CAMPAIGNS APMY OFTHE POTOMAC BY WILLIAM SWINTON.

THE STANDARD HISTORY OF THE GRAND ARMY. The greatest Work on the War.

Universally end rsed by army officers and the press, THE AUTHOR

"I design in this volume to record what that Army did and suffered in ten campaigns and two score battles.

I shall have to celebrate the unswerging loyalty

of this army, that of times when the lond of military chesion failed, held it, unshaken of tortune, to a duty self-impreed.

I shall have to follow it through a checkered experience, in a tale commingled of great misfortunes. great tollies and great glories; but from first to last it will appear that, amid in my buffets of fortunes. through "winter and rough weather," the Army of the Petomac never gave up but made a good fight,

Of this drama there will be no other here than the Tunkhannock and vicinity, that he has opened a in this war of the People it was decread there will be arise no imperial presence to become the central figure and cynosure of men's eyes. Napoleon, in an opposite Wall's Hotel, where he is prepared to do great armies of history the Comman ier was everything. This proud apotheosis has no a polication for and SKILLFUL MANNER, on short notice. Have the following the hungess he foels the Army of the Potomase. And one must think - seeing it never had a great, and generally had medicated commanders—it we sthat it might be said, that favoring him with their patronage. wh rever it won it owed not to genius, but bought with its blood."

This is the only History of the "Grand Army," and no one who has borne a part achievements, should be without it.

The scrofulous taint is variously caused by mercurial disease, low living, discordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consquently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

and, indeed, of all the organs, anse rounds are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it.

To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla;

the most effectual remedy which the medical BENT RIMS, BOWS, THILLS, POLF OIL-CLOTHS, TRIMMINGS, PAINT, VARNITIES, TURPENTINE, CARRIAGE-BOLTS. SCREWS, MALEABLE. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITLA-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

contaminated constitutions.

### AYER'S Ague Cure,

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumbas Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, Indeeds for the whole class of diseases originat-ing in biliary derangement, caused by the Malaria of Missmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of Fryer And Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Bündness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spien, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into dis-ease. Hence it is even more valuable for protec-tion than cure, and few will ever suffer from Inter-mittents if they avail themselves of the protection

this remedy affords. Prepared by Dr. J. C. AYER & CO., Lowell, Mass. F. C. Bunneil & Co., and J. W. Lyman & Co. Tunkhannook, Sterling & Son, Sterlingville, also by all druggists and dealers in medicines everywher;e
