

HARVEY SICKLER, Editor.

TUNKHANNOCK, PA

Wednesday, Nov. 7, 1866.

A crowd of new advertisements has prevented us from giving the usual amount and variety of reading matter this

THE BALTIMORE TROUBLES.

THE NEW POLICE COMMISSIONERS SEIZED BY THE RADICAL REB-

A Collision Hourly Expected

The troubles in Baltimore between the Governor and the Radical Rebels are thickening. After a full examination of the charges of maifeasance against the police commissioners of the city, and after being fully satisfied of their guilt Governor Swann in the exercise of his duty declared their seats vacant and appointed two conservatives, Messrs. Valiant and Young, in their stead. After being duly qualified they proceeded to the public buildings and made a formal demand of the old Commissioners of the public buildings property and papers. A warrant was issued by a Judge Bond, a most violent radical, whereupon they, the newly appointed commissioners, were seized and hurried off to Jail. All business in the city is suspended and a collision is hereby expected-Gens., Grant and Canby are at the city and is reported to have several regiments under marching order to quell any disturbance of the peace.

by one of the judges of the supreme court which, if respected, will probably result in their release. Serious riots and disturbances are frequently occurring and still more serious work is hourly expected.

Mexico.-For the last time, probably, it is said the French troops are soon to be withdrawn from Mexico. Minister Campbell and General Sherman having received orders to proceed at once to that country, it is evident that a crisis of some sort has arrived or is about to arrive in its destiny. If the French troops are to be withdrawn, with Maximilan at their head, it will require the immediate intervention of this Government to settle the local differences existing between the rival contestants for power. Without some outside influence of a powerful character the country would undoubtedly soon relapse into a worse condition than before or during the Empire.-It is said that our Government has already entered into an agreement with the Jurez branch, and that it will be recognized and supported with material aid, if necessary, against Ortega and all other aspirants. In consideration of that support the United States are to get a large portion of the territory of Chihuahua, nearly the whole of Sonora, and all of the peninsula of Lower California. The line has not yet been fixed, but will run from the Rio Grande, near El Paso, to the Gulf of California, including the port of Guaymas. These will be important and substantial gains. We will secure not only new routes to the Pacific and entire control of the Gulf of California, but acquire about a thousand miles of seacoast-from Cape Lucas to San Diego.

Four negroes are now serving on juries in Boston-one in the Superior Court for criminal business, one in the first session of the Superior Court for civil business, and two in the second session. The Boston Commonwealth, the organ of Senator Sun .ner, chronicles this fact as showing that the idea of negro equality has been lifted into more vitalized existence by the late elections. Those of our people who thought that negro equality was not an issue in the late contest in this State, will now find they were in error. Each Radical triumph is a step nearer to the equality of the white and the negro race in this country.

GENERAL JOHN F. HARTRANFT, Aud. General of Pennsylvania, has accepted the appointment of Colonel in the regular army, tendered him some time ago by the Secretary of War, and will leave his office, at Harrisburg, on the first of November.

The Radicals of New York city have grossest naturalization frauds. Four officials have been arrested and held for trial for preparing fraudulent papers, and upon one of them hundreds of forged blanks were found. So it goes. The old shoddy thieves must do something to "keep their hand in."

The Dutch Gap canal is now navigated by sailing vessels and steam tugs -- shortening the route to Richmond about six miles. This is at least one instance in which Ben Butler has given " aid and comfort to rebels" and, strictly construed, it will be suffiouth if elected to Congress.

THE MEXICAN QUESTION.

Colonel Campbell sent as Minister to the Jurez Government.

THE SUBSTANCE OF HIS OFFICIAL INSTRUCTIONS.

THE UNITED STATES WILL SUP-PORT A MEXICAN REPUBLIC.

They will Furnish Force if it be Necessary.

ister Campbell.

A Leading Army Officer to Accompany Min-

MEXICO CEDES A LARGE TERRI-TORY TO THE UNITED STATES.

WASHINGTON, Monday, Oct. 29, 1866. COLONEL LEWIS D. CAMPBELL, the Unied States Minister to Mexico, left this city ast evening with credentials addressed to the Juarez Government, and with full instructions, conforming in every respect with the tripartite arrangement between the United States, France, and the Republic of Mexico.

Mr. Campbell will probably visit his home in Ohio, eu route to Mexico.

Under the arrangement now perfected Napoleon is to commence the withdrawal of the French army from Mexico next month; and although he has a year from that time to complete the evacuation of M.x.co. it is more than probable that the whole army will be withdrawn by or before the first of January next.

Of course, with the withdrawal of the French army Maximilian takes his deper-.ure, and the farce of an empire on the North America Continent is ended.

It is proper to state that this determination of the political government of Mexico has been attained through amicable negotiations with all parties interested.

In view of the great political changes anticipated in Mexico under the adjustment of her governmental affairs brought about under this management, and the weakness of the Jaurez Government after the protrac ted wars that have been forced upon it, to maintain its existence it has become imperative-in the interests of all nations concerned-that a stable government should be guaranteed to her by some responsible power. It is possible that the term "guaranteed" is rather strong to express the relations assumed toward the Republic by the Government of the United States; but the Administration undertakes to extend to the Jaurez Government in M xico a A writ of habeas corpus has been issued protectorate, which is to be operative, how ever, only in case of an emergency, In plainer terms, our army on the Rio Grande, and our fleet in the Gulf, are to be held in readiness to assist Juarez should such a si tance become necessary to him in establishing his authority as President of the Republic, and in bringing to work in full vigor the machinery of a republican gov

> erume . In order to an intelligent exercise of this possible armed intervention, the Administration has determined to send with Minister Campbell a military officer of high rank, eminent abilities, and sound indement, clothed with power to act in the emergency referred to. Lieutenant-General W. T herman is now spoken of in this connection, and also Major-General W. S. Hancock. The responsible mission, it is strongly indicated has been tendered to General Sherman; but should he decline, General Hancock will undoubtedly be sent.

It is no part of the p'an to move any sten. occasion shall arise to render such a resort necessary. But it is hoped that the attitude assumed by the United States thus publicly, in sending an officer to Mexico clothed with this power, will be sufficient to overawe the vraious political leader- of that country, and the numerous rival factions that beset the land, and lead to a nnanimous submission to and support of the only government that has any pretensions to regularity and constitutionality, or any ability to establish and maintain itself,

In consideration of he friendly offices thus assumed by the Government of this country toward Mexico, the government of that country, which is thus recognized and established, agree to cede a portion of their territory to the United States. The precise boundary of the territory thus to be ceded it is not possible to give; but the future southwestern boundary line of the United States will probably leave the Rio Grande at or near the point where it now does, but taking a more southerly course, will run in a straight line to the Gulf of California, striking that Gulf at a point of Guaymas, so as to include that important seaport within the limits of the United of felly complying with this desire has ma-States. We then gain the whole of the terially retarded the progress of the sale. peninsula of Lower Californi, with the nore valuable portions of Sonora and Chihuahua, with all their immensely rich deposits of precious metals, the undisturba much shorter and more practicable route to the Pacffic coast.

Thirty-three years ago, whoever was abroad on a certain November morning, from two till davlight, saw a most magnificent sight. This was no less than a shower of meteors, which was witnessed been detected in the preparation of the and commented upon by the philosophers of that day. It was computed by Arago, the French astronomer, that no less than 140,000 of these met ors were seen that morning.

These showers are periodic. It is announced that another shower may be ex pected on the night of November 13--14. Professor Newton, of Yale College, is the prophet. Probably he has certain data upon which to make the announcement.

Death of Serator Wright of New Jersey. NEWARK, N. J. Nov. 1-The Hon. THE CROSBY OPERA HOUSE

ART ASSOCIATION.

(From Chicago Times.)

The success of this -the most stupendous Art enterprise of the nineteenth centuryis already an accomplished fact. The assurance of Mr. Crosby to that effect, streng- the talents, ability and energy of that genthened by the concurrent testimony of the tleman. wealthy and influential Committee appointed to superintend the drawing, and the personal guarantee of Samuel M. Nickerson, Esq. (a gentleman whose undoubted integrity is backed to unlimited pecu-iary means,) has appeared in a former issue of this paper. The sale of certificates has been rapid and immense, and fully justified thus far the expectations of the most sangnine; but a large number still remain in the hands of agents scattered all over the country, the extreme shortness of time (as originally limited) precluding the possibility of their sale before the date of drawing.

One article, which has seriously retard ed sales, has been the absolute impossibility of fornishing engravings as fast as required. Although the presses of the Association have been worked night and day, the demand has far exceeded the supply.

After duly considering this, Mr. Crosby has concluded—in instice to the interests he represents, and in deference to the wish of the public, which (so far as can be ascertained) is almost universal-to delay for a short time the closing of the subscription books so as to extend the area of membership as widely as possible.

In adopting this course, the Actuary has consuited the members of the Committee on drawing and others, who agree with the management that a short extension of time will amply suffice, at the present rapid rate of sale, to dispose of the remaining certificates. The names of the Committee are a sufficient guarantee of the soun lness and disinterestedness of their advice, as thorough and competent business men:

COMMITTEE ON DRAWING. W F Coolbaugh, President Union National Bank Amos T Hall, Hall, Kimbark & Co. Clinton Briggs, Ewing, Briggs & Co-J C. Dore, President of the Board of Trade

James H. Bowen, President Third National Bank J mes C. Farge, Superintentent American Express. Francis C Hoffman, Ex-Lieut. Governor, Y Much, Mush and Scott Elevator

A. Filis. President Second National Bank.

E. G. Hall, Hall, Kimbark & Co. To these names will be added delegates

from other cities.

The integrity of all connected with the management of this colossal enterprise is too firmly established to admit of a moment's doubt of cavil, The honer and reputation of som of the wealthiest capitalists and i fluential business men in the country are identified with its ultimate triampu and complete success. For reasons above stated, these gentlemen not only cordially approve, but advise this temporary delay, confident that such a policy will equally inure to the benefit of the public and the interests of the Association .-No one who can form an approximate idea of the enormous scope and magnitude of this truly wonderful enterprise - involving as it has from the moment of its organiza tion (barely three months ago) the establishment of hundreds of local agencies in nearly every city, town and hamlet of the States and Territories, the employment of an immense clerical force, the printing of thousands of superb engravings and the imhead of correspondence, advertising, telegraphing, expressing, &c -will hesitate to

We can assure our readers that every pledge given or promise made will be faithfully carried out, in strict accordance with its orginal spirit,

An elegant descriptive Catalogue, giving a complete list of Prizes has just been issued by the Association, giving full particulars, which they send to any address on application to the principal office, 626 Broadway. New York, or 28 O era House, Chicago. See advertisement headed "A For-

tune for some one,"

The Management would announce that the time limited for the Closing of the Books has been found too short to complete an undert king of such magnitude.

The sales have been very large-sufficient to insure the entire success of the enterprise. Had it been possible, within the short time allowed, to have furnished the Engravings as fast as they have been required, there is not the least doubt that every certificate would now have been disposed of.

There has been a general desire, hovev er, to receive the Engravings at the time of subscription, and the difficulty heretofore

A portion of the certificates consequently remain unsold. The Committee agree with the management that the books should not be closed, when a short extension of ed n vigation of the Gulf of California, and the time, at the present rapid rate of sales, would suffice to dispose of the remaining certificates.

The subscription books will, therefore, be continued open for a short time longer. The day for the Award of Premiums will soon be announced.

U. H. CROSBY, Actuary.

LUZERNE COUNTY .-- Luzerne county con tains an area of 1400 square miles, more territory than is embraced within the limits of any other county in the State, and more than the entire State of Rhode Island. In population it ranks the fourth county in the State, and excluding Philadelphia and Allegheny, (the former having been swall-wed up by incorporation into the city of Pitisburg) it would stand second. In the lates lection, Philadelphia polled 103, lier feelings of nature. Think of being 022, votes, Allegheny, 33,406, Lancaster thus constituted getting cross on every 23,184, and Luzerne 31,120. It is a Legis lative, a Senatorial and a Judicial district, and by the next census will probably have sufficient population to make it also a Congressional District. It is represented in the State Senate by one member, and in the Assembly by three.

It is said that one pound of mustard seed. two pounds of raisins and one pound stick cinnamon will preserve one barrel of cider

BOLTON'S HOTEL.

The following notice, clipped from the Patriot & Union, in reference to the "Bolton House" and its proprietor GEO. J. BoL-TON, who was formerly of this place, is a well-earned and richly deserved tribute to

aggrieved .- Columbian. Our friend, G. W. Hunter, the clerk of the house, who has a knack of making his guest feel so much at home, we see, too, is earning for himself goiden opinions,

There are few men who have schieved our friend George J. Bolton, proprietor ring so long a life suffered somewhat from and manager of Bolton's Hotel in Market the storms of time, her mind is still active in the business, both in this place and Cape May, has secured for him a reputation which cannot fail to continue in the future. child. His well-known stand in this place, which

for many years was called the "Buehler House," has so materially improved under his management that it is no more than justice to him that we make mention of the fact. One year ago a new story was added to the building, which was a decided improvement, and the rooms have been repapered, refitted and refurnished through. This was cone at a great cost, involving an expenditure of thousands of dollars. From beginning to end the house is a pattern of good order, and the largely increased patronage bestowe! upon Mr Bolton shows that the public, in some degree, appreciate the vast improvements he has made. Every apartment is provided with gas and water, and the beds for cleanliness and comfort, are not excelled in the State. Three bath rooms are upon the first floor, which avoids the necessi ty of guests going to unwholsome places for comforts of the kind. The table is well supplied with every variety the market affords, and the servants, of whom there is a goodly number, are attentive and oblig ing. No other house in Pennsylvania has a better reputation, and it can be said with truth this reputation is deserved. Those who cannot find comforts and conveniences at this house, need not expect to find them at any hotel. Every person who knows anything about a public house, will admit that much of its perfection depends upon its chief clerk. We need only to refer to Mr. George W. Hunter, the gentlemanly and efficient charge de affaires, to say all that is needed in that particular .-We will conclude this article by saving, that Harrisburg is fortunate in having Bol- He exhibited to us some of the firest robes made ton's Hotel, and in Mr. Bolton a its proprietor. The latter is popular everywhere an i we hope his stand will long continue of getting the article be represents it to be, which is in its present excellent condition, and the not true in respect to all dealers in furs. worthy host reap a handsome reward for his 'abors,"

American Manufactures-the American Watch Co. of Wattham, Mass.

Every one knows that the mechanism of the best manufactories of this country is unequalled in any other part of the world. The genius of American mechanics produced cotton-gin, the mechanical reaper and mower, the sewing machine, and last, but not lea-t, the wonderful machinery of mense details included under the general the American Watch Company of Wal- The farmer and the mechanic need such an educa tham. This Company was established in 1850, an I has grown in proportions which admit or concur in the propriety of this entitle it to a first rank among the manufacturing enterprizes of the New World.

The founders of this Company believed that the same delicate mechanical processes which had produced such remarkably perfect results in larger machines, might be applied with even greater advantage to the production of the watch. The foreign time pieces are made principally by hand, and except when of high cost, an imperfect artic e, often out of repair, and of little value is the result,-Abroad, these mysterious and infinitesimal organs which, when aggregated, produce the watch, are the truit of slow and toilsome manuel processes In the results, there must of course be lack of that perfect uniformity which is indispensable for correct time-keeping. The constituent parts of the American watch, on the other hand, are fashioned by the most delicate and accurate machinery. Wheels, pin ions, springs, screws, absolutely uniform in weight, circumference, dimensions, and in every possible particular, are turned out in myriads by unerring fingers of steel, and their proper combination and adjustment by skillful workmen have given the Company its high reputation. Its watches Lot only go with the the trade and go in the pockets of 200,000 people, but they go right and go everywhere. - Exchange.

A CROSS WOMAN .- The idea of a woman getting cross and ugly when things in the family do not run quite as smoothly as they should, is simply ridiculous. She make herself an object of loathing and contempt whenever sh is guilty of such nonsense. The Almighty has created her for a purpose entirely different to this insane and foolish indulgence in angry passions He has made her beautiful and attractive in her person, endowed her with sensibilities and refinements of mind and manner which, when properly cultivated. lead to the elevation of the higher and hothus constituted getting cross on every triffing occasion. How she insults the Creator, and prostitutes these excellent qualities which the stern sex do not possess, and which seem to be reserved by heaven for her alone. Think of this, fair woman, whenever the devil temp's you to sin .-You may forfeit all within your grasp; worldly happiness, personal esteem, domestic felicity, that peace of mind which arises from a consciousness of duty well and faithfully performed, and what is more than all, you may forfeit the favor of your

Furs, Robes and Gloves-Mr. George Alright, who lives near Scottsville in Mehoopany is now manufacturing in large quantities, Robes, Muffs, Capes, caps, gloves and fur goods of every discription. Mr Albright is an experienced workman and furrier. All his goods are manufactured under his own supervision and will be found of the nestest and most substantial character. Those who think that these articles can be manufactured only in our large cities will be undeceived upon examining his stock. from both native and foreign furs, that we have ever secu. Those purchasing of Mr. Albright, can be sare

A Young Man-who wishes to fit himself for the active business pursuits of life and for a position of honor in society can do no better thing than to take a thorough course of instruction in some first class Commercial Collegs. Such an institu ion we are glad to learn, has been recently established at Scranton where the young men in this vicinity are offered advantages in many respects, superior to those of any similar Institution in the country. Let no young man who aspires to such a position and qualification say, now, that they are not within his reach. Any one possessed of health and a will to do so, can save enough of his earnings, at almost any employment, every six months to secure him the advantages of a thorough business education tion just as much as the merchant and the shop keeper. The idea that they do not is or e of the exploded old togy notions of the past.

Encouraging .-- A short time since a triend (?) called on us, and expressed great satisfaction at our zans of superior skill and character, and a course; and at the same time wished that we might large and thriving town has grown up in be successful. As to the radical disunionists he its vicinity. The factory covers over thee hoped we would still continue to ery aloud and acres of ground, and as an illustration of spare not. We of course felt very much gratified

> "W-a-a lt." said he." "I would take your paper but Mr. W., a near neigh or of mine takes it, and we get it and read it every week just the same, so I think it won't hardly pay for me to subscribe."

> We were, and still are aware of the fact that his neighbor takes our paper, and also of anot her fact that his kind neighbor has not from the beginning, (1861) now upwards of five years, paid us a single tarthing for it. This our enthusiastic, admiring friend can see every week, if he reads the date or the address label on it. Comment on this state of facts is unnocessary. We do think, however, that it won't pay for us to supply several families with a paper at so cheap a rate to them. We hope our dead-head subscribers will not hereafter belso gener ous in lending not their own, but our paper to the ir neighbors.

This kind of encouragement is very cheap to the donor, and really don't go a great way in paying printers, purchasing paper, ink, &c.

A very different kind of encouragement was con tained in the following letter recently received from a friend In-DEED.

H. SICKLER. DEAR SIR :

Enclosed find two dollars; Enclosed find two dollars; for which please send me one copy of the 'North Branch Democrat' to this office. I don't know your terms of subscription, but I know your paper is the spiciest little sheet in Northern Penn'a., and that it is purely Democratic. In my opinion we cannot have too many like it before the people at this time. Please send me the paper at long as the enclosed remittance will pay for it, and oblige Yours Respectfully, K.

Cholery, Diarrhea, and Dysentery ! A CURE IS WARRANTED by DR TOBIAS' CELS-

BRATED VENETIAN LINIMENT, it used when firs; taken by persons of temperate habits. This medicine has been known in the United States over 20 years. Thousands have used it, and found it never failed to cure any complaint for which it was recommended, and all those who first tried it. are now never without it. In the Cholers of 1848, Dr. Tobias attended 40 cases and lost 4, being called in too late to do any good.

DIRECTIONS.-Take a teaspoonful in a wineglass of water every half hour for two hours, and rub the abdomen and extremities well with the Liniment, to allay the thirst, take a lump of ice in the mouth, about the size of a marble every ten minutes. It is warranted perfectly innocent to take internally. Sold by all druggiets, price 40 and 80, cents. Depot. 56 Courtlandt St., New York.
