manifested by those in attendance

Wilkesbarre, Pa., Nov. 2.—Nineteen cows of a valuable herd owned by Albert Lewis, a wealthy resident of Bear Creek, 10 miles from here, were bitten by a mag dog some 10 days ago. The affair was not known to many persons until today, and it is now feared that the entire herd will have to be killed. The dog was killed by a lumberman and the head sent to the live stock sanitary board of Philadelphia by Veterinarian J. H. Timberman, of this city, for examination of its brain, which proved that it had positive rables. The herd has been disced separately in quarantine and is eing closely watched
