The subject of this notice Was a little girl of amiable disposition who by undeviating peseverence had brought herself into much notoriety in the common and Sabath School, which she attended. The loss is deeply felt by all her friends and the small circle in which she moved.

The Lord has called our chile away, To dwell with Christ in realms of bliss, Relieved from pain where all is peace.

But why indulge in grief, and gloom, Twas Jesus called berto his home. Cease thy marmurs; Peace, be sill; It was her Makers sovereign will.

A NEW PICTURE GALLERY has just been coveed in Tunkhannock, which is sure het with entire new material for the taking of Pictures in the

He has purchased a splendid assortment of Casse, among which are the Union, Band Clasp, Octagen, Oral Gill Frames, Gill Trays, &c., very neat and desirable patterns—besides a variety of plain and fancy Cases, of every size and description.

The foregoing, he thinks, are inducements sufficient for every one to come to the Pietere Gallery and secure one of those "faithful shadows"— "Which light and art, with magic spell, By working together, can catch so well !" If not, there are other considerations. How impor-tant that you secure a faithful likenessof your friends and relatives ore it is too late. You have all experi-enced something of the satisfaction afforded in gasing on the Picture of an absent friend; and some of you

have known the sad pleasure derived from possessing the likeness of some loved one who has been laid be neath the church yard mound, and felt that "No price could take from you A memento so cherished; For, how sacred the shadow,

Since the substance has perished.' But you perchance have friends still with you whose pictures you have not yet secured. If so make it the business of to-day, to-morrow may be too late. Then come to the Picture Gallery in Samuel Stark's Brick Block—third story—a few doors east of Wall's Hotel, and secure one of those "faithful shadores".

> > Executer of last will and Testament of Elihu Fassett Dec'd.

multitudes of men. It either produces or is produced by an en-feebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain AVERS competent to sustain W vigorous action, and leaves the system to decay. The scrofulous

contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniqui-ties of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produces indirection. duce indigestion, dyspepsia, and liver com-plaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh"

healthy, you cannot have scrofulous disease. Ayer's Sarsaparilla is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com-bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases : King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas. Rose or St. Anthony's Fire. Salt Rheum, Scald Head, Coughs from tu-berculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspensia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sars yarilla in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the

blood; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any We know the public have been deceived by many compounds of Sarsavarilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has
