PROSPECTUS

TO BE PUBLISHED DAILY AND WEEKLY IN THE CITY OF PHILADELPHIA, Cabinet and Chair Manufactory in Tunkhannock, BY A. J. GLOSSBRENNER & Co. A. J. GLOSSBRENNER. FRANCIS J. GRUND.

"THE AGE" will advocate the principles and poli cy of the Democratic party, and will, therefore, necessarily favor the restoration of the Union as it was and detent the Constitution of the United States, and that of this Commonwealth.

It will freely and fairly discuss all legitimate sub-

ects of newspaper comment, including of course, and re-eminently at this time, all questions connected with the existing unhappy condition of our country. It will fearlessly criticise the public acts of put servants, and defend the legal and constitutional rights of individual citizens and of sovereign states,

proper sense of the a tual condition of the Repub---to present to them, traibfully, the fearal perils which we stand as a nation-to exhibit the magni-de of the task that is before them, if they would check our downward progress-and to inspire them with patriotic determination to apply THE REMEDY for our national ills. In brief, it will, in all things, aim to le the faith-

In brief, it will, in all things, and to be the faithful exponent of Democratic principles, and to render itself worthy to be an organ of the Democratic party, under whose auspices our country prospered so long and so welf. The restoration of that party fong and so welt. The restoration of that party—the party of the Constitution and the Union—to power, in the legislative and executive governmental branches of the States and of the Union, we be-lieve to be necessaryto avert anarchy, and the utter ruin of the Republic. To contribute to that restora tion will be our highest aim.

The News, Literary, Commercial, and other departments, will receive due attention, and will be so conducted as to make "The Age" worthy of the support of the general reader. The many d'fficulties now surrounding an enterprise of the magnitude of that in which the under rigned are engaged, require them to appeal to the public for a generous support, and to ask for "The Age" a liberal patronage and extended circulation.

The present state of the preparatory arrangements warrants the expectation, that the first number of the brain in the content of the preparatory are supported by the brain in the content of the preparatory are supported by the brain in the content of the preparatory are supported by the preparatory are suppo

infection which we call Scrofula lurks in the constitutions of multitudes of men. It either produces or is produced by an en-feebled, vitiated state of the blood, wherein that fluid becomes in AYERS competent to sustain

contamination is variously caused by mercurial disease, low living, disordered digestion from nihealthy food impure air filth and filth. uithealthy food, impure air, filth and filthy thabits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children finto the third and "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the futhers upon their children." The diseases which it originates take various natures, according to the organs it attacks. In the langs, Scrofula produces tubercles, and finally Consumption; in the clands, swellings which Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These all having the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you With feeble, foul, or corrupted blood, you can not have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antiis compounded from the most effectual and-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com-bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Ery sipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swelliags, Debility, Dropsy, Neuralgia, Dyspensia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sec-tions of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Serofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitu-tions. Hence it tends to shorten, and does free and services, the average dration of numan life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla-in alterative power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood; purge out the causes of disease, and vigorous health will follow. By its peculiar victues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst cut on any

We know the public have been deceived by many compounds of Sursapavilla, that promise much and did nothing; but they will neither deceived nor disappointed in this. Its virtue have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting discuses it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is ever been available to them.

AYER'S

CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages

of the disease. This has been so long used and so univer-sally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
