farmer's Column.

ONE DAY'S WORK ON A DAIRY FARM

Thinking it might interest the reader to know what amount of work may be accomplished on a large dairy farm, where everything is systemized, in a single day, we have obtained from Colonel Pratt's farmer, Captain Newcomb, the following account of labor performed with accompanying results, on his dairy farm, (which producss 20,000 pounds of butter yearly,) on the first day of July. The persons employed consist of three men, three women and three boys, who rise at half past four o'clock A. M. The day's work for the men and boys commenc es, 1st, by driving in from pasture ninety cows, and putting them in the stable ready to milk ; 2d, teeding and watering horses, bulls, calves, 49 hogs, 130 turkies and 120 chickens.

Milking cows begins at 6 o'clock and finishes at 71 o'clock. The cows are then let out to pasture, the stables cleaned, and everything ready for field work at 81 o, clock, when the weeding of the carrots and hoeing of corn and potatoes commences. Between 11 A. M. and 2 P. M. three swarms of bees (50 hives) have been hived. Dinner at 12 M.; after dinner the horses &c. are fed and watered, and all is ready for field work at half-past 1 o'clock. At four o'clock start for the cows and at five o'clock they are all stabled, ready, or milking. Supper at five o'clock, and at half past five milking comare carried to the dairy. At seven o'clock the cows are let out of the yard and driven to their night pasture. The stables are then cleared, the horses, bulls, calves, hogs and poultry led, and firkins opened.

We have, so far, given an account of the men's work done, we now proceed to the female management of the dairy : Three women are employed, two in the dairy room and one at housework. The day's work begins by the two skimming milk, while the third prepares the breakfast for 51 a'clock. Milking begins at 6 o'clock, and is finished and the milk carried in by $7\frac{1}{2}$ o'clock. The quantity of milk obtained this morning was 631 quarts, equal in weight to 4,228 pounds. When the milk is brought into the milkroom it is strained into large cans, then dipped by the two women and the two boys, and put into pans and placed upon the milkracks, and while the milk-pails, cans and strainers are being washed, the churns well filled with cream. two in number, each the size of a barrel, and worked by water power, are set to work. The number of pans of milk skimmed this day is 509. Near to the churns, and in the churn-room, is a wooden tunnel, in the bottom of which is a trough leading under ground to the hog pen, and as fast as the pans are skimmed the refuse milk is emptied into this tunnel and by the trough conveyed into a milk resevoir in the hog pen, from which the hogs are fed as required. The cream skimmed from these 506 pans of milk made 123 pounds of butter. The newly made butter is now salted, the milk-house scrubbed, the pans and churns washed and carried out to the air and sun to dry.

Next in order is the working and packing of the butter churned the day previous -

It was night-Jerusalem slept as quietly amid her hills as a child upon the breast of its mother. The noiseless sentinel stood like a statue at his post, and the philosopher's Boots, Shoes, Harness and Leather, lamp burned dimly in the receases of his chamber.

But a moral darkness involved the nation aint glimmering over the minds of men, like the cold and unsufficient light of a distant star. The immortality of man's spiritual nature was unknown, his relations unto heaven undiscov ered, and his future destiny obscured in a cloud of mystery.

It was at this period that two forms of God's chosen people. They seemed like sister angels sent to earth on some embassy of of love. The one. of majestic stature and well-formed limbs, which her snowy drapery hardly concealed, in her erect bearing and steady eye, exhibited the highest degree ot strength and confidence. Her right arm was extended in an impressive gesture upward, where night appeared to have placed her darkest pavilion ; while on the left reclined her delicate companion, in form and countenance the contrast of the other, for she was drooping like a flower when moistened with refreshing dews, and her bright but troubled eyes scanned the air with varying mences-milking finished-sixty pails full glances. Suddenly a light, like the sun. flashed from the heavens, and Faith and Hope hailed with exulting songs the ascending star of Bethlehem. Year rolled away, and the stranger was

seen in Jerusalem. He was a meek unassurning man, whose happiness seemed to con sist in acts of benyo lence to the human race. There were deep traces of sorrow on his countenance, though no one knew why he grieved, for he lived in the practice of every virtue, and was loved by all the good and wise. By and by it was rumored that the stranger worked miracles; that the blind saw, and the dumb spake, and the ocean modera-ted its chafing time, and the very thunder articulated, "He is the Son of God." Envy assailed him to death. Slowly, and thickly girded, he ascended the Hill of Calvary, a cross bent him to nthe earth. But Faith leaned on his arm, and hope dipped her pinions in his blood, and mounted to the skies.

SCROFULA AND SCROFULOUS DISEAND. From Emery Edes, a well-known merchant of Oxford, Maine. "I have sold large quantities of your SARSAPAD-ILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they after the back been no medicine like it before in our community." Emurican Maines Durates Durates and States and

been no medicine like it before in our community." Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin. From Rev. Rolt., Strates Fridel, England. "I only do my duty to your mobile the when I add my testimony to that your publish of the mo-dicinal virtues of your SARSAFARILLA. My daugh-ter, aged ten, had an afflicting humor in her earn, eyes, and hair for years, which we were unable to cure until we tried your SARSAFARILLA. She has been well for some months."

cure until we tried your SARSAPARILLA. She has been well for some months." From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Devnissille, Cape May Co., N.J. "My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SA. SAPARILLA, which soon completely cured her." From Charles P. Gage, Esq., of the widely-known, a of Gage, Murray & Co., manufactures of cnam-elled papers in Nashua, N. H. "I had for several years a very troublesome ha-mor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost everything a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me fit might for a time; but in a few weeks the new dim began to form under the blotches, and continues until my face is as smooth as anybody's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA." Erysipelas - General Debility - Purify the

Erysipelas - General Debility - Purify the Blood.

Blood. From Dr. Robt. Sawin, Houston St., N. Y. DR. AYER: I seldom fail to remove Eruptions and Scrofulous Sores by the persevering use of your SARSAFARILLA, and I have just now cured an at-tack of Malignant Erysipelas with it. No attera-tive we possess equals the SARSAFARILLA you have supplied to the profession as well as to the people."

supplied to the profession as well as to the people." From J. E. Johnston, Esg., Wakeman, Ohio. "For twelve years 1 had the yellow Erysipelas on my right arm, during which time I tried all the cel-ebrated physicians I could reach, and took hundreds of dollars' worth of medicines. The ulcers were so had that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured the. I am now as well and sound as any body. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

community, and excites the wonder of al." From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament. "I have used your SARSAFARILLA in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

Scald Head, Sore Eyes.
 Scald Head, Sore Eyes.
 From Harvey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvanids.
 "Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a loathsome and virulent eore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied his eyes for some days. A skilful physician applied his eyes for some days. A skilful physician applied his eyes for some days. A skilful physician applied his eyes for some days. A skilful physician applied his eyes for some days. A skilful physician applied his hards, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having trie devery thing else we had any hope from, we began giving your SARSAPARILA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had fluished the secoud. The sore and was well when we had fluished the scould. They and was well when we had fluished the scould. They and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri. "I find your SARSATARILLA a more effectual remedy for the secondary symptoms of Syphilis, and for syphilitic disease than any other we posses. The profession are indebted to you for some of the best medicines we have."

The profession are indebted to you for some of the best medicines we have."
 From A. J. French, M. D., an eminent physici is of Lawrence, Mass. who is a prominent member of the Legislature of Massachusetts.
 "On. AYER - My dear Sir: I have found your SARSAPARILLA and excellent remedy for Synki's, both of the primary and secondary type, and effective to obstimate to yield in other remedies. I do not know what we can employ with more certainty of success, where a power-in alterative is required."
 Mr. Chas. S. Van Liev, of New Brunsuck, N. J., and more angeravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S ARBAPARILLA releved discressing than this, and it took several dozen bottles to cure him.
 Leucorrhcea, Whites, Female Weakness,

Leucorrhœa, Whites, Female Weakness, are generally produced by internal Scrofulous Ulcer-ation, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

Tea, Coffee, Sugar, Molasses, Syrup Kerosene, Candles, Tobacco, Snuff, Saleratus, Sal Soda, Ginger, Pork, White Fish, Mackerel, Trout, Nails, Glass, Wheat Flour, Buck-

ter, Cheese, Eggs, Apples, Vinegar, Starch, Pen-

T. D. SPRING.

Hot water is now put in the firkin last opened, and brine is changed from one firkin to the other, and the empty firkin rubbed with fine sait and got ready to receive the packed butter. It is now five o'clock in the afternoon, and all hands go to supper, and at halfpast five o'clock the milking commences, and by seven o'clock has been carried in the milk room. Then follow the dipping and putting into pans and placing the pans on the rack as before stated, and this by the washing of the pails and strainers, and at eight o'clock the work of the day is done. This day (July 1st.) from nine cows one hundred and eleven pounds of butter was made .- Pratts. tille News.

PRESERVING FRUIT.

Prof. Mapes says : "If tomatoes are slightly scalded and skinned, and put into bottles and these set into boiling water for a few minutes, and corked and sealed, the fruit will keep as long as desired, and if eaten when first opened will have the same taste as when first picked from the vines."

Our experience is this : We pick our tomatoes, wash and peel: then boil slightly and stir for five or ten minutes, so as to be sure to expel all the air ; then heat the botthes and fill, corking up instantly. If not corked up at once, and when full, the contents will settle, and leave a vacant space. The cork should be a short one, and pushed down below the level of the bottle neckthis filled up with melted scaling wax. This is our mode. We have never lost a bottle. nor had the least change taken place in the fruit. We have kept it-and generally doa year, or a year and a half always with perfect success. We have now a quart bottle filled, which we shall not break till next summer when it will be two years old. We have no thought at all of its spoiling. Oyster cans are equally good, only there will be a tin taste-not agrecable.

In this process the heat drives out the air, and the glass keeps it out. This preserves the fruit. But there is some fruit that will not preserve, on account of the fixed air in it cions parent. Plums are of this nature. Pears, on the other hand, are readily preserved.

There is another way to preserve fruit, the and has lots of toys." sir pump. Pump out the air and your fruit is safe, regardless of the vacuum in the vessel. Fruit may be preserved with or without sugar: but it should never be boiled with sugar. Boil first, then apply the sugar ; or, heat your syrup, and pour over your fruit. This leaves the taste of the fruit distinct .---One thing more; use only the purest and best refined sugar-sugar without taste, for whatever odor or flavor there is, goes into the fruit and will be tasted.

It kosts more to borry than it dus to buy. Ef a man flatters yu, yu can kalkerlate that he is v roge or yure a fule. Keop both ize owen but dont cee morn half you notis.

When yu pra, pra right at the sentre of the mark.

N. B .- These are proverbs hev stood fur morn a hundred years, and haint gin out yet.

E When Gen. Moreau was in America he made a great mistake at a musical society, where a song was sung the chorus of which was, " To-morrow, to-morrow." Imperfectly acquainted with the English, the French offi cer fancied it was a poetical tribute, and that the stanza scosed with the mention of his name : "To Moreau, to Mcreau ?" so that every time the phraze occu:red, he rose and bowed to the singers, to the cause of the general's mistake.

A WISE ANSWER .-... "You must not play with that little girl, my dear," said a judi-

'But ma, I like to, she is a good little girl and I am sure she dresses as neat as I do.

at cannot help that, my dear," responded the foolish mother " her father, you know he is a shoemaker."

The restoration of that party— the party of the CONSTITUTION and the UNION— to power, in the legislative and executive governmen-tal branches of the States and of the Union, we be-**Traveling Public!** lieve to be necessary to avert anarchy, and the utter ruin of the Republic. To contribute to that restora tion will be our highest aim.

tion will be our nignest and. The News, Literary, Commercial, and other de-partments, will receive due attention, and will be so conducted as to make "THE AGE" worthy of the support of the general reader. The many difficulties now surrounding an en-

terprise of the magnitude of that in which the under terprise of the magnitude of that in which the under signed are engaged, require them to appeal to the public for a generous support, and to ask for "The AGE" a liberal patronage and extended circulation. The present state of the proparatory arrangements warrants the expectation, that the first number of the Daily will appear before the close of the coming month, (February, 1863.) The Weekly will be is-sued soon thereafter.
