

Farmer's Column

VENTILATE YOUR BEE-HIVES.

A cheap but tasty bee house, or hive set here and there among the shrubbery about the house, has a wonderful home-like and interesting appearance.

A swarm soon becomes acquainted with those who have the care of them, and will cover the flowers of the garden or the farm in search of honey, and scarcely ever molest any one who is careful not to injure them.

We visited a bee master recently, who informed us that he took one hundred pounds of honey from a single swarm last fall.

The greatest drawback, however, in bee-keeping, is the destruction occasioned by the accumulation of their own breath and the exhalations of their bodies.

TO SWEETEN RANCID BUTTER.

An agriculturist living near Brussels, having succeeded in removing the bad smell and disagreeable taste of some butter by beating or mixing it with chloride of lime, he was encouraged by this happy result to continue his experiments by trying them upon butter so rancid as to be past use, and he has restored to butter the odor and taste of which was insupportable all the sweetness of fresh butter.

TO STOP BLEEDING ON MAN OR BEAST.

Asa Kemper, Ross County, Ohio, writes to the American Agriculturist that bleeding from a wound on man or beast may be stopped by a mixture of wheat flour and common salt, in equal parts, bound on with a cloth.

ELDERBERRY WINE.

As the season for making elderberry wine is close at hand, we give the following recipe for making it: The berries, when ripe, are first picked by the stems, then stripped with the hand, or trampled close with shears.

DESTRUCTION OF MOTHS.

The ravages of the woolen moth may be prevented in a measure, by the use of any of the following substances: Tobacco, camphor, and perhaps the most agreeable for wearing apparel, a mixture of one ounce of cloves, one ounce of rhubarb, and one ounce of cedar shavings, tied up in a bag, and kept in a box or drawer.

THE APPLE CROPS.

From present indications the apple crops in Eastern Pennsylvania generally, will be quite large this season. In many places which we have noticed trees are loaded down with fruit that heretofore have been very sparse bearers, in fact hardly worth orchard room.

GREEN CORN IN WINTER.

Those who are fond of green corn during the winter, do not all know that it may be preserved by packing it tightly in casks or barrels, and covering it with a brine strong enough to keep cucumbers.

A gentleman who has experienced with coal oil, in destroying the worms which infest and destroy currant and gooseberry bushes, found it perfect antidote for the pest which has created such great damage.

BLACKBERRY CORDIAL.—This excellent cure all, for abdominal commotions is thus made: Two quarts of blackberry juice, one pound of loaf sugar, a quarter of an ounce of cloves, half an ounce of nut-meg, half an ounce of cinnamon, half an ounce of allspice.

CURE FOR HORSES.—Dr. Thornton, of Virginia, a great breeder of horses, says founder may be cured, and the horse fit for service the next day, by giving him a tablespoonful of alum.

The following slanderous paragraph goes unrebuked: A wag has invented a new telegraph. He proposes placing a line of women thirty steps apart, and committing the news to them as a secret.

Wise and Otherwise.

A FUNNY INCIDENT.

On the steamer Indiana, on one of her trips down the Mississippi, there happened to be on board a Hoosier from the Wabash, going to New Orleans, who had an old fiddle upon which he continually scraped away, to the annoyance of the passengers.

The following is said to have passed in a school down east:

"Which is the most northern town in the United States?" "The North Pole." "Who is it inhabited by?" "By the Poles, sir."

A noted joker and two or three kindred spirits sauntered into a Jew clothing store the other day, and in reply to an invitation to buy some "clothes, shentlemensh?" the joker pecked out a fine coat, much to small for him, and commenced putting it on.

"I don't mean that. Well, then, what does your mother do when you sit down to the table?" "She says she will ring our necks if we spill any grease on the floor."

"There was a man in the land of Uz, and his name was Job, who feared God, and eschewed all evil." "This means, boys," said the master, "that he eschewed evil, as I do tobacco; he would have nothing to do with it."

ELDERBERRY WINE.

As the season for making elderberry wine is close at hand, we give the following recipe for making it: The berries, when ripe, are first picked by the stems, then stripped with the hand, or trampled close with shears.

DESTRUCTION OF MOTHS.

Cash or Flour paid for grain at the Highest Cash prices.

N. R. WINT, Proprietor. P. B. BALDWIN, Miller.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used.

No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become protracted, and the deep seated and formidable distempers which lead the masses all over the world, hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand.

Among the various eminent results surpassing anything hitherto known of any medicine. Cured have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of fraud.

Prof. J. M. LOCKE, Professional Chemist, of Cincinnati, whose high professional character is endorsed by Jos. McLean, Judge of the Supreme Court of the United States.

Thos. Colwin, Secretary of the Treasury. Hon. J. M. WRIGHT, Governor of Indiana. N. LONGWORTH, great and successful West. Also, Dr. J. R. CHITTORS, Practical Chemist, of New York City, endorsed by Hon. W. L. MARCY, Secretary of State. Wm. B. ASTOR, the richest man in America. S. L. LANSIE & Co., Proprietors of the Metropolitan Hotel, and many others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, which would be even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing the exact nature of the disease, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not time to consult a Physician, they will be promptly forwarded by mail to his request.

Of all the Patent Medicines that are offered, few few would be taken if their composition was known. Their life consists in their mystery. I have no mysteries. The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merit. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangement as are the first origin of disease.

Being saccharated, they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box PREPARED BY DR. JAMES C. AYER, Practical and Analytical Chemist, LOWELL, MASS.

Price 25 Cents per Box. Five Boxes for \$1 SOLD BY S. Stark, Tunkhannock; T. D. Spring, Laceyville; Harding & Co., Nicholson; E. J. Frear, Factoryville, and by dealers in Medicines everywhere.

MRS. WOOD'S CELEBRATED STIMULATING ONGUENT,

FOR WHISKERS AND HAIR.

THE STIMULATING ONGUENT AND INVIGORATOR will restore hair to the bald head; give new life and restore to original color gray hair; cause red hair to grow dark. It is warranted to bring out a thick set of WHISKERS OR A MUSTACHE!

in from three to six weeks. This article is the only one of the kind used by the French, and in London and Paris it is a universal use. It is a beautiful, economical, soothing, yet stimulating compound, acting as if by magic upon the roots, causing a beautiful growth of luxuriant hair. If applied to the scalp it will cure baldness, and cause to spring up in place of the bald spots a fine growth of new hair, which, according to directions, it will turn red or light hair dark, and restore gray hair to its original color, leaving it soft, smooth, and flexible. The "ONGUENT" is an indispensable article in every gentleman's toilet, and after one week's use they would not for any consideration be without it. The subscribers are the only Agents for the article in the United States, to whom all orders must be addressed.

Price ONE DOLLAR a box—for sale by all Druggists and Dealers—or a box of the "ONGUENT," warranted to bring out the desired effect, will be sent to any, who please, by mail, (direct) securely packed, on receipt of price and postage, \$1.18.

Apply to or address HORACE WOODLIF, South 7th St., cor. Grand, Williamsburgh, N. Y.

HOWARD ASSOCIATION, PHILADELPHIA.

For the Relief of the Sick & Distressed, afflicted with Typhoid and Chronic Diseases, and especially for the Cure of Diseases of the Sexual Organs.
