watches are composed of several hundrey pieces, repairs to keep them in any kind of order. All persons who have carried "ancres" "lepines" and BUFFALO ROBES, MUFFS, CAPES, "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise more than ten years ago, it was our first object to make a theroughly good low priced watch for the million, to take the place of these foreign impositions ; the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this, may be un lerstand from the fact that after many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNI-TED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything bitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We nave eercted an addition to our main building ex pressly for this braach of our business, and have filled it with the best workmen in our s rvice New machines and appliances have been constructed which perform their work with consummated delicamaterials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than fereign watches, but we do assert without fear of contradiction that for the same money our product is incomparably superior. All our watches, ef whatever grade, are ully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION .- The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be represented.
