THE NICE GIRL.

There is nothing half so sweet in life, half so beautiful, or delightful or so lovable as a "nice girl." Not a pretty, or dashing, or an elegant girl, but a nice girl. One of those lovely, lively, good-tempered, good hearted, sweet -faced, amiable, neat, happy, domestic creatures met within the sphere of home, diffusing around the domestic hearth the influence of her goodness like the essence of sweet flowers.

A nice girl is not the languishing beauty, dawdling on a sofa, and discussing the last novel or opera; or the giraffe like creature sweeping majestically through a drawing room. The nice girl may not even dance or play well, and knows nothing about "using her eyes," or coquetting with a fan. She is not given to sensation novels, she is too busy. At the opera, she is not in front showing her bare shoulders, but sits quietly and unobtrusively-at the back of the box most likely. In fact, it's not often in such scenes we discover her. Home is her place.

Who rises betimes, and superintends the morning meal? Who makes the toast and the tea, and buttons the boys' shirts, and waters the flowers, and feeds the chickens, and brightens up the parlor and sitting room? Is it the languisher, or the giraffe, or the

elegante? Not a bit of it-it's the nice girl-Her unmade toilet is made in the shortest possible time, yet how charmingly it is done, and how elegant her neat dress and plain collar! What kisses she distributes among the family! No presenting a cheek or a blow, like a "fine girl," but an audible smack, which say plainly: "I love you ever so much." If I ever coveted anything, it is one of the nice girl's kisses.

Breakfast over, down in the kitchen to see about dinner; always cheerful and lighthearted. She never ceases to be active and useful until the day is done, when she will polka with the boys, and sing old songs, and play old tunes to her father for hours together. She is a perfect treasure, is the "nice girl," when illness comes; it is she that attends with unwearying patience to the sick chamber. There is no risk, no fatigue that she will not undergo, no sacrifice that she will not make. She is all love all devotion. I have often thought it would be happiness to be ill, to be watched by such loving eyes and tended by such fair hands.

One of the most strongly marked charac teristics of a " nice girl" is tidiness and simplicity of dress. She is ever associated in my mind with a high frock, plain collar, and the neatest of neck ribbons, bound with the most modest little brooch in the world. I never knew a "nice girl" who displayed a profusion of rings and bracelets, or who wore low dresses or a splendid bonnet.

I say again, there is nothing in the world half so beautiful, half so intrinsically good, as a " nice girl." She is the sweetest flower in the path of life. There are others far more gorgeous, but these we merely admire as we go by. It is where the daisy grows that we lie down to rest.

### THE PRINTER.

B. F. Taylor, of the Chicago Journal, writer whose every word is a poetic thought, thus speaks of the Printer, truly and prettily. In those pretty pictures of language what word painter so artistic, so exquisite as he? Read it, think of it, and say, for you can't help it, "it is so."

"The Printer is the Adjutant of thought, and this explains the misteries of the wonderful words that can kindle a house as no song can-that warm a heart as no hope crn-that word " we ," with a hand in-hand warmth in it, for the Author and Printer are engineers together. Engineers indeed! When the little Corsican bombarded Cadiz, the distance of five miles, it was deemed the very triumph of engineering. But what is that paltry range to this, whereby they bombard the ages yet to be.

There he stands at the case and marshals into line the forces armed for truth, clothed in immortality and in English .- And what can be more noble than the equipment of thought in Sterling Saxon-Saxon with the ring of spear or shield therein, and that com missioned it when we are dead, to move for this has no dying in it.

"The Printer is called a laborer, and the office he performs is toil. Oh, it is not work, but a sublime rite he is performing when he thus " sights " the engine that is to fling a worded truth in grandeur curve than missiles e,er before described—flings it into the bosom
of an age yet unborn. He throws off his coat
indeed; but we wonder the rether that he

"A little song was uttered somewhere long ago; it wandered to the twilight feebler than a star; it died upon the ear; but the Printer takes it up where it was lying there in the silence like a wounded bird, and h sends it forth from the Ark that had preserved it, and it flies into the future with the ole. ive branch of peace, and around the world with melody, like the dawning of a spring morning."

AGREED .- On a wet, miserable, foggy London day, Charles Lamb was accosted by a beggar woman, with :- " Pray sir, bestow a little charity upon a poor destitute widow woman who is almost perishing for lack of food. Believe me, sir, I have seen better days." "So have I," said Lamb, handing the poor creature a shilling-" so have I; it's a miserable day! Good bye."

Naomi, the daughter of Enoch was five hundred and eighty years old when she was married. Courage, ladies!

There never was a goose so gray, But some day, soon or late, An honest gander came that way, And took her for his mate."

SCROFULA AND SCROFULOUS DISEASE.

From Emery Edes, a well-known merchant of Oxford, Maine.

From Charles P. Gage, Esq., of the widely-known is an of Gage, Murray § Co., manufacturers of enameleled papers in Nashua, N. H.
"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost everything a man could of both advice and medicine, but without-any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as anybody's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

DR. AYER: I seldom fail to remove Eruptions and

From J. E. Johnston, Esq., Wakeman, Ohio.

For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars' worth of medicines. The ulcers were so had that the cords became visible, and the dootore decided that my arm must be amputated. I began taking your Sarsapartlla. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as anybody. Being in a public place, my case is known to everybody in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your Sabsaparilla in my family, for general debility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harrey Sickler, Esq., the able editor of the Tunckhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed # loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your Sarsaparella, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease. Scald Head, Sore Eyes.

Syphilis and Mercurial Disease. From Dr. Hiram Sloat, of St. Louis, Missouri.

best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass. who is a prominent member of the Legislature of Massachusetts.

"Dr. Ayer.—My dear Sir: I have found your Sarsaparilla an excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew. of New Brunswck. N. J.

Mr. Chas. S. Van Liew, of New Brunsuck, N. J., bad dreadful alcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of Ayer's Sarsaparilla relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him. Leucorrhœa, Whites, Female Weakness,

are generally produced by internal Scrafulous Ulceration, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the wall-known and widely-celebrated Dr.

Jacob Morrill, of Cincinnati.

"I have found your Sarsaparilla an excellent
afterative in diseases of females Many cases of irregularity, Leucornhoa, Internal Ulceration, and
local debility, arising from the scrofulous diathesis,
have yielded to it, and there are few that do not,
when itseffect is properly aided by local treatment."

when caused by Scrafula in the system, are rapidly cured by this Ext. SARSAPARILLA. AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all

that they have ever done.
