Philadelphia, Apr. 4th 1854. The Committee on ' LABOR, INCOMES and REVE-NUES," invite co-operation with them in the partieular work for which they have been appointed. As illar work for which they have been appointed. As no portion of the people are mere patriotic than the working men and women of the country, it is but, just and proper that they should alike have an opportunity to contribute to the objects of the Rair.—The most equable plan for accomplishing this, and, at the same time the essiest one, is to ask for the contribucion of a SINGLE DAY'S LABOR from all classes in the community. Many will contribute a day of their labor willingly who would not subscribe their money. To reach every department of industry and art will be a work of great labor, but if

The success of the plan will debend upon the hearty co-operation of every element of influence within our limits, and we invite all the guardians of the industrial interests, and all others, to take hold with us in furthering this great work of patrietism and humanity

The Committee is charged with the following du-

y, to wit:
First. To obtain the contribution of "one day's ishor" or earnings, from every artisan and laborer, foreman, operative and employee; president, casher; teller and elerk of every incorporated and unincorporated combany, railroad and express company employing firm, bank, manufactory, iron works, (i) works, mill, mine and public office; from every private banker and broker, importer, auctioneer and techniques. nerchant; clerk, agent and salesman; designer, finisher and artist; publisher, printer and mechanic; from every government officer, contractor and employee; grocer, butcher, baker and dealer; farmer, horticulturist and producer, from every mantua maker, milliner, and female operative, every individual engaged in turning the soil, tending the loom or in any way earning a livelihood. or builling a fortune within the States of Pennsylvania, N. Jersey and Delaware.

Second To obtain the contribution of one day's 'Revenue," from all the great employing establish monts, firms, corporations, companies, railroads and

works. THIRD -- To obtain the contribution of one day's income from every estred person, and person of for-tune—male and female—living upon their means, and from all elergymen, lawyers, physicians, den-tats, editors, authors and professors; all other per-sons enauged in the learned or other professions. Much of this work must be performed by the per-sonal influence and efforts of ladies and gentlemen associated, or to be associated with the Committee in correction out this plan.

in carrying out this plan.

The Committee feel the responsibility of the work they have undertaken which, to be successful, require a very perfect ramification of their plan, and they therefore call upon all earnest people, to assemble themselves together in every town, township, and county, and form organizations of ladies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts - especially, let there be organizations in the large towns, so that the young people may have an opportunity thus to render assistance to their relatives and friends fighting the battles of their countries.

try in the armies of the nation.

The work of thi Committee may be presented where no other effort can be made for the Fair, as in the mines of the coal regions. A day's earnings of the miners, and a day's product of the mines, can be obtained, where no portable article could e procured for transportation. Indeed there is no part or section of these States where the day's labor may not be obtained, if organization can be formed to

The Committee cannot close without urging upon all Proprietors of Establishments, the duty of taking prompt and energetic action to secure the ben-chi of the day of layer from all within their con-

troi.

"The Committee deem it unnecessary to do more, than thus to present the subject to the people of the three States named. In the coming campaigns of our armies, the labors of the "Sanitary Commission" will be greatly augmented. By the first of June 700,000 nem—one of the trigost armies of modern times—will be operating in the field. Manufacture of Woolen Goods !

The Manufacture of Woolen Goods, both in the

outshold and in the factories, has become of great aportance on account of its forming at present our rincipal articles of clothing. The nature of our cli-

I am indebted to my friend Robert Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encouragement

Exempt from Municipal or State Taxation, their value is increased from one to three per cent per annum, according to the rate of tax levies in various parts of the country. At the present rate of premium on gold they pay

Over Eight per Cent Interest in currency, fand are of equal convenience as a per-

manent for temporary investment. It is believed that no securities offer so great inducements to lenders as the various descriptions of U.S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledget for payment, while for the debt of the United States the whole property of the country, is holden to se-

cure the payment of both principal and interest in coin. These Bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist They can be converted into money at any moment, and the holler will have the bene t of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768, 965, 000. The interest on this debt for the coming fiscal year will be \$45,927, 126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1854, has been so far at the rate of over \$100,000,000 per annum

It will be seen that even the present gold revenue of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of impartations, to \$150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United State Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

20 to 40 cents per gallon, the taste disguised by Anise or Coriander Seed.

This class of Bitters has caused and will continue to cause, as long as they can be sold, hundreds to die the death of the drunkard. By their use the system is kept continuelly under the influence of Alcoholic Stimulants of the worst kind, the desire for Ligaor is created and kept up, and the result is all the horrors attendant upon a drunkard's and de th.

For those who desire and will have a Liquor Bitters, we publish the following receipt. Get One Bottle Bootland's Ge man Bitters and mix with Three Quarts of Good Brandy or Whishkey, and the result will be a preparation that will

SOLD BY DRUGGISTS GENERALLY.

pon Bonds, as they may prefer. Registered Bonds They require no instruction to operate perfectly From Rev. J. Newton Brown, D. D., Editor of the

Encyclopedia of Religious Knowledge. Alchough not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits be believes hunself to have received from any simple preparation, in the hope that he may thus contribute

this prejudice by proper tests, and for encouragement to try them, when suffering from great and long centinued debility. The use of three bottles of these Bitters, at the beginning of the pr sent year, was followed by evident relief, and restoration to a de-gree of bodily an 1 mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for PHILAD'A, June 23, 1861. J. NEWTON BROWN.

DISEASES OF KIDNEYS AND BLADDER, In Young or Aged, Male or Female, Speedily removed, and the patient restered to health.

DELICATE CHILDREN. Those suffering from MARASMUS, wasting away, with scarcely any flesh on their bones, are cared in a very short time; one bottle in such cases, will have a most surprising effect. PARENTS

Having suffering children as above, and wishing to raise them, will never regret the day they commenced with these Bitters. LITERARY MEN, STUDENTS,

And those working hard with their brains, should always keep a bottle of Hoofland's Bitters near them, as they will find much benefit from its use, to both mind and body, invigorating and not depressing. IT IS NOT A LIQUOR STIMULANT, AND LEAVES NO PROSTRATION.

ATTENTION, SOLDIERS!

AND THE FRIENDS OF SOLDIERS. We call attention of all having relations or friends in the army to the fact that "HOOFLAND'S Ger-man Bitters" will cure nine tenths of the diseases inman bitters will cure hime tentus of the diseases induced by exposures and privations incident to camp life. In the lists, published almost daily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suffering from debility. Every case of that kind can be readily cured y Hooffand's German Eitters. We have no hesita-on in stating that, if these Bitters were freely used among our soldiers, hundreds of lives might be saved that otherwise would be lost. The preprietors are daily receiving thankful letters from sufferers in the army and hospitals, who have been restored to health by the use of these Ditters, sent to them by their friends.
