The Secretary of the Treasury has not yet given notice of any intention to withdraw this popular Loan from Sale at Par, and until ten days notice is given, the undersigned, as "General Subscrip-

from abroad, and the rapidly increasing home demand for use; as the basis for circulation by National Banking Associations now organizing in all parts of the country, will in a very short period, absorb the balance. Sales have lately ranged from ten to fifteen millions weekly, frequently exceeding three millions daily, and it is well known that the Secretary of the Treasury has ample and unfailing resources in the Duties on Imports and Internal Revenues' and in the issue of the Interest bearing Legal Tender Treasury notes, it is almost a certainty that he will not find it necessary, for a long time to come, to seek a market for any other long or permanent Loans, THE INTEREST AND PRINCIPAL OF WHICH ARE PAYABLE IN GOLD.

Prudence and self interest must force the minds of those contemplating the formation of national Banking Associations, as well as the minds of all who have idle money in their hands, to the prompt conclusion that they should loose no time in subscribing to this most popular loan. It will soon be beyond their reach, and advance to a handsome premium, as was the result with the " Seven Thirty" Loan, when it was all sold and could no longer be subscribed for

at par.
IT IS A SIX PER CENT LOAN, the interest and Principal PABYALE IN COIN, thus yielding NINE PER CENT. PREMIUM, at the present rate of premium on coin.

The Government requires all duties on imports to be paid in Coin; these duties have for a long time past, amounted to over a Quarter of a Million of dollars daily, a sum nearly three times greater than hat required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is hoped that the surplus Coin in the Treasury, at no distant day, will enable the United States to resume specie payments upon all liabilities.

The Loan is called 5-20 from the fact that whilst the Funds may run for 20 years, yet the Government has a right to pay them off in Gold at par, at any time after five years. The Interest is paid half-yearly, viz: on first days of November and May.

Subscribers can have Coupon Bonds, which are payable to bearer, and are \$50, \$500, and \$1000; or Registered Bonds of same denominations, and in additon \$5,000 and \$10,000. For Banking purposes and for investments of Trust-moneys the Registered Bonds are prefferable.

These 5-20's cannot be taxed by States cities, towns or counties, and the Government tax on them is only one-and-a-half per cent,, on the amount of income, when the income of the holder exceeds Six Hundred dollars per annum; all other investments, such as become from Mortgages, Railroad Stock and Bonds, etc., must pay from three to five per cent. tax

Banks and Bankers throughout the Country will continue to dispose of the Bonds; and all orders by mail or otherwise, promptly attended to.

The inconvenience of a few days' delay in the delivery of the Bonds Is unavoidable, the demand being. so great; but as interest commences from the day of subscription, no loss is occasioned, and every effort is being made to diminish the delay,

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars' worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began, taking your Sarsapararilla. Took two bottles, and some of your Pills. Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunckhannock Democraft, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful plysician applied nitrate of silver and other remedies, without any apparent effect. For litteen days we guarded his hands lest with them he should tear open the festering and corrupt wound which covered his whole face. Having the devery thing else we had any hope from, we began giving your Sarsaparalla, and applying the iodide of potask lotton, as you direct. The sore began to heal when we had flushed the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"Dr. Ayen — My dear Sir: I have found your Sarsaparkilla. An excellent remedy for Syphilis, both of the primary and secondary type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswek, N. From the well-known and widely-celebrated Dr.

"I have found your Sarsafarallia an excellent alterative in diseases of females.
