Bell's Specific Pills—Warranted in all Cases can be relied on! Never fail to cure! Do no hesitate! Are speedy in action! No change of diet required! Do not interfere with business pursuits. Can be used without detection! Upward of 200 cures this month—some of them very severe cases. Over one hundred physicians have used them in their practice, and all speak well of their efficacy, an approbation of their composition, which is entirely vegetable, and harmless on the system. Hundreds of certificates can be shown.

BELL'S SPECIFIC PILLS are the original and only genuine Specific Pill. They are adapted for male and female, old or young, and the only reliable remedy for effecting a permanent and speedy cure in all cases of Gonorrhoea, or Venereal Weakness, with all its train of evils, such as Urthral and Vaginal Discharges, Gleet, the Whites, Nightly or Involuntary Emission, Incontinence, Genital Debility, Irritability, Impotence, Weakness or Loss of Power, Nervous Debility, &c., &c., all of which arise principally from Sexual Excess, or Self Abuse, or some constitutional derangement, and incapacitate the sufferer from fulfilling the duties of married life. In all sexual diseases, as Gonorrhoea, Gleet, and Stricty urethra, and in Diseases of the Bladder and Kidneys they act as a charm! Relief is experienced by taking a single box.

They will be sent by mail securely sealed, and confidentially, on receipt of the money, by J. BRYAN, M. D., No. 76 Cedar Street, New York.

Physician for the treatment of Urinary, Sexual, and Nervous Diseases, who will send, free of all the following valuable work, in sealed envelope:
THE FIFTH TRUSSARD—DR. BELL'S TREATISE ON Self Abuse, Premature Coitus, Impotence, and Loss of Power, Sexual Diseases, Seminal Weakness, Nightly Emissions, Genital Debility, &c., &c., a pamphlet of 61 pages, containing important advice to the afflicted, and which should be read by every sufferer, as the means of cure in the severe stages is plainly set forth. Two stamps required to pay postage.

IMPORTANCE TO LADIES—DR. HENRY'S FEMALE PILLS have been found in removing difficulties arising from obstruction, or stoppage of nature, or in restoring the system to perfect health when suffering from Spinal Affections, Prolapsus Uteri, the Whites, or other weakness of the Female Organs. The Pills are perfectly harmless on the constitution, and may be taken by the most delicate female without causing distress—the same time they act like a charm by strengthening, invigorating and restoring the system to a healthy condition, and by acting on the monthly period with regularity, no matter from what cause the obstruction may arise. They should however, not be taken during the first three or four months of pregnancy, though safe at any other time, as miscarriage would be the result.

DR. HARVEY'S TREATISE on diseases of Females, Pregnancy, Menstruation, Barrenness, Sterility, Reproduction, and Abuse of Nature, and especially the Ladies' Private Medical Advice, a pamphlet of 124 pages, sent free to any address. Six cents required to pay postage.
The Pills and book will be sent by mail when desired securely sealed, and prepaid, by J. BRYAN, M. D., General Agent, No. 76 Cedar Street, New York.

Sold by all the principal druggists. Price \$1. Jan 20, 1864, v-3-n-23

THE SINGER SEWING MACHINES.

Our LATEST A FAMILY SEWING MACHINE is fast gaining a well-deserved reputation. It is the best of all Family Sewing Machines yet offered to the public. No other Family Sewing Machine has so many useful appliances for Hemming, Binding, Folding, Tucking, Gathering, Gauging, Braiding, Embroidering, Cording, and so forth. No other Family Sewing Machine has so much capacity for a great variety of work. It will sew all kinds of cloth, and with all kinds of thread. Great and recent improvements make our Family Sewing Machine most reliable, and most durable, and most certain in action at all rates of speed. It makes the interlocked stitch, which is the best stitch known. Any one, even of the most ordinary capacity, can see, at a glance, how to use the letter A Family Sewing Machine. Our Family Sewing Machines are finished in chests and exquisite style.

The Folding Case of the Family Machine is a piece of cunning workmanship of the most useful kind. It protects the machine when not in use, and when about to be operated, turning it up as a spacious and substantial table to sustain the work.

The Branch Offices are well supplied with silk, twist, thread, needles, oil, &c., of the very best quality. Send for a PAMPHLET.

Manufacture of Woolen Goods!

The Manufacture of Woolen Goods, both in the household and in the factories, has become of great importance on account of its forming at present our principal articles of clothing. The nature of our climate makes it necessary, and the scarcity of Cotton goods, greatly increases the value of wool and Fabrics made from it; and being engaged in the business of making Cloth and Flannel, and also of Carding, and Cloth Dressing, we have thought a few remarks with regard to handling Wool, and the proper process of Manufacture, might be of service to the country, and a benefit to ourselves.

The first process with the farmer who intends to make his wool into cloth for spinning and weaving at home, after washing and shearing, is to scour the wool. This we do not expect a farmer to do, as he is not a regular manufacturer, but by trying he will approximate towards it, and be amply paid for the little pains required, by having an even thread and smoother fabric. The fleece should be whole and spread out on a table—the coarsest wool will be found on the skirts of the fleece, and can easily be distinguished by looking closely to the fiber. Two quantities from each fleece will perhaps be close enough for ordinary purposes, but as the sheep in our country differ much in their grades of wool—the coarse part of one may do to go with the finer part of another, and thus make three or four quantities of the lot. It is going to the usual factory to mark the fleece should not be torn, but after removing the tag-locks, should be rolled up compactly, skin out side. Not less than one pound of raw, fresh butter or oil should be sent with every ten pounds of wool going to the carding machine.

The next step of importance, is of course to be well carded, for which we will be entirely responsible, but in the matter of spinning and weaving, we have another caution to add. Unless the yarn is even, it will not weave evenly in the loom, the threads will not weave evenly, making some places wide and others narrow, and if the fabric succeeds in pressing out the wrinkles, the cloth will resume its contorted again when made into a garment, and the mechanic is sometimes wretchedly plagued by a coat's becoming tight over one man's back. It is easily avoided by giving the wheel an equal number of turns to a given length of thread drawn out. We find this difficulty increasing of late years, and have come to the conclusion that if some of the spinners do not keep better time on their frames than on their spinning wheels, we should have them gradually to listen to their music.

As every moment of labor should be employed to the best advantage, and every ounce of material be appropriated to the best purpose, on account of our want of space to write some other of our own branch of business after this is read submissively to be remembered, and shall endeavor to do our work more enough for a balustrade skirt or a doctor's coat, and make trousers stout enough to last a farmer through a year's campaign, at least.
