

Wise and Otherwise.

DANCING THEIR RAGS OFF.

Two unsophisticated country lasses visited Niblo's in New York, during the ball season. When the short-skirted, gossamer-clad nymphs made their appearance upon the stage, they became restless and fidgety.

ONE DROP AT A TIME.

Have you ever watched an icicle as it formed? You noticed how it froze one drop at a time until it was a foot long, or more.

A NEW SOLUTION.—Not long since a certain quack who looked as wise as an owl, was addressed by one of his patients thus: "Doctor tell me how it is when we eat and drink, the meat is separated from the drink?"

A CLERGYMAN ON THE RAMPAGE.—The Clark County (Ohio) Democrat says:

"The Rev. Mr. Childs in a war speech made in this city [Springfield] on the evening of the 19th ult., said:—"The man who desires to have the Union as it was ought to be hanged up by the heels until he be dead!"

A married lady, walking in the streets of Washington, with her husband, persisted in mistaking every good-looking soldier they met for her brother.

"Suppose I did make a mistake and kiss the dear fellows, don't they deserve it?"

A German doctor was consulted by a very sick patient, and having called while he was engaged he wrote a prescription, and threw it down to the sick man in haste saying, "there, take that."

WIDE AWAKE—SKEDADDLING.—An examination of the carpet-bags of eighteen of the "skedaddlers"—the fellows who are fleeing the country to get clear of the draft—was made at Cleveland, Ohio.

NICHOLSON Academy!

B. M. STONE will commence the next Term of his School, Sept. 8th, 1862, and continue 12 weeks.

NEW ESTABLISHMENT.

L. HARDING & CO., will keep constantly on hand ASHTON SALT, which is especially recommended for salting Butter.

LIME AND BRICK, CHEAPER THAN AT where else in the county, for sale at

A small town is a place where there are many tongues to talk, and but few heads to think.

Political.

A SCHEME OF TREASON NIPPED IN THE BUD.

At the last "great war meeting," in New York, a number of prepared resolutions were passed, as usual, without their contents being known to anybody, save a few on and near the speaker's stand.

RESOLVED, That General Fremont and General Mitchell be and are requested, if the Government will consent, to organize in this State without delay, a corps of fifty thousand men, and that application for such consent be made to the General Government, and if it refuses, then to the State Government.

RESOLVED, That all residents of this city who are willing to join such a corps be requested to communicate their names and residences to some member of this Committee.

A copy of these resolutions was sent to "the pathfinder who always lost his way, the hero who never fought a battle (or, if he did, he got whipped) the statesman who never made a speech or originated a measure, and the millionaire who ain't worth a red!"

WASHINGTON, Sept. 5, 1862.

GEORGE ODDYKE, Mayor, No. 79 5th Avenue, New York.

Your telegram yesterday has received consideration of this Department. General Mitchell having been assigned to command the Southern Department must immediately join his command.

To authorize military officers of high rank to raise and organize army corps should be productive of military disorganization.

This was a clincher. The committee then resolved to drop the matter.

In the meantime, some half dozen or more respectable gentlemen, whose names had been used without their consent, as members of this Committee, publicly declined the honor; but as the resolution authorizing its formation gave the Committee power to fill vacancies, their places, we presume, were filled by other patriotic gentlemen, who were more anxious to serve their country in this safe capacity.

Aug. Belmont & Co., who had contributed \$1000, when they saw what the committee were trying to do, (which, by the way, they did not see for some time, owing to the fact that the committee sat with closed doors, and kept their proceedings secret) withdrew their contribution and divided it equally between the Irish Brigade and the Corcoran Legion.

So this attempt to put John Charles (the husband of Jessie) into a high position, in which it was probably hoped that he might eventually make himself supreme dictator and carry out emancipation without regard to Mr. Lincoln, signally failed, and the "National War Committee," so far as heard from, utterly evaporated.

A married lady, walking in the streets of Washington, with her husband, persisted in mistaking every good-looking soldier they met for her brother.

"Suppose I did make a mistake and kiss the dear fellows, don't they deserve it?"

A German doctor was consulted by a very sick patient, and having called while he was engaged he wrote a prescription, and threw it down to the sick man in haste saying, "there, take that."

THE PLACE TO BUY

BEST AND CHEAPEST.

G. H. EASTMAN'S BOOT AND SHOE SHOP,

as he intends for the future to sell exclusively for CASH OR READY PAY;

this making every man pay for his own work, without taxing him for the debts of those that never pay.

He is constantly adding to his large stock of THE BEST MATERIAL,

and will keep on hand and make to order all kinds of BOOTS, SHOES, BUSKINS, GAITHERS, SLIPPERS, GLOVE-KID SHOES, &c., &c.

The Best Workmen

are employed in his manufacturing establishment, and he feels confident of his ability to give the most perfect satisfaction.

G. H. EASTMAN

is noted for making the BEST and CHEAPEST Boots and Shoes ever offered to the public, and in order to sustain his reputation, he will spare neither care nor expense.

His shop is first door below R. R. Little's Law Office, where he is prepared to make to order, and do repairing on short notice.

My motto is, to use none but GOOD LEATHER—not to purchase that which is boiled or rotten.

P. S.—Orders for fine Sewed Boots particularly solicited.

G. H. EASTMAN, Tunkhannock, Aug. 14, 1861

Bleaching and repairing done in good order, and at the shortest notice.

FRUIT CANS, for preserving fruit, for sale by MILLS & ROSS, Tunkhannock, September 11, 1861.

AYER'S PILLS,

A NEW and singularly successful remedy for the

A cure of all Bilious diseases—Constiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammation, Headache, Pains in the Breast, Side, Back, and Limbs, Femoral Complaints, &c. &c. Indigestion, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used.

No person can feel well while a costive habit of body prevails; besides, it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative.

This is alike true of Cholera, Feverish symptoms, and Bilious derangements. They all tend to become protracted if the deep seated and formidable distempers which load the bowels all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand.

An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond all belief, and they are not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention: Prof. J. M. LOCKE, Analytical Chemist, of Cincinnati, whose high professional character is endorsed by

JOHN McLEAN, Judge of the Supreme Court of the United States.

THOS. CORWIN, Secretary of the Treasury

HON. W. L. MARCY, Secretary of State.

Wm. B. ASTOR, the richest man in America.

S. LELAND & Co., Prop'rs of the Metropolitan Hotel, and many others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, they should be any one who has not received them, they will be promptly forwarded by mail to his request.

Of all the Patent Medicines that are offered, how few would be taken if their composition were known. Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, and as to the propriety of the use of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces.

If, however, they should be any one who has not received them, they will be promptly forwarded by mail to his request.
