It is believed that no securities offer so great inducements to lenders as the various descriptions of U.S. Bonds. In all other forms of indebtedness, the through a year's campaign at least. faith or ability of private parties or stock companies er separate communities only is pledget for payment, while for the debt of the United States the whole property of the country, is holden to secure the payment of both principal and interest in coin.

These Bonds may be subscribed for in sums from \$50 up to any magaitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist They can be converted into money at any moment, and the holler will have the bene t of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on a large and well selected assortment of which interest is payable in gold, on the 34 day of SPRING AND SUMMER GOODS, March, 1864, was \$768, 965, 000. Manufacture of Woolen Goods ! CHAPTER 1.

The Manufacture of Woolen Goods, both in the usehold and in the factories, has become of great importance on account of its forming at present our principal articles of clothing. The nature of our cli-

tasued under this Act shall be EXEMPT FROM mate make it neccessary, and the scarcity of Cotton has greatly increased the value of wool and Fabricks made from it and being engaged in the business of the rity. Subscriptions to these Bonds are received making Clorh and Flannel, and also oll Carding, and Cloth Dressing, we have thought a few remarks with regard to handling Wool, and the proper pro-They are TO BE REDEEMED IN COIN, at the cess of Manufacture. might be of service to the coun-

try, and a benefit to ourselves

The first process with the farmer who intends to make his wool into rolls for spinning and weaving at home, after washing and shearing, is assorting the wool will be found on the skirts of the fleece, and each easily be distinguished by looking closely to the fibre. Two qualities from each fleece will perhaps be close enough for ordinary purposes, but as the sheep in our country differ much in their grades of wool—the coarse put of one may do to go with the fleer part of another, and thus make three or four qualities out of the lot. If it is going to the manufactory or to market, the fleece should not be torn, the fleece should not be torn. Coupon Bonds are payable to bearer, and are more behvenient for commercial uses.

Eubscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin—(or in United States or the notes of National Banks, adding fifty prevent from marking some that the factory or to market, the fleece should not be torn, but after removing the tag-locks, should be rolled up compactly, skin out side. Not less than one pound of lard, fresh butter or oil should be sent with every ten pounds of wool going to the carding machine.

The next thing of importance is of cour e to be well carded, for which we will be entirely responsible, but in the matter of spinning and veaving, we have another caution to add, Unless the yarn is evenly twisted, and beat up evenly in the cloth shrinks unevenly in fulling—making some that

cos wide and others narrow, and if the finisher succeeds in pressing out the wrincles, the cloth will resume its contortion again when made into a garnent, and the mechanic is sometimes wrongfully blamed for a coat's becoming lantern javed on a blamed for a coat's becoming lantern javed on a blamed for a coat's becoming lantern javed on a provided by giving the thread drawn out. We find this difficulty increasing of late years, and have come to the conclusion that if some of the spinners do not keep better time on

their pianos than on their spinning wheels, we should hate dreadfully to listen to their music.

As every moment of labor should be employed to the best advantage, and every ounce of material be appropriated to the best purpose, on account of our war, we propose to write some other chapters on our branch of business after this is read sufficiently to be remembered, and shall endeavor to do our work nice enough for a balmoral skirt or a dector's coat, and make trowsers stout enough to last a farmer

This class of Bilters has caused and will continue to cause, as long as they can be sold, hundreds to die the death of the drunkard. By their use the system is kept continually under the influence of Alcoholic Stimulants of the worst kind, the desire for Liquor is created and kept up, and the result is all the horrors attendant upon a druther's and de ith.

F.r. those who desire and Will have a Liquor Bilters, we publish the following receipt. Get One Bottler Hoofland's German Bitters and mix with Three Quarts of Good Brandy or Whisekey, and the result will be a preparation that will tar excel in medicinal virtues and true excellence any of the numerous Liquor Bilters in the market, and will cost much less. You will have all the virtues of Hoofland's Bitters in connection with a good article of Liquor, at a much less price than these inferior preparations will cost you.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, of this city, because I was prejudiced aga ast them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long centhis prejudice by proper tests, and for encouragement to try them, when suffering from great and long centinued debility. The use of three bottles of these Bitters, at the beginning of the pr sent year, was followed by evident relief, and restoration to a degree of bodily and mental vigor which I had not felt for six months before, and had almost desputied of regaining. I therefore thank God and my friend for directing me to the use of them.

ATTENTION, SOLDIERS!

AND THE FRIENDS OF SOLDIERS. We call attention of all having relations or friends in the army to the fact that "HOOF LAND'S German Bitters" will cure nine tentls of the diseases induced by exposures and privations incident to camp life. In the lists, published almost saily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suffering from debility. Every case of that kind can be readily cured by Hoofshad's German Bitters. We have no heater by Hoofland's German Bitters. We have no hesita-tion in stating that, if these Bitters were freely used among our soldiers, hundreds of lives might be saved that otherwise would be lost.

The proprietors are daily receiving thankful letters
