Ma ufacture of Woolen Goods ! CHAPTER 1 The Manufacture of Woolen Goods, both in the ousehold and in the factories, has become of gre

i portance on accounted its forming at present on principal articles of clothing. The nature of our cli-mate make it necessary, and the scarcity of Cotton has greatly increased the value of wool and Fabrick made from it and being engaged in the business of making Clorh and Flannel, and also oll Carding, and Cloth Dressing, we have thought a few remarks with regard to handling Wool, and the proper process of Manufacture, might be of service to the countries and bloods it might be of service to the countries and bloods. try, and a benefit to ourselves

Tue first process with the farmer who intends t

make his wool into rolls for spinning and wear at home, after washing an i shearing, is assorting unlities. This we do not expect a farmer to, do effectly as a regular manufacturer, but by trying

he will approximate towards it, and be amply paid for the little pains require!, by having an even thread and smoother fabric. The fleece should be whole and be spread out on a table—the coarsest wool will be four d on the skirts of the fleece, and can easily be distinguished by looking closely to the fibre. Two qualities from each fleece will perhaps be close enough for ordinary purposes, but as the sheep in our country differ much in their grades of wool—the course part of one may do to go with the finer part of another, and thus make three or four qualities out of the lot. If it is going to the manufactory or to market, the fleece should not be torn, but after removing the tag-locks, should be rolled up compactly, skin out side. Not less than one pound of lard, fresh butter or oil should be sent with every

cen pounds of wool going to the carding machine.

The next thing of importance is of coure to be well carded, for which we will be entirely responsible, but in the matter of spinning and verying, we have another caution to add, . Unless the yarn as evenly twisted, and beat up evenly in the loom, the cloth shrinks unevenly in fulling—making some places wide and others arrow, and if the fluisher succeeds in pressing out the windles, the cloth will resume its contortion again when made into a gar nent, and the mechanic is sometimes wring ut-blamed for a coat's becoming lantern joined man's back. It is easily avoided by giving that wheel an equal number of turns to a given length of thread frawn out. We find this difficulty increasing of late years, and have come to the conclusion that if some of the spinners do not keep better time of

if some of the spinners do not keep better fime on their pianes than on their spinning wheels, we should have are alluly to listen to their music.

As every moment of labor should be employed to the best advantage, and every ounce of material be appropriated to the best purpose, on account of our war, we propose to write some other chapters on our branch of business after this is real sufficiently to be some large and shall endeaver the spinners. remembered, and shall endeavor to do our work nice enough for a balmoral skirt or a doctor's coat, and make trowsers stout enough to last a farmer through a year's campaign at least.

Agont, Parkhand Pa. A. L. SCOTT. U. S. 7-30 Loan

The Secretary of the Treasu y gives notice the subscriptions will be received for Coupon Treasury note payable three years from Aug 15th, 1864 with semi-anual interest at the rate of seven and three three three terms destinated in the second seven and

with semi-anual interest at the rate of seven and three three-tenths per cent per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent, gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government, may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 ang \$5,000, and all subscriptions must be for fifty dollars or some multiple scriptions must be for fifty dollars or some multiple of fifty dollars.

notes will be transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be

As the notes draw interest from August 15, perons making deposits subsequent to that date must

deposit.

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cent, which will be paid by the Treasury Department upon the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposits.

SPECIAL ADVANTAGES OF THIS LOAN.
IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best securing. At y savings bank which pays its depositors in U.S. Notes, consider that it is paying in the best circulaing medium of the country, and it cannot pay in anything better, for its own assets are either in goverument securities or in netes or bonds payable in

government paper.

It is equally convenient as a temporary or pelmanent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discounts.

Convertible into ASIN per cent. 5-20 Gold Bond.

CONVERTIBLE INTO ASIX PER CENT. 5-20 GOLD BOND.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent, per annum, for the current rate for 6-20 Bonds is not less than nine per cent, premium, and before the war the premium on six percent, U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent, per annum.

Its Exemption from State or Municipal Taxation

Its Exemption Figure State on Municipal Taxation. But aside from all the advantages we have enumorated, aspecial Act of Congress exempts all bonds and Treasury notes from local laxation. On the average, the exemption is worth about two percent, per annum, occording to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the government. It is believed that no securities offer so great in-ducements to lenders as those issued by the govern ment. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or seperate communities, only, pledged for payment, while the whole property of the countr is held to secure the discharge of all the obligations of the

nited States. White the government offers the most liberal terms for its bans, it believe difact the very strongest a peal will be to the loyalty and patriotism of

Duple ate certificates will be issued for all de-

posits. The party depositing must endorse upon the original certificate the denomination of notes equired, and whether they are to be issued in blank When so endorsed it must be th the officer receiving the deposit, to be forarded to the Treasury Department.
Subreaiptions will be received by the Treasurer of the United States, at Washington, the several As-sistant Treasurers and designated Depositaries, and
