Zinc than of mixed paint to paint a house. Wears longer, twice as long as lead and oil paint by hand.
