The Post has just purchased a zinc etching of the Map of Snyder County showing the location of the towns and roads of Snyder County. Subscribers of the "Post" can get this map free. See cash announcement on 4th page.

Many of the roads are in very bad condition. Since there has been considerable work done on the roads in Snyder county it is to be regretted that we have not a system of working the roads that will be more satisfactory. Let the road supervisors in each township call a meeting of the taxpayers and decide on some system of working the roads that will be satisfactory to all. The present system is not satisfactory to many.

Persons expecting to have public sale in the Spring should select their dates as early as possible and have same reported in the Middleburg Post's sale Register so that no one else will select the same date. This will insure your date so that no one else near you will select same date. We make no charge for inserting a notice of your sale in our Register when you get the bills printed at this office.
