Manufacture of Woolen Goods ! CHAPTER 1. The Manufacture of Woolen Goods, both in the The Manufacture of woolen Goods, both in the household and in the factories, has become of great i portance on account of its forming at present our principal articles of clothing. The nature of our climate make it necessary, and the scarcity of Cotton has greatly increased the value of wool and Fabricks made from it; and being engaged in the business of making Cloth and Flannel, and also oll Carding, and Cloth Dressing, we have thought a few remarks

with regard to handling Wool, and the proper pro-cess of Manufacture might be of service to the country and a benefit to ourselves The first process with the farmer who intends to nake his wool into rolls for spinning and weaving at home, after washing and shearing, is assorting the nalities. This we do not expect a farmer to do erfectly as a regular manufacturer, but by trying will approximate towards it, and be amply paid

tor the little pains required, by having an even thread and smoother fabric. The flaces should be licit; the public patronnes. wool will be fourd on the skirts of the fleece, and can easily be distinguished by looking closely to the fibre Two qualities from each fleece will perhaps be close enough for ordinary purposes, but as the sheep in our country differ much in their grades of wool-the coarse part of one may do to go with the finer part of another, and thus make three or four qualities out of the lot If it is going to the manufactory or to market, the fleece should not be torn, at after removing the tag-locks, should be rolled up gompactly, skin out side. Not less than one pound of lard, fresh butter or oil should be sent with every en poundsof wool going to the carding machine. The next thing of importance is of cour e to be well carded, for which we will be entirely responsible, but in the matter of spinning and veaving, we have another caution to aid. Unless the yarn is evenly twisted, and beat up evenly in the loom, the cloth shrinks unevenly in fulling—making some pla-es wide and others narrow, and if the finisher succes wide and others narrow, and if the finisher succeds in pressing out the wrineles, the cloth will resume its contortion again when made into a garnent, and the mechanic is sometimes wrongfullclame for a coat's becoming lantern jowed on e
man's back. It is easily avoided by giving tha
wheel an equal number of turns to a given length of
thread drawn out. We find this difficulty increasing i late years, and have come to the conclusion that

neir planes than on their spinning wheels, we should ate dreadfully to listen to their music. As every moment of labor should be employed to the best advantage, and every ounce of material be appropriated to the best purpose, on account of one var, we propose to write some other chapters on our branch of business after this is read sufficiently to be remembered, and shall endeavor to do our work nice enough for a balmor d skirt or a doctor's coat, and make trowers stout enough to last a farmer through a year's campaign at least.

INGHAM & WRENCH. Home FACTORY, CAMPTOWN, BRADFORD Co May 2,'64

R. & S. W. LITTLE ATTORNEY'S A

#### U. S. 7 30 Loan.

The Secretary of he Treasury gives notice that subcriptions will be received for Coup in Treasury notes payable three years from Aug. 15th, 1867 with smi-antial interest at the rate of seven and three three-tenths per cent per annum, principe and threat both to be paid in lawful money.

Thee notes will be convertible at the option of the hoider at maturity into six per cent. seld bear.

Thee notes will be convertible at the option of the holder at maturity, into six per cent, geld bearing bonds, payable not less than five nor more than twenty years from their date, as the Government, may elect. They will be issued in denominations of \$50.8100, \$500.81,000 and \$5,000. and all subscriptions must be for fifty dollars or some multiple.

of fifty dollars. The notes will be transmitted to the wners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be

prepared.

As the notes draw interest from August 15, persons making deposits subsequent to that date a next pay the interest accrued from date of note to date of

deposit.

Parties depositing twenty-five thousand dollar and upwards for these notes at any one time will be allowed a commission of one-quarter of one per cen which will be paid by the Treasury Department upt on the receipt of a bill for the amount, certified to by the officer with whom the deposit was made No deductions for commissions must be made from the

deposits.
SPECIAL ADVANTAGES OF THIS LOAN.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best accuring.
Any savings bank which pays its depositors in U.S.
Notes, consider that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in ger-ernment securities or in netes or bonds payable in

government paper.

It is equally convenient as a temporary or pelmanent investment. The notes can always be sold for within a fraction of their fa e and accumulated interest, and are the best security with banks as collate-

rals for discounts. rais for discounts.

Conventible into ASIX PER CENT, 5-20 GOLD BOND.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent, per annum, for the current rate for 6-20 Bonds is not less than nine per cent, premium, and before the war the premium on six percent, U. S. stocks was over twenty per cent. It will be seen that the actual profit on this cent, It will be seen that the actual profit on this loan, at the present market rate, is not less than ten

per cent, per annum.
Its Exemption Prom State or Municipal Taxation But aside from all the advantages we have enumorated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the and Treasury notes from tocal taxation. On the average, these exemption is worth about two percent, per annum, occording to the rate of taxation in various parts of the country.

It is believed that no securities offer so great in.

or ability of private parties, or the companies as separate communities, only pledged for payment while the whole property of the caustr is held to secure the discharge of all the obligations of the United States.

While the government offers the most liberal cerms for its loans, it believe dthat the very strongest ar peal will be to the loyalty and patriotism of Daplicate certificates will be issued for all deposits. The party depositing must enderse upon the original certificate the denomination of notes. quired, and whether they are to be issued in blank cr payable to order When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department.

Subrealptions will be received by the Treasurer of the United States, at Washington the several Ar-sistant Treasurers and designated Depositaties, and but he bp the
