CAMPAIGN OF THE ARMY OF THE POTOMAC.

By WILLIAM SWINTON. THE STANDARD HISTORY OF THE GRAND ARMY.

The greatest Work on the War. Universally endorsed by army officers and the press, THE AUTHOR SAYS:—

"I design in this volume to record what that Army did and suffered in ten campaigns and two score battles. I shall have to celebrate the unswerving loyalty of this army, that often when the load of military cohesion failed, held it, unshaken of fortune, to a duty self-imposed.

I shall have to follow it through a checkered experience, in a tale unmingled of great misfortunes, great toils and great glories; but from first to last it will appear that, amid its many buffets, fortune, through winter and rough weather, the Army of the Potomac never gave up, but made a good fight, and finally reached the goal.

THE "ARMY AND NAVY JOURNAL" SAYS:— "This is the only American critical work on the late war, and it is thoroughly critical and entirely divested of all political bias or tinge."

This is the only History of the "Grand Army," and no one who has borne a part in its conflicts, or is interested in its grand achievements, should be without it.

This work sells itself. Be people are tired of political and partisan histories, and want something from official sources. We have Agents clearing over \$200 per month. Send for circulars, and see our terms and proof of the above assertion.

BONNET REPAIRED ON SHORT NOTICE. Tunkhannock, May 24, 1866

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which the fluids become vitiated, weak and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal disease, which never ever its origin, it is hereditary in the constitution, descending from parents to children, and to the third and fourth generation; indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles in the glands, swellings; and on the surface, eruptions or sores. The foul corruption, which renders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from causes aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must remove the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most precious and powerful ingredients discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERYTHEMA and SKIN DISEASES, ST. ANTHONY'S FIRE, SCURVY, ERYTHRODERMA, POX, PILES, BLOTCHES, BRUISES AND BOILS, TUMORS, TUBERCLES, RHEUMATISM, GOUT, RINGWORM, RHEUMATISM, SYPHILITIC AND MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIALIZED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate the system, without which sound health is impossible in contaminated constitutions.

AYER'S

Ague Cure, FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodic Headache, or Bilious Headache, and Biliousness, for the whole class of diseases originating in bilious derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the blood, with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of Fever and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for cure and prevention. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine, or mineral, consequently it produces no quinism, or other injurious effects whatever upon the constitution. These cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Pains, Painful Affection of the Spleen, Hysteria, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodic. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excluded from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.
