In presenting this work to the Public, the Pubishers are actuated by a desire to furnish a chear and convenient vehicle for the transmission of light and instruction to the masses upon a subject con-cerning which, there is both doubt and misappre-hension in the minds of all classes of our country-men. This has arisen as much, perhaps, from the heretoforo imperfect sources of intelligence cencernheretoforo imperfect sources of intelligence concern-ing that unhappy country, as from the influence of our domestic politics upon the questions growing out of the consideration of its History. The Revolution through which our own Country has just passed, has not been without its influence, though indirectly, upon the fortunes of the Mexican Nation, and while we contemplate the wonderful changes wrought in the United States by five years of strife, we are naturally led to inquire the results achieved by the revolutions of our Southern Sister, once the Republic and now the Empire of Mexico. Our Author harmless; not like Cloroform or Ether; leaves no unpleasant effects on the system; gives complete freedom from pain; does not irritate sensitive teeth, as the freezing process does. I have used the Gas six months, satisfactorily. Come and get rid of decayed teeth which annoy you and are offensive and injure your health. No excuse for longer suffering. We "catch them napping." Wednesday and Saturday of each week will be devoted exclusively to the extracting of teeth. Gas will not be advinitated. revolutions of our Southern Sister, once the Republic and now the Empire of Mexico. Our Author has answered this inquiry in a manner both satisfactory and conclusive, in the Volume we have just issued from the Press, and we commend it to the citizens of the United States as an invaluable contribution to cotemporaneous History. Mr. Flint clearly demonstrates among other things, that the Maximilian Government in Mexico is firmly established; that the people have abandoned Juarcz, (whose troops are said to consist now of but a few bands of guertilas,) and joined Maximilian; and that the popular prejudices in this Country against the establishment of an Empire in Mexico are wrong, because in asserting the Monroe Doctrine we are running counter to the wishes of the Mexican people, and taking from them their exclusive right to settle their own affairs in their own way and to their own satisfaction. extracting of teeth. Gas will not be administered on other days, unless a few hours' notice be given, Dr. E. H. Wells will assist in this department, affairs in their own way and to their own satisfaction affairs in their own way and to their own satisfaction. Facts and documents are presented to show that the Empire is maintained now without the aid of France and solely by the Mexican people—the merchant clergy, and better sort of people generally Tho book gives a good insight into the policy which our own Government has pursued in Mexican affairs, as well as many facts and statistics of interest and val-

A HUMBUGHOW OFTEN WE HEAR THIS EXPRESSION
from persons reading advertisements of Patent

Medicines, and in nine cases out of ten they may be

righ. It is over 19 years since I introduced my

medicine, the VENETHAN LINIMENT, to the public.

I had no money to advertise it, so I left it for sale

with a few druggists and storekeepers through a

small section of the country, many taking it with

great reluctance ; but I told them to let any one

have it, and if it did not do all I stated on my pam-

phlet, no one need pay for it. In some stores two er three bottles were taken on trial by persons present,

I was, by many, thought crazy, and that would be

the last they would see of me. But I knew my med-

icine was no humbug In about two months 1 began

to receive orders for more Liniment, some calling it
