Best Book for Everybody.—The new illustrated edition of Webster's Dictionary, containing three thousand engravings, is the best book for every body that the press has produced in the present century, and should be regarded as indispensable to the well-regulated home, reading-room, library, and place of business.—San Francisco Golden Era

J. W. Hornor of Parkersburg, West Va. says that Dr. H. Anders' Iodine Water cured him of Scrofula. He had 37 running Ulcers when he commenced taking the medicine. Persons afflicted should make a note of this, and send to J. P. Dinsmore, 36 Dey Street, New York, for a circular concerning this remarkable remedy.

Don't Forget—Reader, to examine the date on the tinted address label on this paper. It shows the time up to which it (the paper) is valid for.—Don't forget, too, that at the close of the present volume, we propose to enlarge, and otherwise improve the Democrat; and give it a new and more appropriate name. Don't forget that to do so, will cost us all the loose change we can rake up, scrape up, beg or borrow. If you owe the printer, don't forget to pay him; or you may find out, when too late, that you have forgotten the way that leads to the "happy land of C-a-n-a-a-n."

With Foul Metallic Qualifications a man may be pretty sure of earthly success. These are Gold in his pocket, Silver in his tongue, Brass in his face, and Iron in his heart.

But for a tonic appetizer, and as a gentle stimulant, there is reliable virtue in PLANTATION BITTERS. No article has ever been so popular or done half so much good. Let all who have not already tried this great stomachic, at once test its quality. We understand that the Druggists and Grocers of this section are selling vast quantities, and that scarcely a family is without it.

Magnolia Water.—A delightful toilet article—superior to Cologne and at half the price.

Petty Larcenies, of victuals and other articles of small value, from houses, cellars and barns of our towns people are now quite frequent. The thief or thieves are evidently some worthless vagabonds, who are too lazy to work for a honest livelihood, and who, from these small beginnings, are working themselves up to the commission of graver crimes, against the persons and property of our citizens.

In order to check the depredations of these contemptible sneak thieves, every well ascertained case of theft should be promptly prosecuted and properly punished; both for the good of the offender and for the future security of the public. While charity even to criminals, is commendable, to wink at, overlook and excuse these growing, festering, pimples—though they may now lie upon the body politic, is neither charitable nor commendable.

Decker Bros Pianos.—Our exchanges as well as our our readers are invited to note the advertisement of Messrs. Decker Brothers, the prominent Piano manufacturers of No. 91 Bloeker street. We inform the public that a careful and official search, made at the United States Patent Office in Washington has proved that no patent for an improvement in Pianofortes was ever granted by the United States to any person by the name of Decker, except to the members of the firm of Decker Brothers, of New York City. This declaration has been necessitated by the fact, that some persons are trying to sell "Decker Patent Pianos," which have not been manufactured by Messrs. Decker Brothers—thus misleadingly equating a number of persons in the country.—New York Weekly Review.

The Wholesale and Retail Agency of these celebrated Pianos, for this section of the country, is at the Music Store of L. B. Powell, Scranton.

Shooting Affair.—A young man, a son of Lewis Armstrong, late commissioner of this County, who resides near Factoryville Depot, was shot by a man named DeMorse, a few days since. The circumstances as related to us are as follows: DeMorse, who is said to be an irritable and violent tempered man, had been annoyed by the conduct of some boys in the neighborhood, and had threatened to shoot them; and in pursuance of his threat he had procured a mine rifle. The young man, Armstrong, who it is said had no intimation of danger, when passing the garden of DeMorse, in the forepart of the evening, went into it for the purpose of getting a radish. While thus engaged DeMorse who was near by, shot him. The ball which was of the largest size, entered near the point of the shoulder blade and passed out at the breast. At last accounts the young man was alive, though his wound is said to be such as will probably prove fatal.

DeMorse was arrested and is now lodged in jail awaiting trial for his rash act.

Trouble with Turkey.—A serious embroglio in our relations with the Divan has arisen, as follows: Sarkis Mianian, who has for many years acted as the resident agent in Turkey for the sale of Dr. J. C. Ayer & Co.'s medicines, driven by the increase of his business to a necessity for more room, built his warehouse in Constantinople several stories higher after having obtained the necessary permit from the authorities. The Inans of a neighboring mosque, which overlooked the premises demanded a large present in money, which was refused. They then applied to the Grand Vizier, for the enforcement of an obsolete law, which had been disregarded two hundred years requiring him to take down the building to eighteen feet, which was granted, and they commenced the work of demolition. Mianian then applied to the American Minister, who notified the Sublime Porte that American property could not be thus trifled with, and that the demolition must cease. Then commenced the usual course of Mussulman prevarication and promises, but no real redress.—Finally Minister Morris informed them that if their depredations continued, he should order the U. S. ships of war to enter the Bosphorus and Messrs Ayer's medical warehouse would not be alone roofless. A stroke of his pen could have laid the whole city under the sweep of American cannon, backed by men who are not schooled in the lessons of fear. This brought them to their senses and speedy redress.—Mianian has now arrived in this country, to present the case to our State Department for indemnity. At length it is something to say among the peoples of the earth—"I am an American citizen!"—Columbia Republican.

A Horse Thief, on the night of the 3d inst. stole from the stable of Mr. Giles Fitch, in Falls Township, a valuable horse. At the Falls, about four miles further down the river, he took from the shed at Townsend's Hotel, a saddle. Thus conveniently equipped for travelling, he went on, two miles further, when, arriving at the old Townsend farm, he concluded to make some "internal improvements." Leaving his horse fastened to a post he entered the cellar, and acting upon the maxim that "a half loaf is better than no bread"—this time—confined the half loaf, and was moving off in good order, when the owner with a large dog, made a sudden flank movement on him, which caused him to drop the staff of life, and use only his legs for escape. The horse, in the meantime, became alarmed at the noise, and before reached by man or dog, with the stolen saddle on his back, very discreetly took leg-bail on his own hook. The thief, no doubt thoroughly disgusted with the conduct of the thieving brute, did some pretty tall

walking in the opposite direction. The horse was found on a back road about a mile from the place, with his foot through the rein of the bridle, looking as if ashamed of being caught under such peculiar circumstances.

A suspicious character, who said he was from Laceyville, and gave his name as Philipp McDonald, was next day, arrested at the Falls; and after a hearing, was committed to answer the charge of stealing the horse. The last named animal—though caught in the act of carrying away the saddle, will escape much "hard labor," but, perhaps not "close confinement," for his part in this transaction.

Rakes.—If we were to write an elaborate dissertation—while we don't propose to do—on the subject of rakes, we should say: Ladies and gentlemen; rakes are numerous, and of diverse styles, kinds and qualities. We should mention the primitive hand-rake, the young and old-man—rake, the rake of a ship; the raking fire in battle; the rakish young woman—and the old scratch. We should not forget too, to mention—for we have lively recollections on this point—the vigorous rakes which thoughtful mothers make among the tow locks of their interesting offspring, with a newspaper, a fac-tooth-comb rake and—abundant success.

We don't propose, however to discuss rakes in general, we only wish at present to call particular attention to the improved, revolving Horse-rakes now manufactured and sold by D. L. Peckham & Co. of this place, which are said by all farmers who have them in use, to be the most desirable and useful labor-saving implement, ever called a rake.

The Republican.—Mr. Albert F. Yost, lately connected with the Republican of Bloomsburg, advertises in our paper, of to-day, that he will revive the Republican newspaper of this county, about the 1st of August next. Like all his predecessors, he promises the friends a high toned organ. This was the key-note in Tiffany's time, pitched an octave higher by Emory; then came Billy Burgess a half note higher; then Ira Avery fairly squealed out with dignity and loftiness of tone; then came Billy again, who, to close the strain, struck in, at the last time, ten or fifteen octaves lower than at first; and finally the concert died out with a low, moaning wail—his song only half sung. Every one of these black birds struck such a lofty key-note, that nothing short of a sheriff's execution could make them pay their debts or bring their music down to the comprehension of our common back-wood's people. Mr. Yost is spoken of by those who are acquainted with him, as a practical, common sense printer, and gentleman, and may not, like his distinguished predecessors, strike such an ear-piercing key-note, and such a tragic attitude in making his debut.

PERUVIAN SYRUP. A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON supplies the blood with its LIFE ELEMENT, IRON, giving strength, vigor and new life to the whole system.

If the thousands who are suffering from DYSPEPSIA, DEBILITY, FEMALE WEAKNESS, &c., would but test the virtues of the PERUVIAN SYRUP, the effect would not only astonish themselves but would please all their friends; for instead of feeling crags "all gone" and miserable, they would be cheerful, vigorous and active.

CONSUMPTION CURABLE BY DR SCHEWCK'S MEDICINES. TO CURE CONSUMPTION the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food which, by these medicines will be digested properly and good healthy blood made; thus building up the constitution. SCHEWCK'S MANDRAKE PILLS cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

SCHEWCK'S PULMONIC SYRUP is nutritious as well as medicinal, and, by using the three remedies, all impurities are expelled from the system, and good, wholesome blood made, which will repel all disease. If patients will take these medicines according to directions Consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes diarrhoea they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and to any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold, Exercise about the rooms as much as possible, eat all the richest food—fat meat, game and, in fact, anything the appetite craves; but be particular and meticulous well. v612-2nd-w-01-07.
