

Local and Personal.

The Old Bulls Paganini, and all others musically inclined, will be glad to learn that, Violas, A. e. corderos, Concertinos, Violin strings and Bows, Sheet music, Music books, &c., are constantly kept on hand...

In Order.—The Flouring Mills of Platt, Miller, & Ros, at the East end of Town, which for some weeks past, have been undergoing thorough repairs and improvements, are now in full operation...

Justices of the Peace will conform to the requirements of the law, in such case made and provided; and contribute to the interests of tax-payers of the County, by sending all recognizances taken by them in criminal cases, to the District Attorney, at least ten days before Court.

Meeting the Difficulty.—Many persons who are desirous of obtaining a Piano or Melodeon, are unable to furnish sufficient means at one time to pay for it; to meet this difficulty, L. B. Powell, of Scranton, proposes to furnish Musical Instruments on instalments, as far as possible, to suit the purchaser...

Excellence in any of the fine arts, so called, is only attained by the few; and is much more frequently the result of long continued, patient industry and observation than of genius. When this and those other qualities are united in the same person, we have one who excels in his art. Such a person is Mr. M. R. Reger, the Artist, at this place. A visit to whose studio will not only afford great pleasure to any lover of art, but will afford ample proof of our assertion. In addition to the countless pictures, sketches and articles of virtu, he has quite a collection of curiosities—in the animal kingdom—rare birds and animals stuffed, and looking as natural as life. Go and see them, rooms over the Bank, in Stark's brick block.

An Invention of practical every-day utility has been exhibited to us by an old acquaintance, Thomas Chambers, Esq. of Waverly, Pa., the Agent for its sale in this County. It is called the "White Wire Clothes Line," and is destined to entirely supersede the rope line now in use. The advantages of this Patent wire may be briefly stated as follows: It does not stain nor injure clothes. It is almost indestructible. It never breaks. It never needs to be "taken in." Clothes will not freeze fast to it. It does not stretch when dry, nor contract when wet. It is cheaper than any other line—the cost per foot, being but a trifle above that of the common rope line; which only lasts about a year.

It will save an incalculable amount of internal and external soiling on washing day, by being always up and in place.

Every man who refuses to buy and put up one of these lines, should be obliged to wear dirty lines on court weeks, general training, thanksgiving and show days; and indeed on all public occasions, until he repents, believes and buys.

Glad Tidings to all.—We begin to think that the millennium is fast approaching, when the sons of Adam and the daughters of Eve will be relieved from the primal penalty imposed upon them for their disobedience of the old Lady and Gentleman, in the garden. The "hard labor" part of that penalty can certainly be alleviated. An examination of the practical workings of the "Atmospheric Churn Dash" now on exhibition by Mr. Reynolds, Agent, for the sale of rights, in this County, prove it. This gentleman with his patent dash, churned a jar of cream at our house and took therefrom a fine roll of butter, in less than five minutes. This is what we call "churning made easy"—a thing that we didn't suppose could be did. Of course every body sooner or later will have one of these Dashes. Of course everybody at first will doubt, then see and then believe. Mr. Reynolds is at Wall's Hotel, for the purpose of removing doubts by letting people see, when this is done, he proposes to sell the right to vend and use these dashes in the several Townships in this Co. See his advertisement, in to-day's paper.

"The perfume light Steals through the mist of alabaster lamps, And every eye is heavy with the breath Of orange flowers that bloom 'T' the midst of roses."

Such was the flowery land filled with healing airs and life-preserving products, where Dr. Drake discovered the chief ingredients of his wonderful Tonic Medicine—PLANTATION BITTERS—the enchanted tropic island of St. Croix. The Plantation Bitters combining all the medicinal and tonic virtues of the healing and life-sustaining products of that favored climate, are, without doubt, the Worlds Great Remedy for Dyspepsia, Low Spirits, and all other Stomachic difficulties.

Magnolia Water.—A delightful toilet article—superior to Cologne and at half the price.

Answer to Enigma.—A few of our subscribers seem to have some trouble in guessing the import of the letters and figures on the tinted address-label on their papers. Perhaps they are not good at Enigmas. We feel it our duty to give such an explanation of these cabalistic words, and figures, which we are glad to say, a large majority of our friends fully comprehend and act upon. The explanation may be given as follows: Suppose your name was John Doe, Suppose, again, that John Doe had been taking the Democrat from about the first day of August, A. D. 1861, and had never paid one continental red cent for it. The words and figures on the label on Mr. Doe's paper would read thusly, "John Doe 1 Aug. 61."

We are ashamed to confess that we have a few of these John Doe's and quite a number who are closely related to the Doe family, on our list, whose real names, it might be interesting to the public, to know.

We may be obliged to gratify the public curiosity by publishing their names, if they fall much longer to understand and act upon the explanation we have given.

Have we a Mine Among us?—Is the question that is just now exercising the minds of the people in Nicholson Tp., in this County. It has been well known, for a long time past, that at several points in that township, there existed ores and metallic substances of some kind. From experiments recently made, it is believed that Gold and Silver exist there in sufficient quantities to make mining profitable. This is the opinion of practical men, who are now giving a practical demonstration of the faith that is in them, by organizing a mining Company; and are securing the necessary machinery and appliances for thoroughly testing the value of these discoveries. The title of the Company organized for this purpose, (we copy from an impression of their seal) is "THE NEW YORK & PENNSYLVANIA GOLD AND SILVER MINING COMPANY—OF WYOMING CO., PA." We expect to be able to report progress and announce results hereafter. It may be that the Eldorado of the east is located here in Wyoming County. It is charitable and gratifying to think so, at least. If these grand old mountains of ours, are not teeming with precious metals, they are entirely useless, except as studies for the poet and the painter. Some nature, in getting them up, may have made provision for the gratification of other tastes and interests as well.—We shall see.

Excursion.—Pursuant to an invitation extended by Mr. Swisher, the gentlemanly and obliging proprietor of the stage line from Tunkhannock to Montrose, in behalf of the citizens of Springville our Brass Band started for the latter point about one o'clock on Thursday afternoon of last week. A comfortable and commodious conveyance had been provided, and the day was propitious, and indications of a good time and pleasant trip were immediately manifest. After playing a tune through town we were "brought to a stand" in front of Wall's Hotel, where several of our prominent citizens had congregated to do us honor, and extend to us their hospitalities. A beautiful bouquet from Mrs. Wm. M. Platt, was presented to us, accompanied by a few appropriate remarks by the Major and acknowledged by our leader. The national banner was mounted and raised; and after being saluted by "the red, white and blue" from the band, we literally tore ourselves away, followed by the good wishes of all present. Jokes, puns, stories, individual experiences, and music, vocal and instrumental, were the order of the journey. Reaching Lynn, we stopped for a short time in front of Mr. Hendrick's store, and after reconstructing upon the "Niagara Star" stage, proceeded to Springville. Our reception and treatment there was enthusiastic, generous, and appreciative. We each and all of us feel that we shall always kindly remember that village and its citizens, more particularly the young ladies, whose words and smiles furnished us with so pleasant music and encouragement. We have neglected to notice one item while passing, but as a good thing is always in order we will, as Buzzer says, "do it now." As we were about crossing the line between the two counties, a dog half black and half white was discovered quietly reposing in the middle of the road. One of the party called our attention to him and suggested that that must be the line mark; leaving us to infer that in his judgment the complexion of the dog was indicative of the political complexion of the two counties. But to return. We remained at Springville that night, and early the next morning were on our way to Montrose, where we had been informed we were expected that day. Arriving at "the Cope farm" we were met by Mr. Conklin, the present owner, who very liberally contributed to our wants in the shape of some very excellent cider. Proceeding to Montrose we arrived at Searis' Hotel, now kept by Charles Koon, about seven and a half o'clock. Our breakfast had already been ordered for us by Mr. George Jessup, who had preceded us from Springville; and we were all prepared to do it ample justice. We remained in Montrose until after dinner, were feasted and fêted splendidly, and without fee or reward, and were very urgently requested to prolong our visit to an indefinite extent; and if any person says that Charles isn't a good man and can't keep a hotel, or that his lady is not especially accomplished in her department of the same, at least twelve appreciative young men, and competent judges, too, are prepared to impeach him at once. We are now, (two o'clock P. M.) homeward bound, regretting the necessity that compelled us to leave Montrose and its inducements, so hurriedly. Stopping for a short time at Dimmock, we were met by a delegation of friends from home, who were sufficiently interested in us and with us to come that far to meet us. We proceeded until we were again stopped by Mr. Conklin for "a little more cider." Reached Springville to tea, and found, as the day before, everything nice, ready and waiting. Without allowing ourselves time to reproach the courtesies extended toward us, we "pointed" rapidly toward home. Were again met at Lynn by a special from Mr. Hendrick, and soon by an irresistible from Mr. Garwood Sherman, father of our jovial and enterprising townsmen, and Henry Sherman, after which we arrived safely at home. Some fanciful individual has asserted that we were too well treated to do ourselves justice upon our arrival here. Which assertion we emphatically deny, and can disprove by a cloud of witnesses.

PERUVIAN SYRUP. A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON, supplies the blood with its LIFE ELEMENT, IRON, giving strength, vigor and new life to the whole system. If the thousands who are suffering from DYSPEPSIA, DEBILITY, FEMALE WEAKNESS, &c., would but test the virtues of the PERUVIAN SYRUP, the effect would not only astonish themselves but would please all their friends; for instead of feeling creak, "all gone" and miserable, they would be cheerful, vigorous and active. A DISTINGUISHED JURIST WRITES TO A FRIEND AS FOLLOWS: I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a NEW MAN of me, infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor; mental and physical, than at any time during the last five years. Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial. The genuine has "Peruvian Syrup" blown in the glass. A 32 page pamphlet will be sent free J. P. DINSMORE, Proprietor, No. 36 Dey St., New York. Sold by all Druggists.

SCROFULA. The Rev. George Storms, of Brooklyn, N. Y., says in the Bible Examiner, by way of apology for publishing a medical certificate in his magazine, of the cure of his only son, of Scrofula, "After dissolution appeared inevitable." "We published this statement not for pay, but in gratitude to God who has answered prayer, and in justice to Dr. Anders; being satisfied that there is virtue in the Iodine Water treatment, which the readers of this Magazine will thank their editor for bringing to their notice." Circulars free. Dr. H. Anders' Iodine Water is for sale by J. P. DINSMORE, Proprietor, 36 Dey St., N. Y., and all Drug Agents.

DR. SCHENCK'S MANDRAKE PILLS A SUBSTITUTE FOR CALOMEL. These Pills are composed of various roots having the power to relax the secretions of the liver as promptly and effectually as blue pill or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the last.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious disorders in general. SCHENCK'S MANDRAKE PILLS cure Sick Headache, and all disorders of the Liver, indicated by yellow skin, coated tongue, costiveness, drowsiness, and a general feeling of weariness and lassitude, showing that the liver is in a torpid or obstructed condition. In short, these Pills may be used with advantage in all cases, when a purgative or alterative medicine is required.

TAKE NO MORE UNPLEASANT AND UNSAFE REMEDIES for unpleasantry and dangerousness. Use Helmbold's Extract Buchu and Improved Rose Wash. THE PACIFIC RAILROAD CO. THEIR FIRST MORTGAGE BONDS As an Investment. The rapid progress of the Union Pacific Railroad, now building west from Omaha, Nebraska, and forming, with its western extensions, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bonds which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?" Next, "are they a profitable investment?" To reply in brief: The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty millions of acres of land and fifty million dollars in its own bonds practically guarantees it. One fourth of the work is already done, and the track continues to be laid at the rate of two miles a day.

2d. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

3d. 376 miles of this road are finished, and fully equipped with depots, locomotives, cars, &c., and two trains are daily running each way. The materials for the remaining 131 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September.

4th. The net earnings of the sections already finished are several times greater than the gold interest upon the First Mortgage Bonds upon such sections, and if not another mile of the road were built the part already completed would not only pay interest and expenses, but be profitable to the Company.

5th. The Union Pacific Railroad bonds can be issued only as the road progresses, and therefore can never be in the market unless they represent a bona fide property.

6th. Their amount is strictly limited by law to a sum equal to what is granted by the U. S. Government, and for which it takes a second lien as its security. This amount upon the first 517 miles west from Omaha is only \$16,000,000 per mile.

7th. The fact that the U. S. Government considers a second lien upon the road a good investment, and that some of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which is to them a third lien), may well inspire confidence in a first lien.

8th. Although it is not claimed that there can be any better securities than Governments, there are parties who consider a first mortgage upon such a property as this the very best security in the world, and who sell their Governments to re-invest in the same.

9th. As the Union Pacific Railroad bonds are offered for the present at 90 cents on the dollar and secured interest, they are the cheapest security in the market, being over 15 per cent. less than U. S. Stocks.

10th. At the current rate of premium on gold, they are worth more than their face value. Over Nine per Cent. Interest. The daily subscriptions are already large, and will continue to be received in New York by the Continental National Bank, No. 7 Nassau St. Clark, Dodge & Co., Bankers, 51 Wall St. John J. Cisco & Son, Bankers, No. 33 Wall St. Henry Clews & Co., Bankers, 32 Wall St.

and by BANKS AND BANKERS generally throughout the United States, of whom maps and descriptive pamphlets may be obtained. They will also be sent by mail from the Company's Office, No. 20 Nassau Street, New York, on application. Subscribers will respect their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the bonds. JOHN J. CISCO, Treasurer, NEW YORK. v6n48-50.

Thomas' Patent Atmospheric CHURN DASH. Patented May 7th, 1867. The most Important and Valuable Invention of the 19th Century.

1. The Dash is superior to any other, by being as simple as the old dasher, and combining the atmospheric principle therewith, and the Butter Dasher. 2. It is superior to all others, inasmuch as it produces a much shorter time. 3. It is superior to all others, inasmuch as it produces a much better quality of Butter. Lastly it is superior to any other Patent Churn, inasmuch as it is 500 per cent. cheaper than any other.

LARGER YIELD OF BUTTER OBTAINED IN LESS TIME THAN ANY OTHER DASHER. Experiments have proven that no other method except pumping air through the cream will not penetrate sufficiently to oxygenize all the globules preparatory to concentrating the butter. Throwing it into the air by clappers of old fashioned Dashers, does not sufficiently expose it to the air to bring out the Butter.

The above Patent Dash has been purchased for Susquehanna, Wyoming and Laramie Counties by A. P. Baldwin, of Montrose. The process of churning can be seen on exhibition at Wall's Hotel, in Tunkhannock, for a few days by Mr. Reynolds, agent, who will sell township rights. A. P. BALDWIN, Montrose, July 23d, 1867.

OPINIONS OF THE PRESS. The Philadelphia Inquirer speaking of this invention says: "This most simple, practical and useful invention, truly merits the patronage of not only men of science, but also every agriculturist and farmer." The Philadelphia Age in speaking of the practical operation of this invention says: Having witnessed the operation of the Atmospheric Churn Dash, we are without doubt satisfied that it is one of the nearest and most useful inventions exhibited. The dash can be used in any churn, and will produce butter in from three to five minutes. Its operation is simple and ingenious, acting on the same principle as the ordinary air pump. By its use fresh air is, upon each motion, forced into the churn and the cream thrown into currents and counter currents, producing not only a much finer and healthier quality of butter, but a far greater yield than can be obtained by any patent churn ever invented.
