## ECONOMY IS WEALTH

We understand what the people want. They want goods at the lowest possible prices. They want to pay cash and save 50 per cent. They don't want to pay enormous prices for the so-called "best goods market."

They don't want to pay their bills when dealing with a store, which they are obliged to do, because the dealer must put on a profit to make up for his losses by who don't pay.

But they do want to buy from that sells only for cash and one cent all, which is the lowest possible, and who buys directly from the consumer the advantage of a discount; also, saving a drummer's and lastly, paying the consumer count for paying cash.

The policy of the Bargain Store give the buyer all the discount. Everything in the line of Tinware, Shoes, Hardware, Noting to be had at panic prices at the

BARGAIN STORE South-east corner Diamond Somerset.
