#### REASONS WHY THE

AMERICAN WATCH Made at WALTHAM, MASS., is the best.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can inter-TIONS, of to h sexes, use Heimbold's Extract Bu-chu. It will give brisk and energetic feelings, and den shock can demange its machinery. Every piece den shock can damage its machinery Every piece is made and finished by machinery, (itself tamous for its novelty, as well as for its effectivenes) and is therefore I roperly made. The watch is what all mechanism should be-ACCURATE, SIMPLE, STRONG AND ECONOMICAL, Except some high grades, to costly for general use, foreign watches are chiefly made by women and boys such watches are composed of several huntre pieces, screwed and rivited together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres" "lepines" and "English Patent Levers," are perfectly well aware o: the truth of this s'atement.

At the beginning of our enterprise more than ten years ago, t was our first object to make a theroughly good low priced watch for the million, to take as place of the elors ign impositions; the refuse of foreign factories, which were entirely unsaleable at home and perfectly worthless everywhere.

How well we have accomplished this, may be unierstand from the feet that after many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNI-TED STATES, and that no others have ever given such universal satisfaction. While this department of ur business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We nave eercted an addition to our main building ex pressly for this branch of our business, and have filled it with the best work men in service. New machines and appliances have been constructed which perform their work with consummated delicaey and exactness The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our witches for less money than fereign watches. but we do assert without fear of contradiction that for the same money our product is incomparably superior. All our watches, of whatever grade, are ully warranted, and this warrantee is good at all times against us or our agents in all parts of the
