Ma: ufacture of Woolen Goods !

CHAPTER 1. The Manufacture of Woolen Goods, both in the household and in the factories, has become of great importance on account of its forming at present our principal articles of clothing. The nature of our cliprincipal articles of clothing. The nature of our climate make it necessary, and the scarcity of Cotton has greatly increased the value of wool and Fabricks made from it and being engaged in the business of making Cloth and Flannel, and also cell Carding, and Cloth Dressing, we have thought a few remarks with regard to handling Wool, and the proper process of Manufacture, might be of service to the country, and a benefit to ourselves.

The first process with the farmer, who intends to

The first process with the farmer who intends to make his wool into rolls for spinning and weaving at home, after washing and shearing, is assorting the qualities. This we do not expect a farmer to do as perfectly as a really make the statement of the same termer to do as qualities. This we do not expect a farmer to do as perfectly as a regular manufacturer, but by trying he will approximate towards it, and be amply paid for the littre pains required, by having an even thread and smoother fabric. The fleece should be whole and be spread out on a table—the coarsest wool will be found on the skirts of the fleece, and can easily be distinguished by looking closely to the fibre. Two qualities from each fleece will perhaps be close enough for ordinary purposes, but as the sheep in our country differ much in their grades of wool—the coarse part of one may do to go with the sheep in our country differ much in their grades of wool—the coarse part of one may do to go with the finer part of another, and thus make three or four qualities out of the lot. If it is going to the manufactory or to market, the fleece should not be torn, but after removing the tag-locks, should be rolled up compactly, skin out side. Not less than one pound of lard, fresh butter or oil should be sent with every ten transfer for any going to the carding machine.

ten pounds of wool going to the carding machine.

The next thing of importance is of cour e to be well carded, for which we will be entirely responsi-ble but in the matter of spinning and yeaving, we have another caution to add. Unless the yarn is evenly twisted, and bear up evenly in the loom, the cloth shrinks unevenly in fulling - making some pla-ces wide and others narrow, and if the finisher succeeds in pressing out the wrineles, the cloth will resume its contortion again when made into a gar-nent, and the mechanic is sometimes wrongfully nent, and the mechanic is sometimes wrongfully blamed for a coat, becoming lantern jawed on a man's back. It is easily avoided by giving the wheel in equal number of tarns to a given length of thread drawn out. We find this difficulty increasing of late years, and have come to the conclusion that if some of the spinners do not keep better time on their pianos than on their spinning wheels, we should have dreadfully to listen to their music.

As dvery moment of labor should be applied to

As every moment of labor should be employed to the best advantage, and every ounce of material be appropriated to the best purpose, on account of our war, we propose to write some other chapters on our branch of business after this is read sufficiently to be remembered, and shall endeavor to do our work nice enough for a balmoral skirt or a doctor's coat, and make trowsers stout enough to last a farmer through a year's campaign at least.

From Rev. J. Newton Brown, D. D., Editor of the Encyclopedia of Religious Knowledge. Although not disposed to favor or recommend Patent Medicines in general, through distrust of their ingredients and effects, I yet know of no sufficient reasons why a man may not testify to the benefits he believes himself to have received from any simple preparation, in the hope that he may thus contribute to the benefit of others.

I do this the more readily in regard to Hoofland's German Bitters, prepared by Dr. C. M Jackson, of this city, because I was prejudiced against them for many years, under the impression that they were chiefly an alcoholic mixture. I am indebted to my friend Robert Shoemaker, Esq., for the removal of this prejudice by proper tests, and for encouragement to try them, when suffering from great and long coa-tinued debility. The use of three bottles of these Bitters, at the beginning of the pr sent year, was followed by evident relief, and restoration to a de-gree of bodily and mental vigor which I had not felt for six months before, and had almost despaired of regaining. I therefore thank God and my friend for directing me to the use of them. friend Robert Shoemaker, Esq., for the removal of

J. NEWTON BROWN. DISEASES OF KIDNEYS AND BLADDER. In Young or Aged, Male or Female,

Speedily removed, and the patient restered to health DELICATE CHILDREN.

Those suffering from MARASMUS, wasting away,

with scarcely any flesh on their bones, are cured in a very short time; one bottle in such cases, will have a most surprising effect. PARENTS Having suffering children as above, and wishing to raise them, will never regret the day they commenced with these Bitters.

LITERARY MEN, STUDENTS, And those working hard with their brains, should al-And those working hard with their brains, should always keep a bottle of Hoofland's Bitters near them, as they will find much benefit from its use, to both mind and body, invigorating and not depressing. IT IS NOT A LIQUOR STIMULANT,

AND LEAVES NO PROSTRATION.

### ATTENTION, SOLDIERS!

AND THE FRIENDS OF SOLDIERS. We call attention of all having relations or friends in the army to the fact that "HOOFLAND'S German Bitters" will cure nine tenths of the diseases induced by exposures and privations incident to campific. In the lists, published almost daily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suffering from the It will be seen that even the present gold revenue of the Government are largely in excess of the wants of the Treasury for the payment of gold interest, while the recent increase of the tariff will
