THE peculiar taint or infection which we call SCROFULA lurks in the constitutions multitudes of men. It either produces or is produced by an en-feebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and

leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filth habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases which it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and howels derangements which are stomach and bowels, derangements which produce indigestion, dyspepsia, and liver com-plaints; on the skin, crupive and cutaneous affections. These all baying the same origin, require the same remedy, viz. purification and invigoration of the blood. Purify the blood, and these dangerons distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

#### Ayer's Sarsaparilla is compounded from the most effectual anti-

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does com-bine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases : King's Evil or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tu-berculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefit: from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considera-tions has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Ayer's Sarsaparilla, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By the forl corruptions that rot and fester in the bland; purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions. tions, and thus expels the distempers which lark within the system or Lurst out on any

part of it.

We know the public have been deceived by many compounds of Sursupacilla, that promise much and did nothing; but they will neither deceived nor disappointed in this. Its virtue have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is in-tended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.
