LIZIUM MOO INUNI

Will you allow me a few words of exhortation to my as he is a survivor of the Revolution. brother farmers, in regard to their growing more root crops. They are universally allowed to be very nuritious and highly beneficial feeding purposes yielding imm ensely and requiring no great out lay of labor or but, little land; yet many farmers neglect to grow hem, much against their own interest. If those who have never fed them will supply themselves for one

year, they will. I think ever grow them afterward. In looking over the statistics of England we find the root culture is carried on to a great extent; and nowhere do we find as good stock, as there, where roots enter so largely into their food. The reason is obvious; during so long a confinement, on dry food. the digestive and secretive organs become seriously impaired, unless some substitute for their food-grass -is offered in the shape of roots whose effects are readily seen even when fed once or twice a week only, I hesitate not in saying that stock can be wintered mer beats time cheaper with a supply of roots than without them, as more straw can be fed without injury.

Carrots. I think, take the preference, being more nutritious, easilp digested, and, forming a good substitute for grass. For the horse, there is nothing compared with them- giving him an appetite, a smooth glossy coat,, and healthy appearance. It is a bull!" also heghly beneficial for broken wind, or heaver etc,

For milch cows, also, they are valuable increasing the flow of milk, and adding to the quality of butter. For young stock they develop the muscle and stimulate the growth.

For their culture I need say but little, as most farmers are familiar with the process. The ground on which wheat, barley or oats, has been, is best It should be thoroughly and deeply plowed in the fall-although a good crop can be grown without, but will be more weedy-and thoroughly harrowed early in the spring, and allowed to remain until from the middle to the twenty-fifth of May, according to the season, then thoroughly manured with rotten manure, well cross-plowed, and again harrowed. removing all grass roots with a garden rake, Sow by a line in drills sixteen inches apart, cover with half an inch of clean soil, press gently with the hoe each drill. As soon as the plants obtain sufficient said the physician. size to be seen, hoe between the rows and remove all vacancies. Another hoeing will suffice.

In harvesting, run a plow close along the drills, when they can be removed easily by hand.

I prefer the white Belgium, or, the long orange arieties; the latter being the best for the table, but not yielding as well .- New York Argus

WOOL-GROWERS' CONVENTION.

A convention of wool-growers was held at Cleveland, Ohio, the other day, and was very largely attended. The principal toric discussed was whether resolved that the practice of washing sheep be abol- rid."

1st .- It permits of early shearing, which secures a greater quantity of wool, a longer stable, and a better condition of sheep and ewes, through the year.

2nd.—Of the exposure to contagoius diseases, such as scab, foot-rot, &c.. in places frequented by different flocks to be washed. 3rd.-It is an expensive, unpleasant job, and un_

vealthy both for man and sheep. 4th,-That the manufacturer must cleanse the

5th.-That it is to the interest of the wool-growers to put their unwashed wool in as good condition as possible, by keeping their yards well littered, and

by throwing away all filth that can be separated his hospitality. The moment a stranger comes to -Some lots of wool are more gross and gummy than others, therefore no rate of deduction could but one pleasure greater than whittling, and that is be agreed upon suitable to all grades and classes, selling-pegs for oats.

but that each lot should be bought upon its own merit for quality and condition.

or no improvement to the flebee.

GRIND THE TOOLS

Keep the tools sharp or they willnot cut. A dull tool waste time, and he who permits it to work when in that condition, is a dull fellow. The best turners are those who have the sharpest tools; the most successful surgeons use the keenest, and the most enterprising and energetic men in civil life are those whose wit have been early ground sharp, and whose preceptve thick-heaed, unobservant person is the only one who should be found wielding it. The obtuse edge neither cleaves nor separates, but bruises and works off attrition particles of the substance on which it operates Grand up the tools, and sharpen the wit as well; if one is keen, the other will in all probability be in a similar state from force of sympathy alone. A boy with a dull pocket-knife is one who swings on the gate and dodges his duty : he is one who in after-life will be a a dunce and and a cumberer of the ground; he will add nothing to the world of science, peither will he take from it; his existence is merely animal his thoughts and ideas, if he has any, wholly conventional. His comrade, with a keen blade, makes models of machinery, of boats or steamers, and in time killed lying in the gutter. Muggins pused, gazed he becom 's a George Steers, or so develops his mother wit as tobe a decided acquisit on to the community "Here is another shipwreck." "Where?" "There's Let us have all the tools in good conditition, sharp, trenchant, and always ready for service; then and and passed on. then only will the result produced be equal to the time and labor expended.

KICKING Cows .- A correspondent of the New England Farmer, after trying many methods for break- nae great thing of a head to be sure,,' said the old ing cows of the habit of kicking, employed success- lady, "but it was quite a loss to him. fully the one described below; adding that some of his neighbors have proved its efficacy as a preventative. He says:

"When the cow kieks, catch the foot in the hand and draw it close to the cow's body, holding it there until she settles back on you, then let go of it. After several vain attempts at kicking. the cew finding herself eaught in her own trap, is very careful how she takes up her foot while milking, and much more how she puts it down ,'

A SURE CURE FOR THE APPLE BARK LOUSE .-- Say to the RURAL that Petroleum (Seneca Oil,) will kill the apple bark louse. There is no failure or uncertainty in thes remedy. Don't forget it. Apply it now, as it will kill the new growth during summer .-O. T. Hobbs' Randolph, Pa.

A writer says that a cow was cured of holding up her milk by patiently milking until she ceased to hold in, and by continuing the practice she has become an easy, regular, and a good cow.

Sunflower yields 140 bushels per acre, and each bushelone gallon of good oil. Its leaves furnish provender; its seeds food for poultry and hogs. It

thrives on poor soils. HAGGLING off limbs and branches and leaving stumps on the trees, which rot off and let the water into the trunk, soon destroys the tree; therefore, always cut or saw off smooth, when the wound will heel and the bark grow over.

FRUITS, in a ripe and perfect state are beneficial to health if not esten to excess.

Mise and Atherwise.

A country individual who was caught in-awater-wheel, says he intends to apply for a pension,

Mamma, may I go a fishing ?" "Yes, lad, but don't go near he water. And recollect, if you are drowned, I shall skin you as sure as you are alive."

SARSAPARILLA
FOR GREAT REMEDY

SCROFULA AND SCROFULOUS DISPASES.

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your Sarsapar.

ILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

been no medicine like it before in our community?

Bruptions, Pimples, Blotches, Pustulei,
Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stration, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her care, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Bice, a shell become

cure until we tried your Sarsaparilla. She habeen well for some months."

From Mrs. Jane E. Rice, a well-known and much esteemed lady of Dennisville, Cape May Co., N.J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your Sarsaparilla, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known for Gage, Murray & Co., manufacturers of commelled papers in Nashua, N. H.

"I had for several years a very troublesome had mor in my face, which grew constantly worse until it disfigured my features and became an intolerable affiliction. I tried almost everything a man could of both advice and medicine, but without any relisif, whatever, until I took your Sarsaparilla. It immediately made my face worse, as you told meit might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anybody's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without adoubt one it to your Sarsaparilla."

Erysipelas — General Debility — Purify the Blood.

From Dr. Robt. Sawin, Houston St., N. Y.

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Savim, Houston St., N. Y. Dr. Ayer: I seldom fail to remove Eruptions and Scrofulous Sores by the persevering use of your Sarbaparilla, and I have just now cured an attack of Malignant Erysipelas with it. No alterative we possess equals the Sarbaparilla you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctor decided that my arm must be amputated. I began taking your Sarbaparilla. Took two bottles, and some of your Pills. Together they have cured me. I am now as well and sound as anybody. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your Sarbaparilla in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The some began to heal when we had flushed the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die." Scald Head, Sore Eyes.

Syphilis and Mercurial Disease. From Dr. Hiram Sloat, of St. Louis, Missouri.
"I find your Sarsaparilla a more effectual remedy for the secondary symptoms of Syphilia, and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER—My dear Sir. I have found your SARSAPARILLA an excellent remedy for Suphilis, both of the primary and secondary type, and effect rall in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a nower-

ploy with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunsuck, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him. tles to cure him. Leucorrhæs, Whites, Female Weakness,

Leucorrhæa, Whites, Female Weakness, are generally produced by internal Scrofulous Uleration, and are very often cured by the alterative effect of this Sarsaparilla. Some cases require, however, in aid of the Sarsaparilla, the skillal application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your Sarsaparilla an excellent alterative in diseases of females. Many cases of irregularity, Leucorrhæa, Internal Ulceration, and local debility, arising from the scrofulous disthess, have yielded to it, and there are few that do not when its effect is properly aided by local treatment. A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have heen cured of very debilitating Leucorrhea of long standing, by two bottles of your SARSAPARILLA." Rheumatism, Gout. Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by Scrofula in the system, are rapidly cured by this Ext. SARSAPARILLA. AYER'S CATHARTIC PILLS

possess so many advantages over the other put gatives in the market, and their superior virtue are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all

that they have ever done.

Prepared by J. C. AYER, M. D., & Co.,
Lowell, Mass., and sold by H Stark, Tunkhannock; T D. Spring, Laceville viarding & Co., Nicholson; E & J. Frear, Factor ville, and by dealers in Medicines everywhere.
