CONSUMPTION CURABLE BY SCHENCE'S MEDICINES.

TO CURE CONSUMPTION, the system must be prepared so that the luugs will heal. To accomplish this, the liver and stomach must first be cleans ed and an appetite created for good wholesome food. which, by these medicines will be digested properly and good healthy blood made; thus building up the constitution. SCHENCK'S MANDRAKE PILLS cleanse the stomache of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHENCK'S PULMONIC SYRUP is nutricious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel al, disease. If patients will take these medicines according to directions. Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that i required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, eat all the richest food-fat meat, game and, in fact, anything the appetite craves; but _be particular and masticate well. v6n12-2ndw ea-oj-

REASONS WHY THE AMERICAN WATCH Made at WALTHAM, MASS., is the best,

It is made on the best principle. Its frame composed of SOLID PLATES. NO jar can interfere with the harmony of its working and no sudden shock can damage its machinery. Every piece is made and finished by machinery, (itself famous for its novelty, as well as for its effectivenes) and is therefore | roperly made. The watch is what all mechanism should be-ACCURATE, SIMPLE, STRONG AND ECONOMICAL, Except some high grades. to costly for general use, foreign watches are chiefly made by women and boys Such watches are composed of several hundres pieces, screwed and rivited together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres" "lepines" and] "English Patent Levers," are perfectly well aware of the truth of this statement.

At the beginning of our enterprise more than ten years ago, it was our first object to make a theroughly good low priced watch for the million, to take the place of these foreign impositions; the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this, may be un lerstand from the fact that after many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNI-TED STATES, and that ne others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We gave eercted an addition to our main building ex pressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed which perform their work with consummated delicaey and exactness The cho:cest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than fereign watches, A gentleman who suffered for years from Nervous
Debility, Premature Decay, and all the effects of
youthful indiscretion, will for the sake of suffering
humanity, send free to all who need it, the recipe
