SAFE AND WITTY.

One of the old school books used to have a good story about Cardinal Wolsey, who was hurrying to reach a city before the gate was closed for the night. Meeting a countryman, he asked if he could probably get in at the gate. The country man, enjoying a good joke, looked at the portly body of the archbishop, as if estimating its girth, and quietly said :-"I think you can; a load of hay went in this afternoon." The following is about as good :

" As a pedestrian tourist," says the Orleannais, 'was lately proceeding towards Tours, which will be done on short notice he asked a man who was breaking stones by the roadside how long it would take him to reach that place? The man looked at him subscribers without speaking, and then resumed his work. The question was repeated with the same result, and at last the traveller walked on. He had not proceded more than a hundred yards when the man called after him, and made a sign for him to return. When the pedestrian reached the stone breaker, the latter said to him:

"It will take you an hour to reach Tours." "Then why did you not tell me so at first?" said the traveller.

"Why," replied the man, "it was necessa ry for me to see at what rate you walked; and from the way you step out, I am now able to say, that you can do the distance in an WITH or WITHOUT PREMIUM NOTES

AN ECCENTRIC PHYSICIAN.

A friend relates for the Agriculturist, the following anecdote of a skilful physician, Dr. M-, who is still practising in Rhode Island. He had a way of doing things all his own, and no one could tell beforehand, "where he would come out." On one occasion he was called to perferm a very im portant surgical operation on a young man living in this country. Arriving there he found collected a large number of neighboring farmers and others, who had come from curiosity to witness the operation. He ob served that the house was scantily furnished. and other evidences of the poverty of the family were apparent, and he inquired wheth er the mother, a widow, was ready to pay the \$50 he should charge. She replied that she could not at present, but he would do nothing until the money was paid, and ask ed them if they could not make up the amount. This was soon done, but not with out many condemnations of the hard hearted doctor, who, however, paid no attention to the remarks, but immediately went on with his work, which he performed successfully. As soon as it was over, he stepped up to the mother, and remarking "the boy will need some things before he gets well," slipped the \$50 into her hand, and was off before he could hear her thanks, or the loud praises of those who had been just denouncing him as a grasping miser.

USEFUL CAUTIONS.

If a man asks you to go his security, say " No," and run; otherwise you may be en slaved for life, or your wife and children may spend a weary existence, in want, sickness and beggary.

If you find yourself in possession of a counterfeit note or coin, throw it into the fire on the instant; otherwise you may be tempted to pass it, and may pass it to feel mean therefore as long as you live; then it may pass into some man's hands as mean as yourself, with a new perpetration of iniquity, the loss to fall eventually on some poor struggling widow whose "all" it may be. Never laugh at the mishaps of any fellow

mortal. The very instant that you perceive yourself in a passion, shut your mouth; this is

one among the best precepts outside of inspiration. The man who always exicts the last cert

is always a mean man; there is no " evacuant" in all the "Materia Medica" effisient enough to "purge" him of his debasement; he is beyond druggery.

Never effect to be "plain" or "bluat;" these are the synonyms of brutality and boorishness. Such persons are inflicting wounds which neither time nor medicine can

Never be witty at another's expense; true generosity never dwelt in such a heart; it only wants the opportunity to become a cheat or rogue -Hall's Journal

AN EYE TO BUSINESS.

A legal friend in the west sends us the following:

Several years ago I was practising law in one of the many beautiful towns in Wisconsin. One very warm day while seated in my office at work, I was interrupted by the entrance of a boy, the son of one of un; ch ents, who had walked into town, six miles in a blazing sun, for the purpose of procuring a bible. He had been told, he said, that there was a place there where they gave them away to people who had no money; he said he had no money and was very anxious to get one of the good books and asked me to go with him to the place where they were kept. Anxious to encourage him in his ear ly piety I left the brief on which I was ergaged, and went over with him to the stand of an old Preabyterian deacon who had the much coveted books in charge. I introduced him to the deacon telling him the circum stances. He praised the boy very highly; was delighted to see a young man so early seeking after the truth, &c., and presented him with the best bound bible in his collection. Bubby put it in his pocket, was start ing off, when the deacon said: " Now my son, that you possess what you so much de sired, I suppose you feel perfectly happy?"

PROSPECTUS

TO BE PUBLISHED DARLY AND WEEKLY THE CITY OF PHILADELPHIA, BY A. J. GLOSSBRENNER & Co.

A J. GLOSSBRENNER. FRANCIS J. GRUND. "THE AGE" will advocate the principles and policy of the Democratic party, and will, therefore, nec essarily favor the restoration of the Union as it was and defen the Constitution of the United States, ar d

that of this Commonwealth.

It will freely and fairly discuss all legitimate sujects of newspaper comment, including of course, and pre-eminently at this time, all questions connecte with the existing unhappy condition of our cuntry. It will fearlessly criticise the public acts of public servants, and defend the legal and constitutional rights of individual citizens and of sovereign states,

against assualts from any quarter.

It will seek to awaken the minds of the people to a proper sense of the a tual condition of the Republic—to present to them, truthfully, the fear.ul perils in which we stand as a nation—to exhibit the magnitude of the task that is before them, if they would che k our downward progress—and to inspire them with patriotic determination to apply THE REMEDY

for our national ills.

In brief, it will, in all things, aim to le the faithfal exponent of Democratic principles, and to render itself worthy to be an organ of the Democratic party, under whose auspices our country prospered so long and so well. The restoration of that party—the party of the Constitution and the Union—to power, in the legislative and executive governmen-tal branches of the States and of the Union, we believe to be necessary to avert anarchy, and the utter ruin of the Republic. To contribute to that restora tion will be our highest aim.

The News, Literary, Commercial, and other departments, will receive due attention, and will be so conducted as to make "The Age" worthy of the

support of the general reader.

The many d ficulties now surroun ing an enterprise of the magnitude of that in which the under signed are engaged, require them to appeal to the public for a generous support, and to ask for "THE public for a generous support, and to ask for "THE
AGE" a liveral patronage and extended circulation.

The present state of the preparatory arrangements
warrants the expectation, that the first number of

Horses and Carriages in readiness toforward passengerf at all times.

SCROFULA lurks in multitudes of men. either produces or is produced by an en-feebled, vitiated state of the blood, wherein

contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stores hand bowels decangements which proach and bowels, derangements which prostomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that 'life of the flesh' healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-dotes that medical science has discovered for this afflicting distemper, and for the care of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com-bine virtues truly a trial. bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases : King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas. Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tu-berculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in ATER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cares which is her made when the remarkable cures which it has made when all other remedies had failed to afford relief all other remedies had failed to anord reher.
Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten and does tions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considered The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its pecaliar virtues this remedy stimulates the vital functions, and thus expels the distempers which

lurk within the system or burst out on say part of it. part of it.

We know the public have been deceived by many compounds of Sarsuparilla, that promise much and did nothing; but they will neither deceived nor disappointed in this. Its virtue have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same tips a very different medicine from any name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has

AYER'S

CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages

of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass. Sold by all druggists everywhere. H Stark. 14mkbannock; T D. spring, Laceyville viarding & Co., Nicholson; E & J Frear, Factor y ville, and by dealers in Medicines everywhere.
