### THE SINGER SEWING MACHINES

Our LETTER A. FAMILY SEWING MACHINE Our LETTER A. FAMILY SEWING MACHINE s fast gaining a works he reputation. It is beyond doubt the best and sheapest and most beautiful of all Family Sewing Machine has so many useful appliances for Henming, Binding, Felling, Tucking, Gathering, Gaaging, Braiding, Embroidering, Cording, and so forth. No other Family Sewing Machine has so much capacity for a great variety of work. It will sew all kinds of cloth, and with all kinds of thread. Great and recent improvements make our Family Sewing Machine most provements make our Family Sewing Machine most reliable, and most durable, and most certain in action at all rates of speed. It makes the interlocked stitch, which is the best stitch known. Any one, even of the most ordinary capacity, can see, at a glance, how to use the letter A. Family Sewing Machine.— Our Family Sewing Machines are finished in chaste

and exquisite style.

The Folding Case of the Family Machine is a piece of cunning workmanship of the most useful kind. It protects the machine when not in use, and when about to be operated may be opened as a spacious and substantial table to sustain the work.

While search the Carabala and substantial tables. While some of the Cases, made out of the choicest woods, are finished in the simplest and chastest manner possible, others are adorned and embelished in ne most costly and superb manners.

It is absolutely necessary to see the Family Ma-

chine in operation, so as to judge of its great capaci-ty and beauty.

It is fast bee ming as popular for family sewing as our manufacturing machines are for manufactur-

ing purposes

REPAIRING,

Manufacture of Woolen Goods ! CHAPTER 1.

The Manufacture of Woolen Goods, both in the The Manufacture of Worlen Goods, both in the household and in the factories, has become of great importance on account of its forming at present our principal articles of clothing. The nature of our climate make it necessary, and the scarcity of Cotton has greatly increased the value of wool and Fabricks made from it and being engaged in the business of making Clorh and Flannel, and also oll Carding,

making Clorh and Flannel, and also oil Carding, and Cloth Dressing, we have thought a few remarks with regard to handling Wool, and the proper process of Manufacture, might be of service to the country, and a benefit to curselves.

The first process with the farmer who intends to make his wool into rolls for spinning and weaving at home, after washing and shearing, is assorting the unlities. This we do not expect a farmer to do as erfectly as a regular manufacturer, but by trying erfectly as a regular manufacturer, but by trying

he will approximate towards it, and be amply paid he will approximate towards it, and be amply paid for the little pains required, by having an even thread and smoother fabric. The fleece should be whole and be spread out on a table—the coarsest wool will be four d on the skirts of the fleece, and can easily be distinguished by looking closely to the fibre. Two qualities from each fleece will perhaps be close enough for ordinary purposes, but as the sheep in our country differ much in their grades of wool—the coarse part of one may do to go with the finer part of another, and thus make three or four qualities out of the lot. If it is going to the manufactory or to market, the fleece should not be torn, but after removing the tag-locks, should be rolled up compactly, skin out side. Not less than one pound of lard, fresh butter or oil should be sent with every ten pounds of wool going to the carding machine. en pounds of wool going to the carding machine,

The next thing of importance is of cour e to be well carded, for which we will be entirely responsible but in the matter of spinning and veaving, we have another caution to add, Unless the yarn is evenly twisted, and beat up evenly in the loom, the cloth shrinks uneverly in fulling—making some pla-ces wide and others narrow, and if the finisher suc-ceeds in pressing out the wincles, the cloth will resame its contortion again when made into a gar-nent, and the mechanic is sometimes wrongfully blamed for a coat's becoming lantern jawed on e man's back. It is easily avoided by giving tha wheel in equal number of turns to a given length of thread drawn out. We find this difficulty increasing of late years, and have come to the conclusion that if some of the spinners do not keep better time on their pianos than on their spinning wheels, we should

The first property of all worthless imitatio hate dreadfully to listen to their music.

As every moment of labor should be employed to See that "Costan's name is onach Box, Bott the best advantage, and every ounce of material be appropriated to the best purpose, on account of our war, we propose to write some other chipters on our branch of business after this is read sufficiently to be remembered, and shall endeavor to do our work nice enough for a balmoral skirt or a doctor's coat, and make trowsers stout enough to last a farmer through a year's campaign, at least.

General Agent, 127 Broadway, New York vin1 3m:

## U. S. 7 30 Loan.

The Secretary offic Treasury gives notice thaty subcriptions will be received for Coup in Treasurd notes payable three years from Aug. 15th, 196 with smi-anual interest at the rate of seven and

three three-tenths per cent per anium,—princip and interest both to be paid in lawful money.

Thee notes will be convertible at the option of the holder at maturity, into six per cent, geld bearing holds as well as the second per cent, geld bearing holds as well as the second per cent, geld bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denomination of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars or some multiple. of fifty dollars.

The notes will e transmitted to the owners free of transportation charges as soon after the receipt of the original Certificates of Deposit as they can be

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note todate of

deposit.

Parties depositing twenty-five thousand dollar and upwards for these notes at any one time will be allowed a commission of one-quarter of one per een which will be paid by the Treasury Department upt on the receipt of a bill for the amount, certified to by the officer with whom the deposit was made. No deductions for commissions must be made from the deposit. deposits.
SPECIAL ADVANTAGES OF THIS LOAN.

rate of interest than any other, and the best securing Any savings bank which pays its depositors in U. S. Notes, consider that it is paying in the best circulaing medium of the country, and it cannot pay in anything better, for its own assets are either in gevernment securities or in netes or bonds payable in government paper.

It is equally convenient as a temporary or pelma-

IT IS A NATICNAL SAVINGS BANK, offering a higher

nent investment. The notes can always be sold for within a fraction of their face and accumulated interest, and are the best security with banks as collaterals for discounts.

rals for discounts.

Convertible into a Six per cent, 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent, per annum, for the current rate for 6-20 Bonds is not less than nine per cent, premium, and before the war the premium on six percent, U. S. stocks was over twenty per cent, It will be seen that the actual prefit on this loop, at the present market rate is not less than an actual prefit on this loan, at the present market rate, is not less than ten per cent, per annum. Its Exemption From State on Municipal Taxation

But aside from all the advantages we have enumorated, a special Act of Congress exempts all bonds and Treasury notes from local taxatton. On the average, the exemption is worth about two percent. per annum, occording to the rate of taxation in various parts of the country.

It is believed that no securities offer so great in-

ducements to lenders as those issued by the govern ment. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, pledged for payment, while the whole property of the countr is held to secure the discharge of all the obligations of the United States.

While the government offers the most liberal terms for its loans, it believe dithat the very strongest appeal will be to the loyalty and patriotism of Duplicate certificates will be issued for all de

Duplicate certificates will be issued for all deposits. The party depositing must endorse upon the original certificate the denomination of notes required, and whether they are to be issued in blank or payable to order. When so endorsed it must be left with the officer receiving the deposit, to be forwarded to the Treasury Department.

Subreaiptions will be received by the Treasurer of the United States, at Washington the several Assistant Treasurers and designed on Depositories. sistant Treasurers and designated Depositaries, and
